JOHN HOFFMAN

FROM: JAN W. MARES JAN (by R. H.)

SUBJECT: Dr. Steed's Paper on Ozone Protection

Upon rereading the notes from yesterdays briefing as well as the attached paper by Dr. Joseph Steed given yesterday to the Conference on CFC's and Ozone Protection and in particular his comments on the bottom of page 8 and in slide 3 I am confused as to the scientific basis (and the confidence or lack of confidence in that scientific basis) for any decision that would result in regulatory action beyond a global freeze on CFC emissions. Maybe one of you could explain this to me.

cc: Dave Gibbons
