DEPARTMENT OF GENERAL SERVICES

SACRAMENTO

December 1, 1966

This guide to the Organization of the Executive Branch of California State Government is designed to provide a picture of the components, functions, and reporting relationships within State government.

This publication is widely distributed within State government. It is also provided to other public and private groups, and to individuals upon request.

Since the first edition of this guide was published in February 1964, we have received many valuable suggestions for revision and improvement of the listing. If omissions or errors are noted in this edition, please let us know so that necessary corrections can be made in the next revision.
