THE WHITE HOUSE

WASHINGTON

MEMORANDUM FOR THE HONORABLE CASPAR W. WEINBERGER  
The Secretary of Defense

THE HONORABLE DONALD P. HODEL  
The Secretary of Energy

SUBJECT: Proposed Amendment to the U.S./U.K. Agreement for  
Cooperation on the Uses of Atomic Energy for  
Mutual Defense Purposes

I have reviewed and concur in the positions taken in your joint letter to me of May 23, 1984, recommending approval of a proposed amendment to the Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes. I note from your joint recommendation that the United Kingdom is participating with the United States pursuant to an international agreement by substantial and material contributions to the mutual defense and security. The proposed Amendment will permit cooperation which will further improve our mutual defense posture and be in support of NATO.

I hereby:

- approve the proposed Amendment to the 1958 Agreement;
- determine that performance of the proposed Amendment will promote and will not constitute an unreasonable risk to the common defense and security; and
- approve the program outlined in this Amendment and determine that such program will promote and will not constitute an unreasonable risk to the common defense and security; and
- authorize the execution of the proposed Amendment for the Government of the United States in a manner specified by the Secretary of State.

cc: Secretary of State

THE WHITE HOUSE

WASHINGTON

To the Congress of the United States

I am pleased to transmit to the Congress, pursuant to Section 123.d of the Atomic Energy Act of 1954, as amended, the text of an amendment to the Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes of July 3, 1953, as amended (Enclosure 1), and my written approval, authorization, and determination concerning the agreement (Enclosure 2). The joint classified and unclassified letters submitted to me by the Secretaries of Energy and Defense which provide a summary position on the Amendment are at Enclosure 3.

The Amendment extends for ten years (until December 31, 1994) provisions which permit the transfer of nonnuclear parts, source, byproduct, special nuclear materials, and other material and technology for nuclear weapons and military reactors.

In my judgment, the proposed Amendment meets all statutory requirements. The United Kingdom intends to continue to maintain viable nuclear forces. In light of our previous close cooperation and the fact that the United Kingdom has committed its nuclear forces to NATO, I have concluded that it is in our interest to continue to assist them in maintaining a credible nuclear force.

I have approved the Amendment, authorized its execution, and urge that the Congress give it favorable consideration.

Enclosures as cited above

LETTER

The President  
The White House  
Washington, DC 20500

Dear Mr. President:

Hereby submitted for your consideration and approval is a proposed Amendment to the 1958 Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes.

The Amendment will extend, under the authority of the Atomic Energy Act of 1954, as amended, those provisions of the 1958 Agreement, as amended, which provide for the transfer of materials, equipment, and technology for research on, development of, or use in nuclear weapons or in military reactors. Further information on the materials and equipment to be transferred, or authorized for transfer, by the United States during the effective period of this Amendment (i.e., from January 1, 1985, through December 31, 1994) are covered in a supplementary classified letter. Article III bis, which provided for exchange of materials and equipment, terminates on December 31, 1984, and an amendment is required to extend its provisions. Consonant with your correspondence with Mrs. Thatcher, we have determined that these materials and equipment can be made available, subject to our capability to satisfy the needs of the U.S. defense programs.

As is required by the Atomic Energy Act of 1954, as amended, the United Kingdom, by participating with the United States pursuant to an international arrangement, is making substantial and material contributions to the mutual defense and security. The United Kingdom's nuclear forces are virtually all committed to NATO.

We recommend that you:

- a. approve the program outlined in the proposed Amendment to the 1958 Agreement;
- b. determine that cooperation under the proposed Amendment will promote and will not constitute an unreasonable risk to the common defense and security; and

c. authorize the execution of the proposed Amendment for the Government of the United States in a manner specified by the Secretary of State.

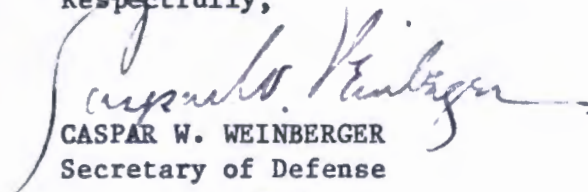

The Department of State concurs in the foregoing recommendations.

DONALD PAUL HODEL  
Secretary of Energy

Enclosure MAY 10 1984

Respectfully,

CASPAR W. WEINBERGER  
Secretary of Defense

TO THE CONGRESS OF THE UNITED STATES:

*Hell  
for Linhard*

I am pleased to transmit to the Congress, pursuant to Section 123d. of the Atomic Energy Act of 1954, as amended, the text of an amendment to the Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes of July 3, 1958, as amended, and my written approval, authorization, and determination concerning the agreement. The joint unclassified letter submitted to me by the Secretaries of Energy and Defense which provides a summary position on the Amendment is also enclosed. A classified letter and attachments are being transmitted directly to the appropriate Congressional committees.

The Amendment extends for ten years (until December 31, 1994) provisions which permit the transfer of nonnuclear parts, source, by-product, special nuclear materials, and other material and technology for nuclear weapons and military reactors.

In my judgment, the proposed Amendment meets all statutory requirements. The United Kingdom intends to continue to maintain viable nuclear forces. In light of our previous close cooperation and the fact that the United Kingdom has committed its nuclear forces to NATO, I have concluded that it is in our interest to continue to assist them in maintaining a credible nuclear force.

I have approved the Amendment, authorized its execution, and urge that the Congress give it favorable consideration.

MEMORANDUM FOR THE SECRETARY OF DEFENSE

THE SECRETARY OF ENERGY

SUBJECT: Proposed Amendment to the U.S.-U.K. Agreement  
for Cooperation on the Uses of Atomic Energy  
for Mutual Defense Purposes

I have reviewed and concur in the positions taken in your joint letter to me recommending approval of a proposed amendment to the Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes. I note from your joint recommendation that the United Kingdom is participating with the United States pursuant to an international agreement by making substantial and material contributions to the mutual defense and security. The proposed Amendment will permit cooperation which will further improve our mutual defense posture and be in support of NATO.

I hereby:

- approve the proposed Amendment to the 1958 Agreement;
- determine that performance of the proposed Amendment will promote and will not constitute an unreasonable risk to the common defense and security; and
- approve the program outlined in this Amendment and determine that such program will promote and will not constitute an unreasonable risk to the common defense and security; and
- authorize the execution of the proposed Amendment for the Government of the United States in a manner specified by the Secretary of State.

Ronald Reagan

The President  
The White House  
Washington, DC 20500

Dear Mr. President:

Hereby submitted for your consideration and approval is a proposed Amendment to the 1958 Agreement Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for Cooperation on the Uses of Atomic Energy for Mutual Defense Purposes.

The Amendment will extend, under the authority of the Atomic Energy Act of 1954, as amended, those provisions of the 1958 Agreement, as amended, which provide for the transfer of materials, equipment, and technology for research on, development of, or use in nuclear weapons or in military reactors. Further information on the materials and equipment to be transferred, or authorized for transfer, by the United States during the effective period of this Amendment (i.e., from January 1, 1985, through December 31, 1994) are covered in a supplementary classified letter. Article III bis, which provided for exchange of materials and equipment, terminates on December 31, 1984, and an amendment is required to extend its provisions. Consonant with your correspondence with Mrs. Thatcher, we have determined that these materials and equipment can be made available, subject to our capability to satisfy the needs of the U.S. defense programs.

As is required by the Atomic Energy Act of 1954, as amended, the United Kingdom, by participating with the United States pursuant to an international arrangement, is making substantial and material contributions to the mutual defense and security. The United Kingdom's nuclear forces are virtually all committed to NATO.

We recommend that you:

- a. approve the program outlined in the proposed Amendment to the 1958 Agreement;
- b. determine that cooperation under the proposed Amendment will promote and will not constitute an unreasonable risk to the common defense and security; and

c. authorize the execution of the proposed Amendment for the Government of the United States in a manner specified by the Secretary of State.

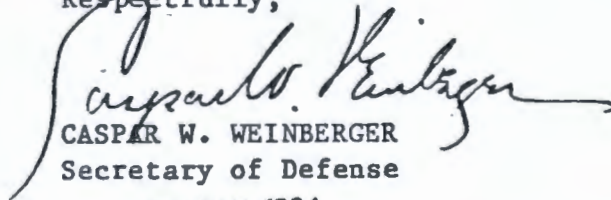

The Department of State concurs in the foregoing recommendations.

DONALD PAUL HODEL  
Secretary of Energy
