What Does Aloe Vera Do For You?

The stories of the effects of Aloe Vera seem incredible. You may wonder how a simple plant juice can have so many different effects on the skin and body.

Some of the earliest scientific research on Aloe Vera was performed in 1935 by researchers for the Atomic Energy Commission. They concluded that Aloe Vera was the most effective product known for the treatment of radiation burns of the skin. Still, they did not uncover what actually happens when Aloe Vera comes into contact with the skin. Later, scientists began to analyze the specific chemical makeup of Aloe Vera. It was only then that the explanation for the many properties of Aloe Vera began to unfold.

First, Aloe Vera was shown to be very, very complex, not a simple juice like many plants, but a composite of numerous biologically active ingredients.

(1) Aloe Vera is an excellent nutrient. It contains important proteins, vitamins, mineral and substances essential to the release of energy.

(2) In addition, the chemical makeup of Aloe Vera causes it to penetrate into the skin rapidly, thus carrying the nutrients to the living cells of the Epidermis.

(3) Aloe Vera contains several enzymes, the activities of which are not fully understood. However, it has been demonstrated that Aloe Vera promotes the removal of dead skin and stimulates the normal growth of living cells.

In order to understand the importance of these characteristics it is necessary to comprehend the structure of the skin itself.

As you know, skin has three layers:

A. Epidermis – Consists of living surface cells which both protect the body against the environment and provide an additional means of removing waste products as the outermost layers die and slough off. All of the dead skin you remove when you bathe is the uppermost area of the Epidermis. Although the Epidermis contains living cells, it has no blood supply. Its nutrition must come from the Dermis below.

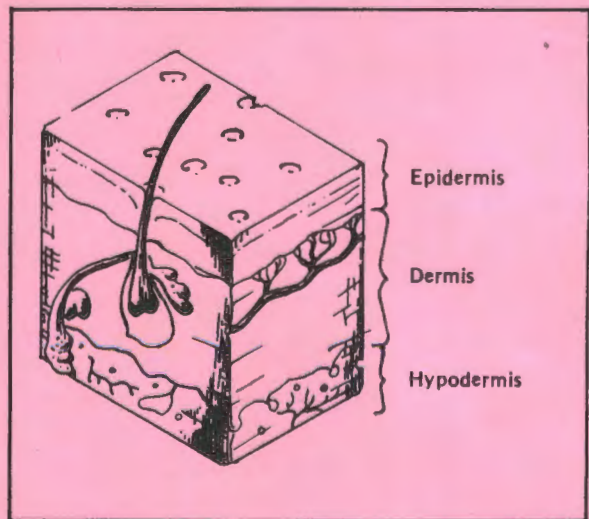

B. Dermis – Beneath the Epidermis is the Dermis which provides the strength and toughness of the skin and contains the blood supply. It also contains the hair shaft, tiny muscles and oil glands.

C. Hypodermis – Is comprised of a soft layer of fatty tissue. Along with the Dermis, it contains the sweat glands, hair follicles, nerves and blood vessels.

Considering, then, the structure of the human skin, and the makeup of Aloe Vera, you can begin to see why the Aloe juice improves skin health. Nutritional elements in the Aloe Vera are carried deep into the layers of the skin, stimulating the growth of normal cells, removing dead cells and bringing in vitamins and proteins.

Why doesn't the body's blood stream do this same job from within? You might ask why is it necessary to "feed" the skin when that is the function of our blood system. The fact is that the youthful skin of a young child is well nourished, but as we pass from childhood to maturity a process takes place within our blood vessels which thickens their walls and reduces their ability to supply nutrients to all body tissues.

This particularly effects the Epidermis. As you recall, it has no blood supply, but depends on the nutrients which come to it through the Dermis layer. Aging slows this down. By supplementing this nourishment to the skin, Aloe Vera creates a younger look. You may notice an actual youthful glow in the skin of a person who uses a good Aloe Vera care program. It can take five to seven years off the appearance of many adults.

Aloe
Dreams
P66-B

HISTORY

In the ancient history of Aloes we find its uses in the medical field as well as in cosmetics by Egyptians, Romans, Italians, Algerians, Moroccans, Tunisians, Greeks, Arabians, Indians, Chinese and others. For example, Cleopatra supposedly attributed her irresistible charm and beauty to the use of Aloe gel.

Papyrus Ebers written 3500 years ago (original copy safeguarded in Leipzig University) describes Aloe and its medicinal virtues which were known for many centuries before.

Dioscorides recorded many applications of Aloe 2000 years ago: wounds, binding, insomnia, stomach disorders and pain, constipation, hemorrhoids, itching, headache, loss of hair, mouth and gum diseases, kidney ailments, blistering, skin care, sunburn, blemishes, etc.

The historians have recorded that Aristotle persuaded Alexander the Great to conquer the Island of Socotra (East Africa) for the purpose of obtaining sufficient amounts of Aloes as a wound healing agent for their soldiers.

In the New Testament (John 19:39) reference is made to Nicodemus coming by night and bringing a mixture of Myrrh and Aloe to embalm the body of Jesus. Aloe is believed to be derived from ALOE vera LINNE.

In Africa, the Aloe has been placed over the entrance of a house to insure a long and flourishing life for the inhabitants and was regarded as a good luck charm. Also, it supposedly kept evil spirits away!

The African Sutos tribes require all people of the village to bathe publicly in an infusion of Aloe in case of an epidemic of colds.

Congo hunters rubbed their bodies with the Aloe gel to reduce perspiration and eliminate human scent.

Marco Polo found that the Chinese used Aloe for stomach ailments, treatment of rashes and other skin disorders.

Malayans and Jamaicans bind a slab of Aloe pulp to the forehead to relieve headaches.

The Philippines employ leaves to poultice edema of beriberi sufferers. To preserve hair, they apply Aloe pulp with wine.

Columbus' ship log contained notations for the medicinal uses of Aloe.

New World discoverers, probably Spaniards, brought the Aloe plant of North African origin (Aloe Vera) to the Canary Islands, Jamaica, Aruba, Haiti, Antiqua, Venezuela, Peru, Bolivia and other tropical and sub-tropical regions. In 1596 Aloe was introduced to the Island of Barbados.

Spanish missionaries in the Western Hemisphere always planted and grew Aloe around their settlements and carries it around with them for miles for the comforting of the sick.

In Cuba the popular cold remedy is made from Aloe with sugar and rum.

In Colombia, children's legs and feet are coated with gel to protect them from insect bites.

In the West Indies and Southern Florida, Aloe leaves are shredded and added to the drinking water of poultry during moulting and to cure the pip.

Seminole Indians used the healing gel in their surgery where it was applied to the incision.

Central American Mexicans used Aloe gel for centuries for many remedies for burns, to prevent blisters, peptic and duodenal ulcers, dysentery, and all types of stomach and intestinal disorders, longevity, prostatitis, sexual prowess, bladder and kidney infections, topical and gastric ulcers, etc.

In Java, Aloe gel was used to prevent formation of scars resulting from wounds or skin irritations. Juice was massaged into the scalp and hair to improve its condition and to stimulate growth.

South American farmers, as they migrate, move their Aloe plants with them. Often an Aloe plant is a gift for newly-weds' backyards.

WHY is the Aloe Vera called...mysterious?

For over 3500 years, tales of "healing Aloe Vera" plants have been handed down through centuries by word of mouth. From the Bible's mention of removing Christ from the cross and wrapping his body in aloes and myrrh, (John 19:39) we find Aloe Vera mysteriously appearing in every phase of history . . . with many testimonials to its great medicinal values. Legend tells us it was Cleopatra's beauty secret; it is believed the Egyptians used it, not just for beauty, but for embalming; we know Marco Polo found the Orientals using it for all things. Modern research has discovered substantial proof as to the powers of the "gel" contained in this mysterious and age-old natural plant.

the TRUE Aloe Vera

. . . . traversing the continents with testimonials of the curative powers. . . . is considered by many to be a member of the cactus family. In reality, it is a member of the lily family. There are over 200 species of the Aloe plant, but only ONE true aloe-vera!! Vera in Spanish means true. Only the authentic Aloe Vera insures the potent therapeutic effects nature built in!!

It has been only recently that Aloe Vera has been "rediscovered" and has come back into general use. Ironically enough, it was the invention of X-ray and the atom bomb which again focused attention upon the plant, for it was found early in the search for protection against radiation burns that the best treatment was Aloe Vera gel. As chemical, medical and physical scientific research has progressed, many old remedies have been found to be worthless because they were based upon faulty information and reasoning. Some, however, have been discovered to be infinitely superior to many synthetics. Aloe Vera is one of the old natural remedies that has taken its place in the space age as one of the modern "Miracle" drugs.

Aloe Vera gel is a most ingenious mixture of antibiotic, astringent coagulating agent, a pain inhibitor, and a growth stimulator, (also called a "wound hormone"), whose function is to accelerate the healing of injured surfaces.

Used for pain, relief and healing of hemorrhoids, applied externally and internally. Pharmaceutical products are being used to control female problems of "yeast infection".

Physicians have greatly reduced the external scarring with the use of Aloe Vera. Sunburn, scratches, cuts, cleansing purge for the body or skin; as aid to growing new tissue, aid in alleviating the advance of skin cancer under sun rays; treatment for ringworm, boils, inflamed joints, scalds, itchy, allergic conditions, insect stings and bites. Definite softening of external skin, relief from dry or sensitive skin and skin diseases.

BENEFITS ALIMENTARY SYSTEM

Its healing juices are just as beneficial to the insides of man as they are to the outside. Mexicans and Indians, in our hemisphere, have long used the juice, which is more like a gel after extraction, as a tonic for better digestion, and for relief of ulcers and poor elimination. In itself not laxative, or only mildly so, the Aloe is believed to improve digestion and assimilation of food eaten, so that elimination is naturally normalized. This concept is in accordance with the Chinese or Oriental philosophy of medicine, and goes back more than 5000 years in their recorded history.

Dentists and oral surgeons are using pharmaceutical medications made from the Aloe Vera gel for use in surgery, swift healing, relief of pain and treatment of the mouth, including mouth ulcers, fever blisters, cold sores, cankers.

...magical?

We now know, through research, that the gel from the Aloe Vera leaf is capable of penetrating to the water-retaining second layer of skin; helping to sluff the dead cells gathered there (causing beauty marring); also in dissolving the root of infection. Possibly, the magical term could come from what many consider its biggest secret and most magical medical mystery. . . . the ENZYMES ACTION . . . working speedily within the gel . . . seems to foster the growth of healthy, new tissue building. It is reported by many to have this amazing ability to penetrate, giving quick relief from pain, both topically and below the skin. People testify to its internal magic properties, too, in the reduction of arthritic, ulcers, indigestion, constipation, and many others.

....skin care....

From the dim history of Greeks and Egyptians using the gel in cosmetics . . . through the ages in other civilizations . . . you find many Aloe-cosmetics and skin care items on the market today. Many of the companies use a pasteurized process in preparing the gel for use with other ingredients. Recently, one company has even stabilized the gel, retaining STERILE and therapeutic values of the fresh gel, without refrigeration. This alone proves the value of the gel in the area of skin care; research and money involved in discovering stabilization tells you it is a valuable secret. Hundreds of people have reported the enzyme activity actually reduces and eliminates scars, liver spots, age lines, marks, blotches, etc. The ability of new cell growth should produce young skin in any age women, eventually. Many cosmetics have promised this in the past with other natural products, but never has one had the background of historical proof and testimonials that the Aloe Vera true and natural plant now does!!!

Testimonials reflect definite aid and oral use in treatment of stomach ulcers, arthritis, constipation, colon problems, stomach upsets, kidney trouble, indigestion, etc.

CHEMICAL CHARACTERISTICS OF ALOE VERA HOW IT HEALS AND WHY

The manner in which the Aloe Vera heals itself is really wonderful to observe. The leaves have no stalk or woody parts and are kept upright by the water pressure of the gel. A leaf slashed across with a sharp knife, first spurts out its lifeblood as the turgid flesh is opened. A few seconds later the wound films over; the next few minutes a rubberlike, protective coating effectively seals off loss of water. In a short time, the wound heals completely. The plant contains a wound healing substance which accomplishes this. Aloe Vera gel is a most ingenious mixture of antibiotic, astringent, coagulating agent, a pain inhibitor, and a growth stimulator, (also called a "wound hormone"), whose function is to accelerate the healing of injured surfaces.

Some of the things people reportedly had good results with Aloe Vera

GEL OR LOTION - RUB ON

Abrasions and Cuts
Athlete's Feet
Headaches
Burns and Scalds
Denture Sores
Detergent Hands
Corns and Calluses
Fever blisters and Canker Sores
Hair Conditioner
Baldness
Hemorrhoids
Nose Bleeds
Poison Ivy & Oak
Ringworm
Tired feet - Fungus growths
Shaving Lotion
Pain Inhibitor
Ulcerated Sores
Vaginitis
Psoriasis - Excema
Boils, Cysts
Arthritic and Inflamed Joints
Rheumatic aching joints
Bursitis
Insect Bites and Stings

NON-SURGICAL FACE LIFT

Restores youthful glow. Often takes several years off the appearance of adults. Cleansing and Moisturing lotion helps clear up teen-age complexion problems too.

Also helps get rid of "Stretch Marks".

JO-JO-BA SHAMPOO

Wonderful as a shampoo and hair conditioner. Hair can be shampooed at night and shampoo can be left on all night. Rinsed in the morning and hair can then be set or blown dry. Great conditioner!

JUICE - (TO DRINK)

Blood Purifier and Detoxifier
Kidney or Bladder Infections
Cleanse Kidneys and Bladder
Gall Stones and Kidney Stones
Constipation
Diabetes - Hypoglycemia
Hot Flashes
Dysentery - Diarrhea
Stomach Distress - Ulcers
Digestive Aid
Fibroid Tumors
Vim, Vigor, Vitality and Energy
Low Blood Pressure
High Blood Pressure

THE ANCIENT EGYPTIAN MEDICINE PLANT

ALOE VERA

Gary E. Rosilee Walte
6417 N.E. 98th Avenue
Vancouver, Washington 98662
(206) 254-1952

AN ANALYSIS

Aloe Vera, often referred to as "The First Aid Plant", quickly loses its potency after it has been harvested. Consequently, to experience the full benefits of this temperate weather loving plant, you would have to have had it close at hand.

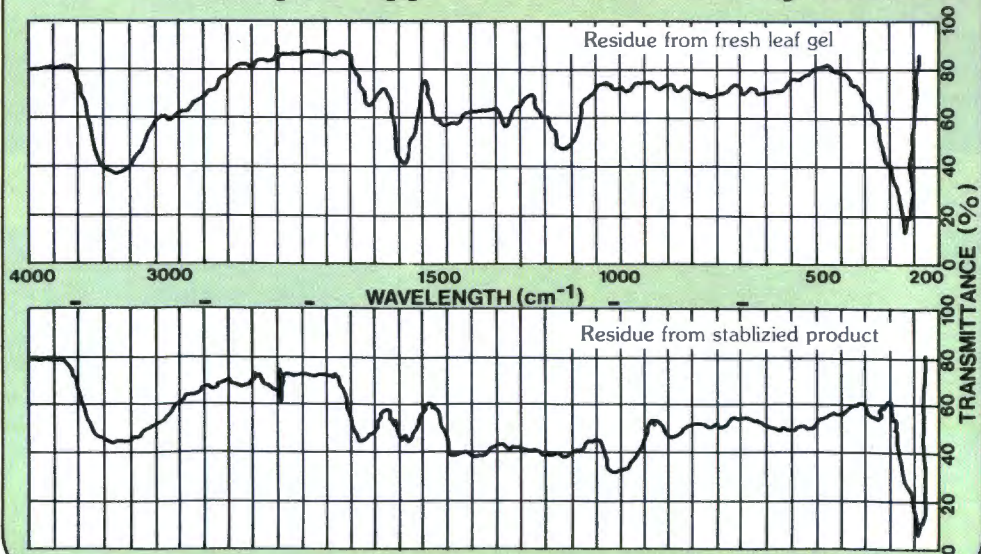

Modern technology, or man's determination to experience the best from Nature, has recently enabled the Aloe to be stabilized... a process that locks in its nutrients immediately after the Aloe Vera leaf has been harvested.

In a laboratory analysis conducted by an independent research laboratory, the fresh Aloe Vera leaf and Stabilized Gel of Forever Living Products were compared. The analysis revealed that the Stabilized Gel was "ESSENTIALLY IDENTICAL" to the freshly harvested gel.

WHAT'S THE DIFFERENCE?

"The Two Samples Appear To Be Essentially Identical"

Perhaps the mystique surrounding the Aloe Vera Plant can be explained by the bevy of vitamins, amino acids and trace minerals contained in its juice. An analysis conducted by independent research laboratories showed the Stabilized Aloe Vera Juice of Forever Living Products to contain the following nutrients and amino acids:

AMINO ACIDS

Units In Parts Per Million			
Name	Value	Name	Value
Aspartic	13.15	Leucine	8.97
Glutamic	18.61	Histidine	2.36
Alanine	7.26	Serine	7.73
Isoleucine	4.63	Glycine	6.44
Phenylalanine	4.21	Methionine	0.56
Threonine	4.85	Lysine	6.79
Proline	7.13	Arginine	3.93
Valine	5.83		

NUTRIENTS

Units In Parts Per Million			
Name	Value	Name	Value
Calcium	31.5	Magnesium	2.8
Phosphorus	.97	Manganese	.10
Copper	.01	Potassium	57.0
Iron	.09	Sodium	10.8

Test data on file with Forever Living Products.

Knowing the problems Americans face in getting the proper nutrition, one thing is certain, the Aloe can be a valuable food supplement.

Legend tells us that Aloe Vera was Cleopatra's beauty secret. Modern cosmetic chemists support her wisdom as they follow suit and now incorporate Aloe Vera in cosmetics for its cleansing and moisturizing properties.

Aloe Jojoba Shampoo. A non-Alkaline, concentrated shampoo that combines the conditioning properties of the Aloe Vera plant and the Jojoba bean. Aloe Jojoba Shampoo leaves hair shiny and manageable.

ALOE VERA SKIN CARE PROGRAM

Three easy steps to a vibrant complexion.

Step 1. Aloe Vera Cleansing Lotion. A gentle 40% Aloe Vera cleanser designed for all skin types. Floats away soil and makeup.

Step 2. Aloe Vera Face Lift Powder and Activator. A spectacular organic Beauty Treatment formulated with Aloe Vera, protein, herbs and kaolin.

The properties of the Aloe Vera Activator blend with the lift powders unique formulation to step up the normal process of sloughing off dead skin which stimulates the reproduction of new cells. A continuous program of Aloe Vera Skin Care diminishes wrinkles, minimizes pores, crepey throat, blotchy skin and blemishes.

Step 3. Moisturizer. Formulated with 35% Aloe Vera. This final step of your Aloe Vera Skin Care Program envelops your skin in dewy moisture and protects it throughout the day.

Aloe Vera Skin Care Products are available in convenient re-fill sizes.

Subject The M&M/Mars Miracle Drug
Action Requested Dear Mr. President:

My Family and I are wishing you a very speedy recovery. We would like to thank you for the determination and aggressiveness that you have shown, since taking office, in putting trust, confidence and respect, both foreign and domestic, in our American Government and our American way of life.

Mr. President, I am an associate of M&M/Mars Candy Company, and having the competitive sales personality that I have, I feel that it is my constitutional responsibility to introduce you to the most satisfying miracle drugs on the American Market - "M&M's" Plain and Peanut Chocolate Candies. I know how much you enjoy Jelly Beans and I know they are your favorite snack and probably always will be. Please try our M&M's Chocolate Candies for a change of pace. I am sure you will enjoy them. They are loaded with Caloric energy. I am enclosing a Bag each of M&M's Plain and Peanut for your enjoyment.

Respectfully yours,
Barry Langi - 1000 43rd ST. West

THE WHITE HOUSE
WASHINGTON

April 20, 1981

Dear Francis Albert:

Thank you for that very handsome engraved silver box. Nancy and I are still "oozing and ahing" over it and wear gloves when we touch it. We both thank you from the bottom of our hearts.

Life here is going on at a somewhat reduced pace - as you can imagine - and yet I'm amazed at how good I feel. They tell me the soreness I feel in my lung will linger for awhile, but all in all, I'm back to exercising, eat well and sleep well. I'm a very lucky fellow and I've got the best nurse in the world.

Nancy sends her love and please give Barbara ^x *SINATRA* our love. And again, thank you for that most beautiful gift.

Sincerely,

RON

Mr. Frank ^x Sinatra

July 28, 1981

Dear Friends:

Thank you for the Wymore Centennial calendar which Miss Loriann Lane presented to Senator James Exon on your behalf. I am pleased to have this autographed remembrance of Wymore's 100th anniversary and very much appreciate your special thoughtfulness.

With my best wishes,

Sincerely,

RONALD REAGAN *A*

Dear Mr. President:

Miss Lori Lane, a constituent of mine from Wymore, Nebraska, has asked me to send you the enclosed calendar on behalf of the Wymore Chapter of the Future Business Leaders of America.

The Wymore F.B.L.A. Chapter created this special calendar in honor of Wymore's Centennial, and this one which they are giving you has been autographed by the sponsor and members of the Wymore F.B.L.A.

We hope you will enjoy the calendar and will find it useful.

Sincerely,

J. James Exon
United States Senator

Dear Senator Exon:

Let me apologize for the delay in responding to your April letter to the President, in which you forwarded a special calendar on behalf of Miss Lori Lane and the Wymore Chapter of the Future Business Leaders of America, which is celebrating its Centennial.

You can be assured that the President sincerely appreciated receiving this Centennial Calendar. Please know that I have directed your correspondence to the White House Gift Office to see whether a response can be sent to your constituents on behalf of President Reagan.

Thank you for writing on behalf of the Wymore Chapter of the Future Business Leaders of American

With cordial regard, I am

Sincerely,

ManxL. Friedersdorf
Assistant to the President

The Honorable J. James Exon
