

How to Search for Audiovisual materials on Reagan Library website (<https://www.reaganlibrary.gov/>)

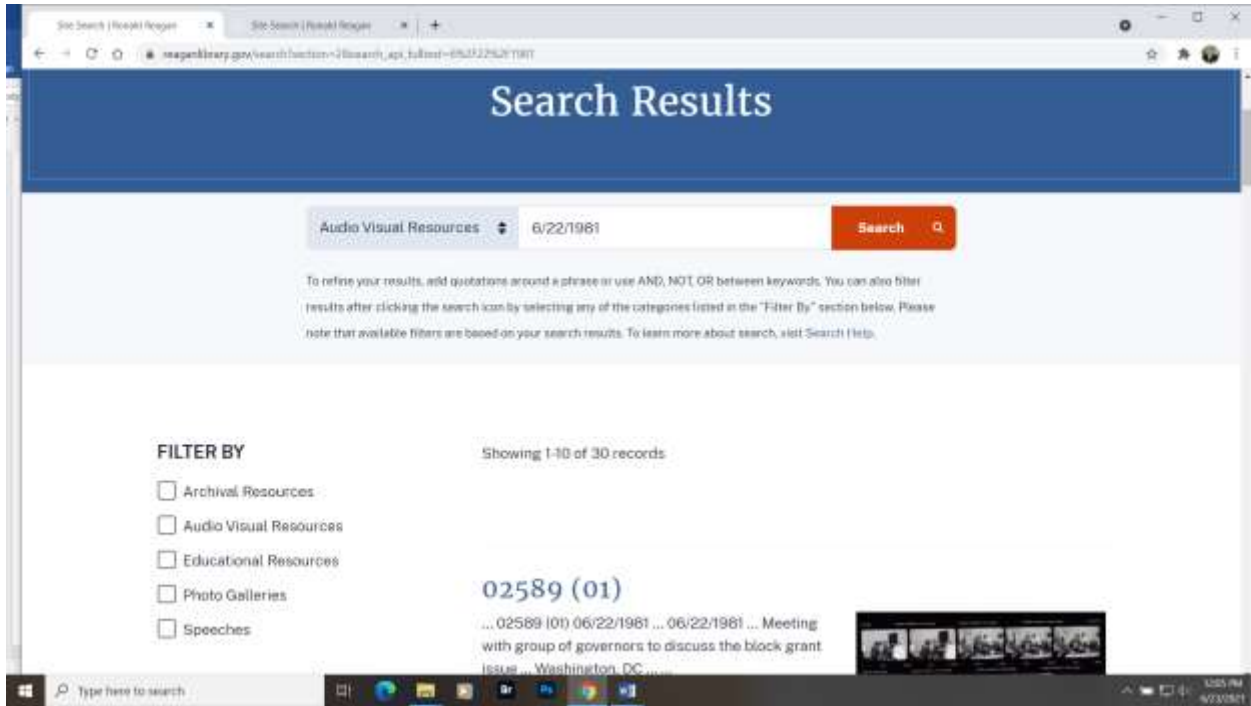

From the main website home page click on Archives at the right for drop down options and then Audiovisual for the AV collection.

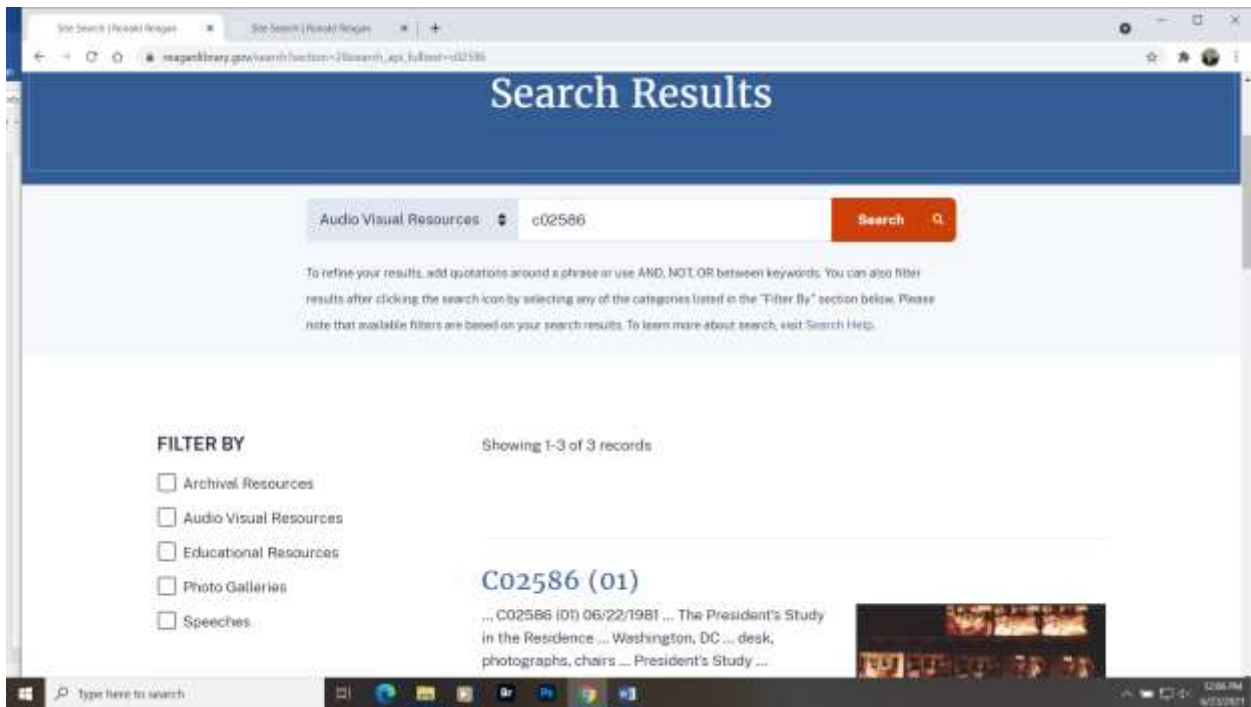

The best way to search for specific AV items (Photos, video and audio) is by using the Site Search field on the main Audiovisual page. <https://www.reaganlibrary.gov/archives/audiovisual>.

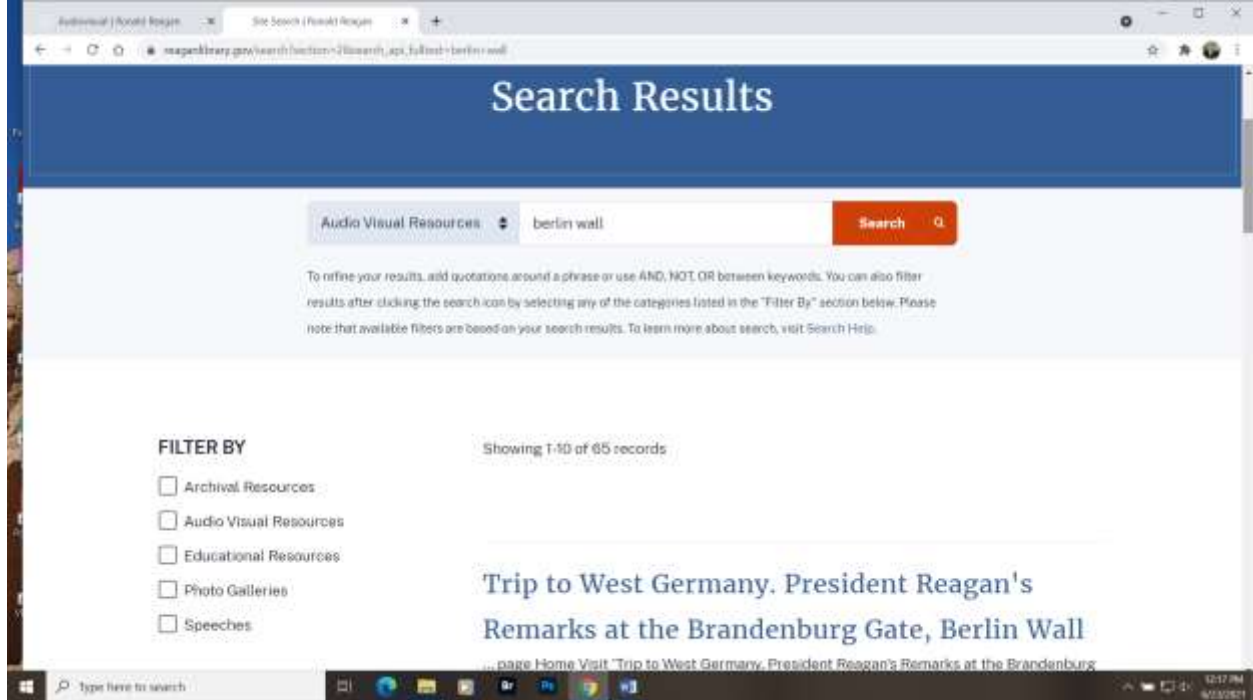

Once on the page click on the down arrow at the site search field and click on Audio Visual Resources. This example has a standard date search for **6/22/1981**.

This example has a search for a specific contact sheet **C02586**. The results have links to the larger contact sheet images by clicking on the contact sheet numbers.

This example has a search for a specific name **Berlin Wall**. The results have links to video, audio and photo contact sheet images.

If you are still having problems searching for Audiovisual items you can contact the Reagan Library staff at Reagan.library@nara.gov.

Ordering information is located on our website here. <https://www.reaganlibrary.gov/audiovisual-ordering-information>.
