THE WHITE HOUSE

WASHINGTON

August 12, 1983

Dear Don:

It is good news for all Americans that the Congress has again demonstrated bipartisan unity in pursuit of two vital national goals -- strategic modernization and arms control. Their recent authorization of production of the MX Peacekeeper missile reaffirms our nation's united approach to the protection of peace.

During our gathering in May, I stressed the importance of these two goals and I asked for your support. Thanks to your help, we are now in a stronger position to build on the progress we have already made at the START negotiations. But we're not home free yet. Maintaining bipartisan unity will require our best efforts, and you can still play an important role in this effort.

In September, Congress will again take up the Peacekeeper program. We look to the Congress to send an important message to the Soviets by passing the appropriation bill to fund the Peacekeeper missile.

The challenge remains before us. I for my part will continue to consult and work closely with members of the Congress on both sides of the aisle. I hope I can count on your continued help in keeping our national consensus, which is necessary both for peace and national security.

Sincerely,

DONALD REAGAN

Mr. Donald M. Kendall
Chairman of the Board
PepsiCo, Incorporated
Purchase, New York 10577

Their recent authorization of production of the MX Peacekeeper missile reaffirms our nation's united approach to the protection of peace.

During our gathering in May, I stressed the importance of these two goals and I asked for your support. Thanks to your help, we are now in a stronger position to build on the progress we have already made at the START negotiations. But we're not home free yet. Maintaining bipartisan unity will require our best efforts, and you can still play an important role in this effort.

In September, Congress will again take up the Peacekeeper program. We look to the Congress to send an important message to the Soviets by passing the appropriation bill to fund the Peacekeeper missile.

The challenge remains before us. I for my part will continue to consult and work closely with members of the Congress on both sides of the aisle. I hope I can count on your continued help in keeping our national consensus, which is necessary both for peace and national security.

Sincerely,

RONALD REAGAN

The Honorable Thomas C. Reed

Comments: Attached, please find a suggested
draft for a letter from the President to the CEOs
who attended a White House briefing on May 16, 1983,
thanking them, and asking for their help again.
Could we please have your input on this; we would
like to have them ready to go by next week.
Another letter will follow to those CEOs who did
not attend, but who support the President's program
on strategic modernization. Thank you for your help.

D R A F T

Dear _____

It is good news for all Americans that the House and Senate have again demonstrated bipartisan unity in pursuit of two vital National goals -- strategic modernization and arms control. Their recent authorization of production of the MX Peacekeeper missile reaffirms the fact that, as a Nation, we are united in our approach to ~~arms reduction and~~ the protection of peace.

During our gathering in May, we impressed upon you the importance of this action and asked for your support. Thanks to your help, we are now in a stronger position to continue making progress at the START negotiations. We're not free yet, however. Maintaining the stable bipartisan consensus will require the best efforts of all -- working together for lasting stability in the nuclear arsenals on both sides.

In September, Congress will again take up the Peacekeeper program. We look to the Congress to send an important message to the Soviets by passing the Appropriations for Peacekeeper funding.

The challenge remains before us. I will continue to consult and work closely with members of the Congress on both sides of the aisle. I hope I can count on your continued help in ~~encouraging~~ *keeping* ~~the continuation of~~ this National consensus, one leading to the eventual elimination of all nuclear weapons.

Sincerely,
