Dear Dr. Broder:

Thank you for serving as tour guide extraordinaire and explainer of the mysteries of the human immunodeficiency virus (HIV) during the President's recent visit to the National Institutes of Health.

Your work, and that of your colleagues, is true testimony to those words of W. H. Auden's the President cited in his remarks that afternoon -- that the true men of action in our times are not politicians or statesmen, but scientists.

Again, my thanks for your participation, and my very good wish for your continuing work relating to HIV infection and treatment.

Sincerely,

Nancy J. Risque  
Assistant to the President  
and Cabinet Secretary
