MEETING WITH A GROUP OF PRESIDENTS OF HISTORICALLY BLACK

DATE: Thursday, March 29, 1984
TIME: 2:30 - 2:45 p.m.
LOCATION: Cabinet Room
FROM: Faith Whittlesey (RW
by ASD)

I. PURPOSE:

Demonstrate your continuing commitment to historically black colleges and universities.

II. BACKGROUND:

Since September 1981 when you issued Executive Order 12320 on Historically Black Colleges and Universities you have continuously demonstrated a strong commitment to these institutions. The Executive Order has been a success. There have been unprecedented increases in grants, contracts and other federal financial support. In addition you supported and signed into law endowment legislation which assists the institutions to raise funds on a matching basis.

At a White House reception this past September commemorating the third anniversary of the Executive Order you expressed the desire to meet privately with a smaller group of the presidents. This date was chosen for the meeting because the presidents are in Washington, D.C. today attending the annual conference of the National Association for Equal Opportunity In Higher Education (NAFEO).

III. PARTICIPANTS:

Vice President Bush
Secretary Bell
Mel Bradley, White House Staff
Bob Hobson, White House Staff
Dr. Edward Elmendorf, Assistant Secretary for Post Secondary Education
Dr. Margaret Seagears, Director, White House Initiative on Historically Black Colleges and Universities
Twenty-five HBCU Presidents -- list attached

IV. SEQUENCE:

The group will be in Cabinet Room, awaiting your entrance. You will enter, ask the group to be seated, greet and welcome them on a group basis and listen to their remarks.

Suggested Presidential Remarks

- o It's a pleasure for me to have all of you back with us at the White House and to reconfirm, once again, this Administration's ongoing commitment to Historically Black Colleges and Universities. Since we met six months ago much has been accomplished.
 - The continued economic recovery and emphasis on private sector partnerships have created a much more positive environment for progress toward self-sufficiency. The enactment of endowment legislation further solidifies the economic base for HBCU's.
 - I am pleased to announce that the Annual Federal Performance Report called for under Executive Order 12330 is in the final stages of clearance and we will try to have it ready for you within the next several days. This report will show that federal support for your institutions during Fiscal Year 1983 increased \$61 million over the funding level for Fiscal Year 1981. It will also describe a variety of private sector projects.
 - I am also pleased to report that Secretary Bell will be sending a task force to Fisk University in Nashville, Tennessee to conduct a "fact finding mission." Fisk has long been considered a "flagship" among the HBCU's and we are committed to providing the University with the technical assistance it needs.
- o Now, this is your meeting so I don't want to do all of the talking. But before hearing from you, I would like to offer best wishes to NAFEO (the National Association for Equal Opportunity in Higher Education) for a successful Conference while you're here in Washington.
- o I understand that Dr. Prezell (Pre zell) Robinson, President of Saint Augustine's college and Board Chairman of NAFEO is to be the principle spokesperson today. Dr. Robinson?

LOCATION: Oval Office

I. PURPOSE

To meet with Thorne Auchter, Assistant Secretary of Labor, Occupational Safety and Health Administration, and congratulate Mr. Auchter for the excellent record he established while head of OSHA.

Other management innovations installed by Mr. Auchter led to the development of better standards, the targeting of enforcement abilities to the most hazardous industry groups, and establishing a system of compliance assistance.

PRESIDENTIAL TAPING: NATIONAL HEAD START ASSOCIATION CONFERENCE
THURSDAY, MARCH 29, 1984

Greetings to all of you in Kansas City. I'm delighted to have this chance to talk to all the parents, volunteers and professionals attending the National Head Start Association Conference.

Our sons and daughters have bright, eager minds. Young people hunger for learning and guidance. But it is up to us to make sure that every child has the opportunity to look forward to a promising future. And the Head Start Program is helping do just that by providing pre-school children of low-income families a comprehensive program to help them begin school in good health and with confidence.

Head Start is a first-rate program, and we're going to keep it that way. For nearly 19 years, Project Head Start has played a major role in focusing the attention of our Nation on the importance of early childhood development. It has served as a model for many other child development programs, and I believe it will continue to do so for many years to come.

Since 1965, Head Start has helped over 8 million pre-school children and their families. This year, I asked for additional funds so we could expand the program. As a result, some 430,000 children will have the chance in 1984 to get the health and educational services they need and deserve.

Head Start works and works well because it uses time-tested formulas. The program is responsive to the children it's meant to help. Head Start is designed in a way that takes advantage of

community resources, relies on strong parental involvement, and is focused on the needs of the children. By retaining local flexibility, programs can be structured to meet the specific needs of the community. And by working together -- government, health organizations, schools, dedicated staffs, professionals and volunteers -- we're pooling our resources and building on our strengths. Head Start is a no-nonsense grassroots partnership, and that's a sure key to success.

I'd also like to take this opportunity to thank all the volunteers whose spirit of caring and community responsibility is a big reason for the success of the program. High school and college students, homemakers, parents of Head Start children and retired senior citizens have been giving their much-needed help for many years. Through the efforts of thousands of volunteers, we are better able to help meet the emotional, social, health and psychological needs of our Head Start children. Your work represents the best in America. You remind us that our country was built by caring people pulling together.

All of you at the National Head Start Association Conference have good reason to be proud. The true test of a society is the kind of people a country turns out. Thanks to your hard work and worthwhile programs like Head Start, America is turning out winners. You are helping our young people gain strength, confidence and ambition. You are helping to break the cycle of poverty by providing pre-school children of low-income families with the boost they need to compete and to achieve. You are giving the best of gifts -- the priceless gift of opportunity.

Thank you very much and God bless you all.

PRESIDENTIAL TAPING: PORTUGAL'S 10th ANNIVERSARY AS A
DEMOCRATIC STATE
THURSDAY, MARCH 29, 1984

On behalf of my fellow Americans, I take great pleasure in expressing to the people of Portugal our heartfelt best wishes on the 10th anniversary of your April 25th Revolution. Two hundred and eight years ago in our land, a brave and determined group of patriots established a new nation and embarked on an experiment in democracy. On April 25th, 1974, a similar group of idealistic and courageous Portuguese launched a revolution which succeeded in bringing your country into the brotherhood of democratic nations.

Increasingly, people around the world are learning that democratic government is the path not only to freedom, but to prosperity. It is not an easy course, but it is the best one, reflecting humane and decent values and liberating mankind's potential.

Portugal's achievements during the past 10 years have been an inspiring example for the rest of the world. Though you have been confronted by many difficult challenges, your commitment to democracy holds firm. You have thus added another glorious chapter to the already numerous historic contributions Portugal has made to the world community. I know that I speak for all Americans when I express congratulations to you. After my recent meeting with Prime Minister Soares, I am especially confident that our two nations will remain close friends and allies as we walk the road of freedom together.

PRESIDENTIAL TAPING: INAUGURATION OF THE JAPANESE TELEVISION
SATELLITE SYSTEM
THURSDAY, MARCH 29, 1984

It gives me great pleasure to participate -- by satellite -- in today's ceremony. With the inauguration of this satellite television signal delivery system, Japan has successfully applied advanced technology to the task of informing and educating Japanese citizens more fully about current events in the United States and around the world. Here in Washington, this historic event is seen as still another indication of Japan's desire to play a more active role in world affairs.

During my visit to Japan last November, Prime Minister Nakasone and I reaffirmed our "Pacific partnership." The overwhelming success of that trip is a measure of the great importance of our bilateral relationship. And today's event marks another milestone on the road to greater mutual understanding between our two peoples.

In just a few weeks, I will make another journey to Asia -- this time to China. My trip will follow a similar visit to China by your Prime Minister. Relationships that are strengthened through such face-to-face contacts and through the development of communication systems like the one we inaugurate today, bring us ever closer together.

The American and Japanese people share many ideals about life and freedom and the kind of future we want for our children. This satellite delivery system will help our two peoples learn even more about each other.

I congratulate you, the representatives of the Japanese television networks gathered today in Tokyo, for your dedication to international understanding and for your determination to make this bold new step possible. Good luck and best wishes to all of you and to the people of Japan.
