MEMORANDUM FOR THE DRUG USE PREVENTION WORKING GROUP

FROM: CARLTON TURNER

SUBJECT: Drug Abuse Policy Action Plans

On August 4, 1986, President Reagan announced "six major goals of what we hope will be the final stage in our national strategy to eradicate drug abuse" and "lead us toward a drug-free America." The goals included:

- Drug-Free Workplaces
- Drug-Free Schools
- Expanded Treatment
- Improved International Cooperation
- Strengthened Drug Law Enforcement
- Increase Public Awareness and Prevention

On August 5, 1986, the Domestic Policy Council established a Drug Use Prevention Working Group to develop action plans to meet the President's goals for demand reduction, i.e., drug-free workplaces, drug-free schools, expanded treatment, and increased public awareness and prevention. The Working Group is to finalize its report to the Domestic Policy Council by September 5, 1986.

As Working Group Chairman, I am establishing five task forces to address the various objectives:

1. A Legislative Review Task Force to coordinate legislative proposals and ensure compliance with the President's policy and goals.
2. A Drug-Free Workplace Task Force to develop action plans for implementing a strict no-illegal-drug-use policy for the Federal workforce and for encouraging state and local governments and the private sector to follow the Federal lead.
3. A Drug-Free Schools Task Force to ensure that a policy of being drug free is adopted by every educational institution, from grade schools to universities.

4. A Treatment Task Force to develop an action plan for improved treatment for drug users and improved methods for identifying drug users, with the primary objective of determining how to provide effective treatment to drug users as early in their use cycle as possible.
5. A Private Sector Prevention Task Force to develop an action plan for expanding drug abuse prevention, with emphasis on community-based programs and initiatives. The Task Force should prepare recommendations for organizational and procedural changes within the Federal government to provide innovative direction to Federal efforts and to be creative and effective in encouraging and supporting private sector efforts.

It should be noted that communications are being coordinated by the White House Public Affairs Office as a separate activity. Input will be requested by the Drug Abuse Policy Office from the public affairs offices of the various agencies.

The objectives of the Working Group and its task forces will be to develop a series of actions items which contribute directly to the President's goals with a specific target of making illegal drug use unacceptable in every segment of our society.

The action items will be presented to the Working Group on Monday, August 18, 1986. At that time, the Working Group will decide which actions should be developed for inclusion in the report to the Domestic Policy Council.

You are reminded that all discussions and materials related to Working Group or task force activities are considered Presidential documents, subject to Executive Privilege, and cannot be shared with any person outside the Working Group.
