Dear Paul:

The President thanks you for your kind invitation to visit you at your school in Heidelberg, Germany.

The President has an extremely heavy schedule of official events while in Germany and unfortunately will not be able to see you. He, however, commends you on your fine aspirations for an Air Force career as a result of your outstanding military background and wishes you happiness and success in the realization of your dreams.

With kindest regards,

Sincerely,

FREDERICK J. RYAN, JR.

~~Letter~~ #3
March 23, 1985

Dear Mr. President,

My name is Paul James Adams, II. I am 9 years old. I am in the 3rd grade at M.J.V. Elementary School. I live in Heidelberg, Germany.

Like Chad Consuegra in the picture article I am sending you, I have a wish, too. I would like to meet you. Do you ever meet with every day ordinary kids? I'm not sick, poor, or rich. I'm just an average every day kid.

I heard you were coming to Germany in May. I would like for you to meet me. Could you come and see our school. We had a mock Presidential election last November and guess who won??? You did, Mr. President.

I hear that Mrs. Reagan goes to schools to

(2)

help spread the words that drugs are not good to use. I'm glad she is doing that. Can she come and talk to us about that too?

Being away from our country has made me thank God that I am an American. I have seen the Russian boarder near Hof, Germany. I have seen the bob wire fences and every few feet there are Russian Soldiers in towers. They looked at us through binoculars, took pictures of us and carried machine guns. I am glad that we do not have bob wire, armed soldiers, spying on our neighbors, and that we have freedom.

I hear a lot of negative news (C.N.N.) from the U.S. about the Military. I don't think the news media

(3)

says enough good things about our Military men.

My Dad, Capt. Paul J. Adams, my grandpa, Alfredo L. Martinez, who earned a Silver Star during W.W.II, my uncles, Sgt Paul Martinez and Chief Petty Officer Joseph A. Martinez have taught me by their actions and example how important freedom is. My dad, uncles, and their military friends work hard, make a lot of sacrifices, and do their best to make this world a better, safer place for us to live.

When I get older I want to be a great Soldier, too. I want to go to the Air Force Academy and become an Air Force pilot. I want to help preserve the freedoms of our beautiful country. I am proud to

(4)
be the son of a military
man.

I am sending a
picture of me for you and
Mrs. Reagan. Can I have a
signed picture of you and
Mrs. Reagan? Please try to
come see us.

Your Friend,

Paul J. Adams, II

'Know Your Body' series sends kids to hospital

HEIDELBERG — Seven-year-old Casey Cichowicz was attached to the heart monitor in the intensive care unit at the Army hospital in Heidelberg. He watched the blips representing his heartbeat bounce across the screen. "It looks like it stops in certain places," Casey said, but a big grin showed he isn't worried. Nor was he sick. Casey was one of 30 pupils from Markvain Elementary School who toured the hospital this week as part of their "Know Your Body" studies in the program for talented and gifted (TAG) children.

The three-day program at the hospital was not just lectures. Besides checking out the heart monitor, children learned how casts are made; some got their fingers wrapped up. They also learned how to listen to heartbeats with stethoscopes, studied X-ray pictures, looked through microscopes and discovered how capsules are put together at the pharmacy. "I liked how they built the pills," 8-year-old Justin Heikkinen said. With serious expressions, the youngsters listened carefully to their heartbeats or their friends'. "It's fun listening to your heartbeat: Bum-bum, bum-bum," 8-year-old Eden Miller said.

The students also used an electronically amplified stethoscope to listen in on Maj. Linda Kiefer's baby. Kiefer, the chief of nursing education and training, is due to have her baby in two weeks. "All of it sounds like rain to me," said Daniel Faggard, who turns 8 Saturday. Nancy Masters, TAG consultant for the Heidelberg elementary and high schools, organized the program with Kiefer's office to increase the children's awareness of how bodies and hospitals function and to break down any fears some of the youngsters might have had about hospitals. "If they learn early enough, maybe they'll be more protective of their bodies;

maybe they'll be more healthy," she said. Masters said the children, in grades one through five, were not too young to benefit from the hospital visit. She said that some of the students looked at the X-rays and recognized bones they had learned about in class. "I wasn't too sure how much they could handle, but they've done well," Masters said. "They're like little sponges." Masters said learning about the hospital's technology and laboratories also was important for the children. "I wanted them to realize that there are more people in hospitals than doctors and nurses," she said.

A wish come true

President Reagan shakes hands with Chad Consuegra in the Oval Office of the White House. Chad, his father, Ed, and his brother, Eric, stand behind his wheelchair as Rep. Michael DeWine, R-Ohio, looks on at left. The 7-year-old suburban Dayton, Ohio, boy, suffering from bone cancer, wanted to meet Reagan — and his wish came true this week. THE WHITE HOUSE

WASHINGTON

May 8, 1985

Dear Ben:

Thank you for sharing with us your views and those of your constituents concerning the President's State Visit to the Federal Republic of Germany. We fully understand the depth of your concerns and assure you the President's feelings about the crimes against humanity perpetrated by the Nazi regime are no less deeply felt. President Reagan has attempted to make absolutely clear during his visit the revulsion all Americans feel for the horrors which were committed in the name of the German state and our determination not to forget them. As you know, his itinerary included a ceremony at Bergen-Belsen concentration camp in order to pay homage to all those who perished at the hands of the Nazis. As he said on the anniversary of the liberation of that camp April 21, there can and should be no absolution.

President Reagan is certain you agree that, as part of our efforts to learn from the experiences of this dark era, we must not reject opportunities for reconciliation. The President was asked by Chancellor Kohl to pay a visit to a German military cemetery in Bitburg, and he has honored that request.

For four decades, the Federal Republic of Germany has faced up to the guilt and responsibilities of its Nazi past and has, in countless ways, demonstrated concretely its commitment to democratic ideals and human rights, including standing shoulder to shoulder with us in the Alliance in defense of freedom. With particular regard to the younger generation in Germany, it is important to demonstrate that, while we continue to hold the nation responsible for its past, we do not consider them to bear individual responsibility for the crimes of Nazism.

Let me make clear that the President does not consider his appearance at Bitburg to represent an act of forgiveness for those crimes, but rather one of acknowledgment of the democratic society the German people have built. He considers this to be a positive gesture which in no way detracts from his full and heartfelt commitment to remember and honor the victims of the Holocaust and the American soldiers who gave their lives to defeat the Nazi regime and its crimes.

Sincerely,

M. B. Oglesby, Jr.
Assistant to the President

Dear Don:

With regards to the President's proposed visit to Germany, I welcomed the President's addition of a visit to a Nazi concentration camp and strongly urge the President to reconsider his visit to the Bitburg cemetery.

May I suggest a more acceptable act of reconciliation would be for the President to lay a wreath at the Tomb of the Unknown Soldier in Berlin.

With best wishes,

Re: Your visit to Germany.

Dear Mr. President:

You are to be commended on your firm stand against attempts to wreck your good-will visit to Europe.

We need unity, but the ill-advised demands for your state visits to former concentration camps of the war-time Germany mean a slap in the face to an ally,----- one of the greatest democracies of today's Europe.

At the same time, the pressure groups behind such demands have failed to succeed that you also visit the history's biggest and cruelest concentration camp, the Gulag Archipelago (cemeteries) of the Soviet Union. Although that one is still active and grinding, and although the numbers of victims of that one have been many times higher of what- ever the Germans had.

One can have no respect for the policies of the U.S. 'Zionist System' - 'Nazi Hunters', 'Holocaust' propaganda representatives, but the shenanigans of these politicians in the controlled media, -Press, TV. and professional protesters at the White House lawn for separation between church and state, is nothing more than cheap political ploy.

If one looks closely, one can see what I mean, because lo and behold these very same hunters and protesters, a few years ago, were so willing to scream out for brotherly warm relation with the Soviet Union. At this time their tribal brethren were Soviet Union rulers, i.e. the ruling class of USSR.

Are the U.S. politicians aware of the historical fact that the Soviet Union ruling class has killed 60 million of ITS OWN CITIZENS in the 30 year period of this century from 1917-1953.

The tyrannical rulers of the Soviet Union in the Thirties and Forties make Hitler's Germany and today's Central America and Africa rulers look like a bunch of two-bit amateurs.

The scope of the USSR communistic ruling class crimes at this time is staggering. It is hard, impossible, to attribute them to only one man, i.e. STALIN, but to the Marxist Jews, who were principal office holders in the Soviet Russian Government and local leaders, especially those, that we as refugees, know personally. These crimes stand as a condemnation of the ruling class members. (The Ruling Class of USSR before World War II (years 1936-1939) appended).

I would make only one qualification: The cruelties perpetrated by the Soviet 'Ruling Class' were not useless. This incomparable Jewish ruling class, as masters of political utilitarianism, extracted the maximum political advantage from terror. Through the extermination of millions of lives, they reduced the population in the Soviet Union to unquestioning OBEDIENCE.

It was lack of Europe's and America's conscience toward Bolshevism-Communism, - the lack of the collective sentiment for justice, which permitted communism to develop.

Whereas today Nazism is 'dead horse' and does not need to be resurrected, - instead International Communism is still very much alive,.....- indeed.

Mr. President, you are right that it is time to forget old hatred, and to join forces for building a better future. Too much hatred has already been stirred up by the never ending TV 'Holocaust' series, 'Holocaust Monument' projects and "Nazi" witch hunts among the Eastern European immigrants.

These projects, especially the persecution of refugee-immigrants by the Justice Department's Office of Special Investigations, in collaboration with the K.G.B. of the Soviet Union, has already caused much polarization between the Jewish and non-Jewish Americans, especially of Eastern European and German ancestry Americans. (25 million plus 52 million)

The U.S. Zionists pious disclaimer that we should consider the life of 6 million Jews more value than 12 million Nazi KZ camps and plus Gulag Archipelago repression and willful famine victims, tens of millions - lacks conviction.

Fundamental changes in our attitudes and priorities are needed and higher principles to be served of the Justice Department in this matter.

"Equality under the Law" is one of the few precepts that stands between us Eastern European, German ethnics and the special interest groups corruption of power, and ultimately tyranny in its many guises in Washington.

Forces behind this hate campaigns are playing with fire. I think enough is enough. It is time to set the record straight and Eastern European and German Americans have to go directly to the American people.

Seeking vengeance on sacrificial lambs hunted from among the aging refugees, they actually sow anti-Semitism. After decades of peace and harmony, one ethnic group is being set on another, insults are thrown at U.S. allies, and your scheduled traditional expression of respect to the fallen soldiers of a host country is being sneered at.

It is our ardent hope that you continue to stand firm against such deplorable pressures.

With deepest admiration,

/Edward Rubel, Dr. of Sc./

Concerning the list of RULING CLASS of
USSR before World War II (1936 - 1939)

As it is known, each people, and especially the Jewish, cultivate its patriotism-nationalism and is proud of it. Why then does patriotism of Russian, German, French, Estonian, Latvian, etc. etc. not find approval by Zionist Jews?

Marxist-Zionists obsessed with the idea of one civilization one race and one universal sameness are campaigning in mass media, press, TV. etc. for eradiction all races and cultural differences in order to make room ultimately for a non-race (except Jewish race) of human zombies.

Professor Solomon Lourie (Jew) in his book "Anti-Semitism in the Ancient World" scientifically explained and substantiated this invariably negative attitude of the Diaspora Jews towards patriotism and nationalism of any country and any people among whom they live, as a "nation without a language and territory".

The Jews, ardently guarding their Jewish originality and purity of race, inseparably linked with their religion, DO NOT ADMIT STRANGERS INTO THEIR MIDST.

But they themselves, Jews of Diaspora, strive to penetrate into all branches of the life of those foreign people among whom they live, and if there is an opportunity to occupy a leading position, they will do so, especially they are interested on banking (usury), commercial enterprise and mass media as their propaganda vehicle.

In countries and states with highly developed patriotic and national feelings and populations of homogeneous tribal composition, this is much more difficult to achieve and provokes a rebuff of the native population, which regards itself as a widened family of descendants of the same forefathers.

It is much easier for them i.e. Jews to achieve their ends in countries with a multi-tribal population, bound only by territorial unity and supreme power, e.g. United States of America, or in states in which for some reason, patriotic feelings are suppressed and brought into latency, - disregard.

In countries with a multi-tribal population unlimited possibilities are open for Jews to penetrate into the RULING CLASS, without any opposition from the native population e.g. United States.

The awakening of patriotism in a native population, naturally is regarded by the Jews as a possibility that the question will be raised about their role in the country's life, about the possibility of leading posts in the political and cultural life of country in which they live at a given time and still maintain their own idealogie and sense of justice, thus remaining ALIEN to the native population. (10)

All Jews in all countries of their sojourn understand this circumstance very well, and this, why they regard any manifestation of national pride and patriotism as a threat to themselves and to their position in a country.

When the World War II broke out, and the Germans invaded and had to expelled from Russia. There were not many Jews in the front lines. But to make up this, medical units and supply units were overfilled with them, especially deep in the home-front, behind the Urals. They preferred 'to wage war' there.

Of course, there were exceptions, but these exceptions were not many. The officers and soldiers of the Soviet army and whole population of the country saw everything, and it is suprising that critical thoughts began to grow and strengthen about the Jewish role in the life of the country. The RULING CLASS in USSR, did not prove itself worthy of the position it occupied in the Soviet paradise on the earth.

Often this threat to their position in a country is felt even when it does not exist, as for example, in the USSR in the second part of the Thirthies, when any manifestation of Russian patriotism was qualified as "great power Chauvinism", and was brutally persecuted. And, of course there was no reverting to national traditions of Moscow and Imperial Russia whatsoever at that time in the Soviet Union.

The age old conflict between the native population of various countries and states and the Jewish ethnic groups finding themselves in the territories of these nations is well known.

Until the middle of the Nineteenth Century, this conflict was called "Judaephobia" (now "anti-Semitism"), which hindered and is still hindering a peaceful and fruitful co-existence between Jews and non-Jews

This conflict used to manifest itself with special distinction in the countries and states where a considerable Jewish population resided - nations in which Jews were considered "subjects".

At the beginning of the Twentieth Century, Russia (included Baltic, Polish regions, Belo-Russia) had within its borders six million Jews, whose views and values, sense of justice and their concept were alien to native population.

The Jewish group (chosen people i.e. elite people) lived its own secluded life, most of them Zionists, - leaning toward communism, specially in Polish and Belo-Russia province.

They were unwilling to assimilate with the surrounding population in spite of any possibilities created by the Governments to achive this end.

It is this isolationist Jewish tendency, interwoven with their "spiritual aspect-political Zionism", that has given the impetus to this conflict. The entire blame for this is placed successfully upon the local nations peoples and all their nations governments and regimes, accusing them of "anti-Semitism." How valid these accusations are is not the task of mine statement, but from followin extra 14. pages you can read

The political Zionists had been brought up in the midst of turbulent battles for the minds and hearts of European Jewry. Political infighting, propaganda, deceit and physical violence are nothing new to these precocious, iron-willed individuals, who are determined to REMAKE WORLD SOCIETY IN THE SOCIALIST-COMMUNIST IMAGE.

Calumni bears its fruits. It is believed without proven evidence, or even an effort to verify them, how just and valid these accusations are.

Without proof or trial, entire nations are blamed and condemned. The accused is the entire population of the USSR (Russia), together with other nationalities and tribes to that country.

Accused are descendants of the Baltic nations, as well as the "foreign Russians" and other East European nations who are here as loyal U.S. citizens.

Included here are also their numerous national patriotic and church organizations and national leaders.

Few took the trouble to listen to the accused, a practice elementary to any court of law, even in the most oppressed societies.

How does the accused respond to political Zionist trial, as we see in the United States today? Did the accused respond in any way. No! They remained silent, whereas now it is very easy, e.g. in the United States, through the Office of Special Investigations prosecutions, to reach out and pluck some few among the critics, thereby silencing others - that is silencing millions of ethnics in the U.S. (Balts, Belo-Russians, Czechs, Slovaks, Bulgarians, etc., i.e. all the people of Eastern and Central Europe). They should speak up against the Zionist special interest groups in Washington, but they are silent, because they could be next to be prosecuted as anti-Semites, as "war criminals".

The USSR Government and the Communist Party does not involve itself in this question,- nor do U.S. Zionists, because such involment inevitably would lead to the resounding revelation of the political Zionist party role, the role the Jewish people played in creating the framework of the Soviet Union power, which liquidated the cultural elite of the pre-revolutionary Russia; the conclusion of the shameful Brest-Litowsk and Yalta - Potstam Treaty; the organization of concentration camps and RED TERROR-HOLOCAUST, and subsequent Jewish Zionist dominance in all spheres of life in the USSR.

As a son of generations of old Estonian farmers, a representative of that generation which had the destiny to partisipate in these events, these upheavals, and to witness the holy indignation suffered by all silent partners to this political Zionist-Jewish communist 'RED HOLOCAUST' in Russia, Estonia, Latvia, Lithuania etc., injustice, criminality,- I consider my duty and obligation to the United States of America, as citizen to the land who granted me asylum to live as a FREE MAN here among many, to reveal TRUTH, as I have done here on added pages.

I firmly believe that the time will come when impartial researchers free from fear of being accused of "anti-Semitism" (which is a big lie) will be able give complete and detailed accounts of the Jewish political Zionist-Communist party in Russia, East Europe, Germany, Cental America, United States, and so on, and so on.

When this occurs, I hope my very modest, far complete statement sent to you, will prove useful.

Here is the list of 14 pages of the RULING CLASS OF USSR before World

War II (1936-1939). It is most instructive, edifying to compose this kind list for the United States of America.

Respectfully submitted, yours

A. Howard Rubin

POSTSCRIPT:

Anno Domini 1985, the worlds 'elite people', do not rule anymore in the KREML as zionist Jews,- 'inside conspirators', as self confident "human rights protectors".

Sixty (60) million Russian peoples lives have perished in this "protection" for paradise on the earth. Now, around the throne in the Kreml, are sitting as the ruling class, patriotic, loyal 'heathen goyem' Soviet Russian Panslavism representatives with its extreme form of nationalism.

The similarity between Nikolai J. Danilevsky's doctrine (Russia and Europe, publ. 1869) and Soviet Union politics is striking. Their concept and understanding of freedom and fraternity are similar and opposite to those of the West. Both rewrite history and talk a lot about peace and freedom.. The Danilevski PANSLAVIC UNION has been achieved by the Soviet Union. This is as in Danilevsky's plan an independent political system with the USSR (communism) at the head.

When one includes satellites, which in fact have minimal independence, the union does stretch from the Adriatic to the Pacific. In the North, Finland, - which in Danilevsky's time belonged to Russia - is excluded, but is under strong Soviet influence. In the South, Greece and Constantinople with their surroundings are still missing. But against this, the power of the Soviet Union reaches into the heart of Europe.

Its fleets sail the Mediterranean and the Indian Ocean, plus Atlantic and Pacific waters. The Soviet Union is a mighty world power. Having hitherto shared world domination with the United States, it is now rapidly driving for sole domination after the collapse of the United States policy,- as a matter of fact, no policy,- in Asia, the near East and setbacks in Europe.

Present time rulers in the USSR are using the 'elite people's invented Communistic System for their own Pan-Slavism purpose and do not trust double loyal, double citizenship Zionist Jews, which as a group of the USSR was entirely on the side of those Zionists who conducted propaganda in the whole world for the creation of Israel.

The USSR Government senses the unreliability of the Zionist Jews, which is a sensation of the 'unreliability of the Jews' and corresponds to the same sensation of the whole population of the country, which in general looks at the Jews as an element 'newly arrived, strange and alien'.

There is no hope in the USSR, even considering the return of the Jewish ethnic group to its previous position as the ruling class. The inevitable and unavoidable process of assimilation on one hand and the loss of the privileged position by the Jews on the other in the USSR, engenders and nourishes anti-Soviet Russian FEELINGS IN THE WHOLE JEWRY of the Diaspora, especially among the United States Zionists. These feelings are also widespread among considerable,- probably overwhelming majority,- of the USSR Jewry, unabling them reconcile with the loss of their privileged position as the ruling class.

The politics of the USSR Government on the Jewish question has progressed steadfastly after Stalin's death toward bringing about on a percentage basis

the number of the intellectual professions and the responsible positions occupied by the Jews to the corresponding number of such professions and positions occupied by the representatives of the rest of the population.

These policies were carried out and is carried out up today (1985) without haste and without noise and shocks, arousing the approval of the whole population of the USSR and the resentment and indignation of its Jewish minority, which consists of ONE PER-CENT minority, which labelled this as discrimination. Therefore, the U.S. and Israel Zionists cry of distress and lamentation , because Marxist Zionists do not reign in the USSR and no more also 'human rights exist there.

These 'human rights' are meant only for the double loyal 'elite people'. The Talmud says, only Jews are human. Non-Jews differ only in form from the beasts, written in MIDRACH TALPIOTH (fol.225,d.)- it says: "God created them (Jews) in the form of men for the glory of Israel. But AKUM (Christian, non-Jew) were created for the SOLE END of ministering unto them (Jew) day and night. Nor can they EVER BE RELIEVED from this service.

It is becoming to the son of a king (an Israelite) that animals in their natural form and animals in the form of human beings should minister unto him".

With 'Holocaust',- Nazi hunting (The Office of Special Investigations in the Justice Department) and 'human rights' propaganda for the USSR Jews only in the U.S., Zionists are gaining more and more enemies themselves in the U.S. and over all the world,- AS SYMPARHY.

An impartial history, having at its disposal strictly verified facts which to us contemporaries is still inaccessible, cannot fail to recognize that in no one country, in no one nation during the whole of its two thousand year sojourn in dispersion, did the Jews have such opportunities. Never have they reached such a position as in the USSR, especially in the thirty-year period from 1917 - 1947, when they actually were the ruling class of the country.

If they were unable to hold this position and lost it irretrievably, then it is not the Russian people and not the population of the State of two-hundred and seventy million that bears the guilt of it.

The guilt must be placed upon the peculiarities of the Jewish people themselves, who brought the negative attitude upon themselves.

With their activities the Jews-Zionists created against themselves that negative attitude, which used be called 'Judaophobia' and is now called "anti-Semitism".

Zionists are polarizing the U.S. population and creating a WHIRLWIND against Jews. It is time to be an HONEST JEW,-to start to think and act honestly in this and other international matters.

EDUCATION

An overwhelming number of Soviet professors, teachers and even heads of universities were of Jewish nationality. They are not listed here for lack of space. It would take too many pages to list them all. Instead, their number is given on percentage basis for the country as a whole on the following page under the heading "statistics" listed as "scientific workers".

The special communist universities, schools, etc., as a rule, were filled with Jewish teachers. For example, the Western Communist University of National Minorities, which trained propagandists specializing in foreign politics, was headed by Rector Frumkin; Rector I.G. Raiter was the head of Communist University of Eastern Workers

STATISTICS

According to the 1959 census the population of the USSR was 208.828.000. Of these 2.268.000, were Jews.

Jewish population of the USSR constitutes 1,1 per cent of country's population.

In USSR the Jews make up 11 per cent of all scientific workers; 10,4 per cent jurists (procurators, judges, lawyers); 14,7 per cent of all Soviet medical doctors; 8,5 per cent of writers and journalists; 7 per cent of art workers (actors, artists, musicians, sculptors).

Is it possible to speak of discrimination against the Jews under such circumstances ?

with an introduction by
Walter Trohan, former chief of
The Tribune's Washington bureau

Estonia, like Finland, Sweden and Denmark, further believed that since she had very few Jews in her country that she had no Jewish problem. Estonia treated the Jews exceptionally well. A Zionist delegate visiting Tallin informed the Estonians that their remarkable tolerance towards the Jews had resulted in Estonia's name being inscribed into the Golden Book of Tel Aviv, the first 100% Jewish city in the modern world, which is in Palestine.

Two Jews showed the Estonians their mistake. One was Herman Gudkin, 25 years old, son of an Estonian senator who was educated in England and was serving as a noncommissioned officer in the Tallin artillery regiment. When the Red Army seized Estonia he obtained sick leave. The following day he presented himself at his regiment's headquarters in the Estonian uniform with a red band around his arm. He demanded the officers haul down their flag and surrender their arms.

His demands were rejected and he returned a short time later with Soviet tanks and armored cars and forced the surrender of the regiment, arresting the officers and confining the troops to barracks. Later this order was countermanded and the officers released. They attempted to arrest Gudkin as a deserter but he was protected by the Red Army.

The next morning Gudkin, accompanied by another Jew, Victor Fagin, an ex-clothing dealer of Dorpat, climbed to the top of Pike Herman, an old stone tower which rises from the ancient castle housing the Estonian parliament and took the Estonian flag from the staff and hoisted the red soviet flag. The same afternoon a procession of Jewish residents led by Gudkin and Fagin carried this Estonian flag through Tallin's streets to the front of the Soviet legation where they tore it to pieces. I reported these facts to *The Tribune* which published them on 4th. July 1940, after deleting the word "Jew" from my message.

Dear Boys and Girls:

Thank you for your recent letter inviting the President to visit your school when he comes to Europe.

The President always enjoys talking with young people, and we appreciate knowing of your interest in having him come to your school. Unfortunately, since there are so many official responsibilities he must fulfill while he is in Europe, we are unable to schedule this appointment. However, the President has asked me to tell you that he deeply appreciates your thoughtfulness in writing and sends his best wishes to you for the future.

Dear Mr. President,

My class of fourth graders came up with the idea of asking you visit our school at Ramstein Air Force Base when you come to Europe in May. The children in the Department of Defense Dependent Schools are very aware of world issues. We follow the news carefully. Many of them feel as if they and their families are creating history by being here. We all feel a strong sense of patriotism and pride to be Americans.

I feel the children who take time out of their lives to come with their families to a foreign country deserve a good education. In the DODDS school system they are receiving this. The educators of the DODDS school system need your support. We as educators also feel that we are a part of the military mission in Europe. The families are entrusting their child's education to the educators in the DODDS school system. At the same time I feel the educators who come to a foreign country to teach are a special kind of patriot.

My class and I would like to extend a personal invitation to you to visit our school. We are truly special. My children have a great respect and awe for you and your position. It would be an honor to have you visit us.

Sincerely,

Beryl C. Snellings

Dear Mr. President,

I would like you to come to my class while you're in Europe. If you can't, I would like to learn about what it is like to be a president, & I would like you to tell my class about the things you do as president.

I am glad I picked you. Do you want to know why? Well it is because with Mondale if we had a run between the 2, I & Mondale, I.A, we would lose permanently. He would of been spending more money on poor or people that are to lazy to get a job. Then we wouldnt have enough money for nuclear arms. So that's why I'm glad I picked you.

Sincerely,
