

The Search for **BONNIE AND CLYDE**

Welcome to The Search For Bonnie and Clyde! In this activity, students will play in singles or pairs, taking on the roles of FBI agents that are tracking down Bonnie Parker, Clyde Barrow, and the rest of the Barrow Gang.

Players will take part in six timed activities to figure out different information about the Barrow Gang, such as who's in it and where they are headed next. Below, you'll find an overview of each mission, including the time limits and correct answers. Good luck to you and your agents!

4 Points are required to win the game. Mission 1, Part 1 is worth 2 points (1 point for getting each member of the gang correct). The rest of the missions (except for the interrogation) are worth 1 point. If the player gets a correct answer they get 1 point. The interrogation mission is not worth any points. The players are only told they need enough points to win, they are not told the number needed or how many each mission is worth.

Mission 1 - Part 1

Your agents will look at a rap sheet to try and figure out which two people are joining the Barrow Gang.

- Time limit: 5 minutes
- Correct answer: The Barrow gang forms to include Clyde, Bonnie, **Raymond Hamilton, W.D. Jones**, Clyde's brother Buck Barrow and Buck's wife, Blanche Barrow.

Mission 1 - Part 2

After analyzing a coded letter Bonnie was sending to her mom, agents will have to decide which state the Barrow Gang are headed to.

- Time limit: 5 minutes
- Correct answer: The gang is headed to **Iowa**.

Mission 2 - Part 1

Four witnesses have come forward who have possibly seen Bonnie and Clyde. But which lead will your agents decide to follow?

- Time limit: 7 minutes
- Correct answer: **Witness 2** actually saw the Barrow Gang, and they're headed to Dexfield Park.

Mission 2 - Part 2

After the shootout at Dexfield Park, authorities were able to detain Blanche Barrow, and your agents get to start the interrogation. What questions will they choose to ask her?

- Time limit: 3 minutes
- Correct answer: There is no 'correct' answer here - sometimes the witness just won't cooperate.

Mission 3 - Part 1

Partial fingerprints were found at the scene of a crime, and now it's up to the agents to match it to the correct full fingerprint. Is it Clyde's?

- Time limit: 3 minutes
- Correct answer: Sample D is Clyde Barrow's fingerprint.

Mission 3 - Part 2

It all comes down to this last letter - can your agents figure out the clues to break the code and figure out the last location of Bonnie and Clyde?

- Time limit: 5 minutes
- Correct answer: Part 2: Bonnie and Clyde are in Ruston, Louisiana.
