IMMEDIATE RELEASE

PRESS

Following is the text of a letter written to Secretary of State, Dean Rusk from William P. Clark, Jr., Cabinet Secretary:

Since Governor Reagan's endorsement of the Chile-California Program in December, 1966, the State of California has been prepared to perform its agreement with AID. However, after numerous meetings in Washington and in Santiago, we must conclude that the Department of State does not wish to continue its participation in the Chile-California Program. This is evidenced by your inaction and rejection of California's proposals, in spite of the Chilean Administration's acceptance thereof.

California has been prepared to proceed in a non-partisan manner consistent with the concept expressed by President Kennedy at the program's inception. California's expertise in agricultural production and water development has been pledged to the needs and desires of Chile; our new Director has stood prepared to leave for Santiago. However, the indecision of your office relative to the proposed budget, the unwarranted restrictions upon travel by California employees, the belated rejection of the new Director, and, finally, the bureaucratic obstacles created by the Department of State, makes the program meaningless. Accordingly, the State of California must proceed without further federal participation or assistance in the Chile-California Program. This is disappointing; the administrations of both Chile and California have prepared themselves for an energetic continuation of the program.

Chile and California have enjoyed commercial, social, and mutual aid relations since early in the 19th Century. Governor Reagan wishes to reassure our friends in Chile that our historic ties, both governmental and private, such as the sister-city programs, Farm Bureau student exchange, and tourism will continue. In addition, the Governor has requested a meeting in October, under the direction of the State Department of Agriculture, to chart the future course of the Chile-California Program in the absence of federal assistance.

It is our hope that the original expectations of the Chile-California Program might be realized through the joint efforts of Chilean and Californian agriculture, industry, and government.

Sacramento--Gov. Ronald Reagan today urged passage of SB 9, the Burns-Bagley Act, which modifies the Rumford Housing Act.

In a statement the Governor said,

"It is regrettable that such an important issue as this has been delayed until the final days of the Legislative session. I would like to point out that Assemblyman Bagley introduced a bill to amend the Rumford Act on the first working day of the current session and that the views of California citizens are well-known concerning the Rumford Act.

"To do nothing on this subject would leave the Rumford Act on the law books of California--an action which is obviously contrary to the wishes of the electorate which voted overwhelmingly in 1964 to repeal the present law.

"Even though the courts have ruled that Proposition 14 was unconstitutional, it is clear that the citizens of California disagree with that opinion.

"The people believe, as I do, that the Rumford Act must be changed. The Burns-Bagley act now before the State Senate will correct some of the objections the citizens of this state have to it.

"It is not a perfect solution but it is a step in the right direction. Senate concurrence will provide an immediate solution to some of the problems created by enactment of the Rumford Act several years ago.

"It will protect the rights of California's homeowners and at the same time will make it clear that Californians do not believe in or condone bigotry or discrimination.

"I want to emphasize that the Burns-Bagley Act will exempt single-family residences and rental units of four or less from the provisions of the Rumford Act. It covers those who are engaged in the business of providing homes but at the same time exempts those apartment owners who live in their own apartment units of four or less.

"These provisions will allow homeowners and the smaller property owners to sell or rent their own property as they see fit."

"The Burns-Bagley Act corrects a major flaw in the existing law by requiring a showing that discrimination must be intentional.

"Another major revision will permit a case to be heard in court following a finding of probable cause by the Commission. Costs up to \$500 may be assessed against a complainant in the case of 'bad faith' and the property owner may recover fees for attorneys and court costs in such cases.

"In conclusion, I again urge the Senate to concur in the bill as passed in the Assembly. In this way, and by working together, we in California can begin solving a problem that affects the rights of all

The bill also provides that total loans by credit union to any one member, rather than amount of any single loan, may not exceed \$3,000 or 10 percent of paid-in and unimpaired capital, not to exceed \$10,000 plus the then unpledged shares.

AB 569 - Chapter 986  
Veysey

Permits school board members to attend the Department of Education in-service training workshops once every four years.

AB 589 - Chapter 987  
Fong

Expands duties of school security patrols to include protection of school district personnel and pupils in or about school district premises.

AB 652 - Chapter 988

AB 662 - Chapter 989  
Milias

Permits the sick leave account of a person formerly employed in a State position exempt from civil service to receive credit for accumulated but unused sick leave if he enters a civil service position within six months after separation from the noncivil service position.

AB 885 - Chapter 990  
Bagley

Exempts New York dressed poultry from the Poultry Meat Inspection Law without any time limit. This exemption in the law has been continued for a two-year period at each legislative session since the enactment of the law in 1955. The bill permits the inspection and evisceration of any lot of New York dressed fowl, and the evisceration and inspection of the entire lot, if disease is indicated. The bill also authorizes the poultry meat class of "caponette" only when the bird is treated with a hormone approved by the Federal Food and Drug Administration.

AB 1147 - Chapter 992  
Fenton

Authorizes a court to order the payment of a reasonable fee, not exceeding 5 percent of the child support payments collected, when the order for child support is enforced by the district attorney. The fee may not be imposed by the court unless the board of supervisors authorizes such action. The bill authorizes the board of supervisors to designate any county officer to perform the services of the court trustee. Because the processing of these payments is strictly a financial and accounting procedure, it is better to transfer these functions to the auditor or other county fiscal officer so that the probation officer may devote more effort to his customary duties. The bill also authorizes the board of supervisors to impose a 2 percent fee to defray the cost of the court trustee in processing child support, alimony and restitution payments. The fee will relieve the general taxpayer of approximately 2/3rds of the cost of this service.

AB 1507 - Chapter 996 Thomas	Authorizes the Fish and Game Commission to prohibit taking or possessing Pacific halibut in the same manner as taking or possessing Pacific halibut is prohibited by federal law or by regulations adopted by the International Pacific Halibut Commission.
AB 1614 - Chapter 997 Fong	Requires establishment of a property tax reduction fund, and requires county boards of supervisors to place into the fund new revenues from sources other than property taxation which are hereinafter specifically earmarked for this fund by the Legislature. The bill also provides that a county may use funds in the property tax reduction fund to reduce property tax rate in year in which moneys are deposited in the fund.
AB 1646 - Chapter 998 Chappie	Provides that counties and other agencies such as public districts and private utilities may apportion between them the costs of removing, repairing or relocating any facilities owned or to be owned by either party on the roads or other property of the other.
AB 1671 - Chapter 999 Z'berg	Permits the California Highway Commission to delegate, upon conditions deemed appropriate, to the Department of Public Works any ministerial or administrative power, duty, responsibility, or function of the Commission, including the authority over the select highway systems.
AB 1810 - Chapter 1000 Foran	Substitutes the Department of Public Works for the Division of Highways for purposes of the Vehicle Code provision permitting maintenance employees to transport or arrange transportation of persons injured on highways to a doctor or hospital, if the person does not object, without liability therefor if ordinary care is exercised.
AB 1851 - Chapter 1001 Duffy	Allows specified persons to receive copies of lists of contents of safe deposit boxes prepared by any county treasurer, bank, savings and loan association, or company conducting a safe deposit business, in addition to lists prepared by the controller.
AB 1879 - Chapter 1002 Mulford	Requires that all insurance contracts issued or delivered on or after July 1, 1972, in this state to state an inception hour of 12:01 am of the date the contract is dated, with the prescribed hour to be the standard time at the residence or principal place of business of the insured within the state unless a specific provision of the Insurance Code otherwise prescribes or permits.

<p>AB 1908 - Chapter 1003 Miller</p>	<p>Provides that deficiency judgments shall not be ordered where the prohibition against deficiency judgments in the Code of Civil Procedure, relating to purchase money mortgages and trust deeds, or to property sold under power of sale contained in mortgages or deeds of trust, is applicable.</p>
<p>AB 1958 - Chapter 1004 Dunlap</p>	<p>Amends the Land Conservation Act to broaden the definition of "prime agricultural land". It authorizes the Storie Index Rating as an alternative classification system for land which has not been mapped or classified under the Soil Conservation Service classification system now designated in the Act.</p>
<p>AB 1972 - Chapter 1005 McGee</p>	<p>Provides that whenever a state agency is abolished or ceases to function, control and possession of assets, shall vest in Department of General Services, unless otherwise provided by law. The bill also provides that if state agency was entirely or substantially supported from a special fund, any money arising from the use or disposition of such assets shall be deposited in special fund or its successor.</p>
<p>AB 1996 - Chapter 1006 Fong</p>	<p>Allows a county superintendent of schools, with the approval of the county board of education, to make certain management and financial studies, to maintain educational exhibits at county fairs, and to make known to the citizens of the county the educational programs and activities of the school districts within his jurisdiction.</p>

The bill also repeals the requirement that gasoline advertising signs must use the same color or tint for all words, letters or figures.</p>
<p>AB 2155 - Chapter 1011 Belotti</p>	<p>Authorizes county boards of supervisors to provide one official bond for a county officer performing duties of offices which are consolidated pursuant to law.</p>
<p>AB 2312 - Chapter 1012 Zenovich &amp; Pattee</p>	<p>Exempts from the Special Assessment Investigation, Limitation and Majority Protest Act of 1931, proceedings for the construction of improvements undertaken for the safety of school pupils, farmworkers, or other workmen.</p>

Sacramento--Statement by Governor Ronald Reagan

"I have today vetoed SB No. 539, the so-called ARCOSS bill, which would have provided retirement benefits for out of state service for teachers who finish their teaching careers in California.

"I am sorry to have had to veto this bill because I recognize that many of these teachers get no retirement credit for their out of state teaching time and, as a result, are forced to live on retirement income that is less than the income received by teachers who spend their entire careers in California.

"During the campaign I expressed sympathy for their plight and I promised to see what could be done. And I am still hopeful that we can find a way to eventually remedy this situation.

"But SB No. 539 is not the way. Our best experts tell us that this will cost the state in the foreseeable future around \$800 million dollars. That kind of money is not available.

"Those legislators in both houses who voted for the ARCOSS bill approved a bill calling for increased spending, but they did not provide the money or even tell us where we could get it.

"I would urge those who introduced the bill and who voted for it to get together and work out a responsible bill and find a reasonable way to finance it.

"When they do that I will be glad to reconsider today's action.

"Until they do that, the people of California cannot be asked to take on the additional financial burden the ARCOSS bill would demand. This is especially true in light of the facts that they are already being asked to shoulder the heaviest tax load in the Nation and are also being faced with a 10% increase in their Federal income taxes."

"I am sorry that the senate today refused to concur with the assembly on legislation modifying the Rumford Act.

"I am also disappointed the senate became bogged down in procedural problems and never was able to decide the bill on its merits.

"If it had been possible to vote on the substance of the bill, I am sure the senate would have passed it in response to what we know to be the will of the people.

"It is clear from the vote on proposition 14 that Californian's are opposed to the Rumford Act.

"The proposed bill would have removed many of the objections to that act. It certainly was a step in the right direction. There is still time to take that step."

Governor Ronald Reagan today issued the following statement in support of National Water Week, August 13 - 19, 1967.

"Keeping California's water supplies a step ahead of its needs during an era of statewide population explosion is a task which keeps our skilled engineers, planners and administrators in that field constantly alert.

"We are fortunate to have a great deal of water within our borders -- enough, in fact, to fill our foreseeable requirements through the year 2020. And we are accomplishing more than any other state in the field of water transportation.

"The vast State Water Project, now at the halfway point, will be the means of taking surplus water from the north as far as densely populated Southern California -- water to be used for domestic, industrial and irrigation purposes within a few short years.

"We are waging a constant battle to protect our watersheds from fire. None too soon, we are meeting the grim challenge of pollution of our rivers, lakes and bays.

"Because Californians should be aware of the importance of making the most of our water resources, we find it proper to join the American Waterworks Association in commorating National Water Week, August 13 - 19, 1967."

Sacramento--Gov. Ronald Reagan announced today that savings of approximately \$52 million realized in the departments of the Transportation Agency, will allow the advancement of 13 major highway construction projects in the 1967-68 fiscal year.

"Secretary of Business and Transportation Gordon C. Luce has advised me that departmental personnel and operating economies, combined with competitive low bids on many construction projects and an inability to spend in various phases of all departmental operations, have created these massive savings," Governor Reagan said.

I want to congratulate the many state employees whose fine cooperation has made these major economies possible."

The savings occurred in the Departments of Public Works, Motor Vehicles and California Highway Patrol.

A breakdown of the savings shows \$16 million from 1966-67 low bids; \$15 million from additional revenue in operating expense savings in the Departments of Motor Vehicles and California Highway Patrol; \$6.15 million from refinanced projects in District 10; and \$15 million in 1966-67 personnel and operating expense savings in the Department of Public Works. Also it is anticipated that \$15 million to \$20 million can be added to the Highway Fund in 1967-68 because of a lower required cash cushion for expenditures in the California Highway Patrol and Department of Motor Vehicles departmental fund.

Gasoline taxes make up the Transportation Agency Funds and economies realized are then used for right of way and highway construction purposes.

This is great news for California motorists and is strong evidence of the success of the Governor's program for our departments," Luce said.

"Advancing these highway projects will add more jobs for

FOR IMMEDIATE RELEASE

Sacramento--Gov. Ronald Reagan announced today he has signed a bill which for the first time in California history will institute an orderly procedure for making an inventory of all tax-exempt land owned by federal, state and local governments in the state.

"This measure will fill a vital need by determining exactly what governmental agency owns land and where. It follows a pledge I made during my campaign to call for an inventory of all publicly-owned land," the Governor said.

Gov. Reagan noted that of the 100 million acres of land in California, more than 49 million acres are presently owned by government.

"Any further purchases or condemnations of private land can now be questioned because we will have the facts available as to what already is owned," he said.

"This inventory will help us determine if land already in public ownership can be used for a particular program and if exchanges between various governmental agencies can eliminate the need for further purchases," the Governor added.

The bill, SB 1523, authored by Sen. Robert J. Lagomarsino (R-Ventura), was endorsed by the Administration and by the California State Chamber of Commerce, the California Farm Bureau Federation, the California Forest Protective Assn., the California Cattlemen's Assn., the County Supervisors Assn. and other groups concerned with the growing land acquisition programs of government.

Because of the huge acreage of publicly-owned land in California, Gov. Reagan said, it is "time to intensify efforts to restore properties surplus to the needs of government to the local property tax rolls. This law will help us do that."

In addition, the central inventory will help in meeting future outdoor recreational needs because some unused government lands identified in the inventory may be developed for public recreation purposes without expense for land acquisition, the Governor said.

The new law requires the State Lands Division to maintain records of all publicly-owned lands in California and publish a summary report on lands in each county every two years.

PRESS

Steps aimed at eliminating improper use of health services within the state's Medi-Cal program while at the same time adjusting non-essential spending were announced today by Spencer Williams. Williams said lack of funds means curtailment and elimination of some services.

Adjustments in spending are required as a result of previously uncontrolled spending and limits on the amount of money that can legally be spent during this fiscal year. These limits were confirmed by the Legislature during the recent session.

The \$600 million program announced by Williams, Administrator of the Health and Welfare Agency, provides for physicians' services, hospitalization, laboratory and x-ray fees, life-maintaining drugs, essential ambulance service, home health care, emergency dentistry, and a \$10 million emergency fund to pay for other vital services in special cases.

"This adjusted program will provide the most essential services without removing a single person from eligibility rolls," Williams said. "We are determined to provide good medical care for those who need it."

"Adjustments in providing some services are absolutely necessary under the law," Williams said, adding:

"As the deficit is eliminated and savings accrue, services can be increased to the extent possible. We at the same time must be fair to the taxpayer who pays for these services," he said.

Program revisions apply only to the Medi-Cal program. They do not affect the Medicare program.

The California Medical Association and the California Hospital Association have pledged their cooperation in implementing the adjusted program. Revisions were based on the advice of the Health Review and Program Council, which, under the law, advises the Administrator in the conduct of the Medi-Cal program.

MORE

Until revisions were made, the program was threatened with a deficit of approximately \$210 million, \$130 million of which was run up in the first 16 months of operation. Williams started action to bring the program back into fiscal balance as soon as preliminary year-end figures in mid-July disclosed the overspending.

The Legislature, on August 6, imposed a firm prohibition against spending more than the budgeted amount.

At the previous rate, Medi-Cal would have cost \$810 million this fiscal year. But, there is only \$600 million available from the Legislature and other sources to pay the bills.

The prospective \$210 million deficit was partially reduced without any effect on patient care by legislative passage of an Administration-sponsored technical accounting measure and a modification of federal nursing home requirements.

Other major steps announced by Williams included:

A rollback on physicians' fees to January levels while still preserving the concept of "usual and customary fees."

Cooperative controls with the medical profession to prevent Medi-Cal payment to physicians whose pattern of practice is found to be beyond the norms of accepted community standards.

Review of nursing home admissions to eliminate unnecessary admissions.

Restricting surgery to that necessary for treatment of injuries and life-threatening conditions.

Imposition of an 8-day limit on Medi-Cal-financed stays in non-county hospitals. If longer treatment is needed, patients may be transferred to a county hospital, nursing home or to a home care program.

Medi-Cal will continue to pay life-maintaining prescriptions. Payments would continue for insulin and other such drugs for self-medication. No restrictions are planned on drugs administered by physicians or at a hospital.

MORE

Restriction of dental care to emergencies.

Elimination of miscellaneous other services such as non-emergency foot care, chiropractic and physical therapy services, transportation, psychotherapy, eye glasses, hearing aids and special supplies.

Williams said he is hopeful these adjustments will be enough to put the program on a sound fiscal basis.

Statement by Governor Reagan on the McCone  
Commission's Report of Actions to implement  
the recommendations in the Commission's report:

"John McCone, the chairman of the Governor's Commission on the Los Angeles Riots, has presented to me the staff report on actions taken to implement the recommendations in the commission's original report.

"Mr. McCone will present much of the material from this report today in Washington to the President's Advisory Commission on Civil Disorders and before the Senate Judiciary Committee.

"Like Mr. McCone, I am heartened by the progress that has been made in many areas and by the proof furnished in this report that private enterprise--the independent sector--can put people to work. At the same time I am disturbed by Mr. McCone's assertion that 'the most serious and immediate problem facing the Negro...is the lack of employment.'

"It is obvious from the report that the lack of jobs is the primary problem facing our Negro minority and that the availability of jobs can solve one of our most pressing urban problems.

"Even more disturbing is Mr. McCone's disclosure that there is almost no coordination of county, state and federal job training programs.

"Mr. McCone, as I do, feels there should be a job training program coordinator in each metropolitan area to prevent overlap and duplication. This could probably best be accomplished by private industry, but in any event it is not a task for the federal government.

"Another major problem area is welfare. Welfare costs continue to rise precipitously. Mr. McCone tells me that the cost of aid to families with dependent children has increased by more than 50 percent in two years with 'no significant increase in the amount of money paid to the recipients.' This means that the number of persons receiving welfare under this program has increased by almost 50 percent in that period.

"It is obvious that something must be done about this situation. This may call for a complete restructuring of our welfare programs and their administration.

"I expect to make a study of welfare problems a major part of this Administration's program. I am convinced that the answer to the problem is not the continuous addition of new layers of administration on top of old layers.

"I know I have touched just briefly on Mr. McCone's complete report, copies of which will be available as soon as they can be furnished by the printers, probably on Thursday.

"I am most grateful to Mr. McCone for the two years of hard work he has put in without compensation. His studies should be helpful not only to Los Angeles but to every urban area in the United States.

"At Mr. McCone's request, I am now dissolving his commission. He feels its work is done and that the job now is to implement the recommendations the Commission has made and to correct the problems it has pointed out.

"In line with his recommendations to me, I expect shortly to name a statewide advisory committee that will work in the areas detailed in the commission's report."

The California Job Training and Placement Council -- a major program of the Reagan Administration -- was initially formed by an executive order of Governor Reagan and later was formally established by the 1967 Legislature to organize existing training programs into a closely coordinated system designed to remove the able-bodied unemployed from the welfare rolls and to enlist private industry's support in securing jobs for graduates of training programs.

It will submit an interim report to the Governor and Legislature at the 1968 regular session and a final report at the 1969 regular session. It is empowered to accept grants from public and private sources.

Lt. Governor Robert Finch is the Council's chairman.

IMMEDIATE RELEASE

PRESS

Sacramento--Governor Ronald Reagan announced today that quick action has been taken to permit the use of state-owned Camp San Luis Obispo for several hundred disadvantaged teen-agers from the Hunters Point area of San Francisco.

The governor, working in conjunction with Lt. Gov. Robert Finch and State Adjutant General Glenn Ames, made the facilities available within hours after receiving a request from the Greater San Francisco Chamber of Commerce.

Chamber President Cyril Magnin contacted state officials at mid-morning Friday requesting use of the state-owned camp for the weekend use of several hundred teen-age boys.

Gov. Reagan instructed Finch and General Ames to cut through red tape to make the facilities available as quickly as possible.

As a result, the youths, transported from the San Francisco area by privately-donated transportation, will begin arriving Friday evening for a two-day stay at the scenic camp.

Lt. Gov. Finch, who co-ordinated the state activities, said use of the camp will give disadvantaged youngsters an opportunity to make use of some of the finest beaches on California's coast at nearby Morro Bay.

"It is a fine example of the private sector working with government to assist those who may never have such an opportunity," Gov. Reagan said. "Those who helped put this project together are to be congratulated for the way details were expedited," he said.

Gen. Ames said the Military Department will provide quarters for the youths, as well as kitchen facilities and emergency medical aid.

"Youth for Service" will provide counselors for the youngsters attending the weekend outing.

Camp San Luis Obispo is used by the National Guard for training purposes.

Sacramento--Philip M. Battaglia resigned today as Gov.

Ronald Reagan's Executive Secretary to return to the private practice of law.

Battaglia will remain in his post at least through the upcoming Legislative session in order to assure an orderly transition within the office.

Battaglia, 32, has served as Executive Secretary since Reagan took office in January. Before that he headed up Reagan's interim government staff and prior to that he served as Reagan's State Campaign Chairman.

In a statement, Gov. Reagan expressed regret at Battaglia's departure and appreciation for his work.

He has been a good personal friend, a trusted advisor and the hardest worker on my staff. His brilliance and his leadership are responsible for much of what this administration has been able to accomplish.

"However, I have known from the beginning that his service would be limited and that he would have to return to his profession. I wish him Godspeed."

✓ Gov. Reagan said he was naming William Clark, Jr., his Cabinet Secretary, as Executive Secretary.

SACRAMENTO--Agreement on the sale of State Water Project power generated at Oroville to three private electric utility companies has been reached, William R. Gianelli, Director of the State Department of Water Resources, announced today.

A contract will be signed, shortly, by the State Department of Water Resources and the California Power Pool, consisting of Pacific Gas and Electric Co., Southern California Edison Co., and San Diego Gas and Electric Co.

Under the contract, the companies will pay the State \$16,150,000 annually -- more than \$800 million over the life of the contract -- for the output of Oroville and Thermalito power-plants when they go into full operation about April 1969.

"The agreement is highly satisfactory to the State," Gov. Ronald Reagan said. "As a result, we will be able to issue revenue bonds in an amount approximately \$40 million higher than that estimated earlier this year by the Water Resources Task Force in their investigation of State Water Project financing.

"This additional bonding capacity will substantially reduce the additional financing requirement foreseen by the Task Force.

"The contract also has the effect of reducing the cost of state water to residents within the areas served by local contracting agencies. It produces income to help pay capital costs which would otherwise be paid for by the water users."

Gianelli said the State will be able to issue revenue bonds backed by the contract in the amount of \$275-300 million to supplement other funds available for construction of the State Water Project.

Noting that the contract has been under intensive negotiation for almost one year, the Governor congratulated Gianelli, the staff of the Department of Water Resources, and those of the utilities for their work in bringing the difficult negotiations to a successful conclusion.

"This is another splendid example of effective cooperation between the State and free enterprise," Gov. Reagan said.

The State now has an extremely effective 'package' in the power field, including the sale of the generation of high value 'on peak' power from the Oroville complex and an arrangement for purchasing low-cost 'off peak' power from the 'Suppliers' to be used for the pumping

of Project water to 28 agencies throughout California by means of the California Aqueduct, the North Bay Aqueduct, the South Bay Aqueduct and the West Branch, Gianelli said.

(The Suppliers include the three companies comprising the California Power Pool, plus the Los Angeles Department of Water and Power.)

Sacramento--California took a decisive step to protect and preserve clean air today when Gov. Reagan signed the Mulford-Carrell Act creating an Air Resources Board.

The Act was a major part of his legislative program.

"This Act fills a long-sought need by bringing under one roof State agencies working on the critical problem of air pollution, and gives the State authority over stationary pollution sources, as well as continuing that over vehicular sources," Gov. Reagan said.

"At the same time, the Act preserves the local autonomy of county and regional air pollution control districts by encouraging them to enforce their own regulations. The State would intervene only where local areas failed to show a reasonable effort to control air pollution.

Under the new law, local districts may band together into regional districts for a concerted attack on pollution where none now exist.

The Governor said the Act is a first step in eventual total control of the State's environment, including air, water and solid waste.

"We can no longer look at these problems as separate entities," Gov. Reagan said. "They are tied together in their effect on our lives, property and crops. They must be approached on that basis. We must constantly search for ways to improve our environment consistent with our technology and growth."

The Governor said he would be making appointments to the Air Resources Board soon. The Board will consist of 14 members--nine public and five State officials.

Under the Mulford-Carrell Act the present Motor Vehicle Pollution Control Board, pioneer agency in the field of auto smog reduction, will be absorbed by the Air Resources Board. Its staff will become part of ARB.

Eric P. Grant, Motor Vehicle Pollution Control Board Executive Officer, assured the Governor the transition would be orderly and that the State's strong vehicle pollution control program would continue.

Grant said the Mulford-Carrell Act is "a tremendous advance in getting cleaner air for California without a large investment in new personnel."

"We can use the staff we now have to carry out most of the responsibilities and directives in the law," he said.

Grant said he is certain the new Board will deal with established air pollution districts on a cooperative basis.

"The State does not intend to impose dictatorial leadership on the counties, but rather to work with them on common objectives to reduce their sources of air contamination," Grant said.

The Governor, in signing the Act, paid special tribute to Sen. Tom Carrell (D-San Fernando), Assemblyman Don Mulford (R-Piedmont), and Assemblyman Frank Lanterman (R-LaCanada) for their efforts in sponsoring the legislation and guiding it through the Legislature.

"These men worked unceasingly in the best interests of all the people of California," Gov. Reagan said, "and deserve commendation".
