Mr. Roger B. Smith

On the occasion of General Motors' 75th Anniversary, I am pleased to present you with a copy of "General Motors: The First 75 Years of Transportation Products."

Our diamond anniversary is an important milestone in the history of the automotive industry; indeed, in the history of American business. The growth and success of GM exemplifies what can be done in a competitive, free enterprise system that encourages the exercise of initiative by individuals, the free pooling of resources, and the free collaboration of many minds and hands in a common task.

General Motors is very proud of its many achievements and contributions these past 75 years. We are proud of our record in the worldwide auto industry, and we are proud of the millions of jobs we have provided, the new business opportunities we have generated, our contribution to the economic growth of the nation and the many communities across the land in which we operate, and the billions of dollars we have paid in dividends to those who have invested in the Corporation.

While we pause to survey the progress of the past, we also consider the promise and opportunities of the future. The U.S. auto industry has come through a period of revolutionary change in the past few years, and a firm foundation has been laid for a dynamic and prosperous future. GM looks forward with confidence to meeting the many competitive challenges that lie ahead and rededicates itself and its products to the people and the nation it serves.

I hope you find this pictorial history of some of the significant transportation products upon which GM's success has been built to be both interesting and informative.

MEMORANDUM RE:

DATE October 3, 1983

TO: Michael K. Deaver

FROM: Rita E. Hauser

Our State Comptroller, Ned Regan, who is the highest elected Republican official in New York State, is a good friend of mine whom I esteem highly.

He is interested in serving on the President's Committee on reindustrialization. He is very knowledgeable about productivity problems particularly with his background as County Executive for two terms in Erie County, which comprises Buffalo.

I hope you will be in touch with Ned. He also would like to be involved in the President's campaign next year in New York State in a significant way. We can talk about that at the appropriate time.

Best regards,

Dear Michael:

I have been asked to extend an invitation to the President to meet with the Board of Directors of Florida Progress on October 19th here in Washington.

This is an outstanding group of Florida's leaders of the private sector, such as Andy Heinz, Chairman of the Board of Florida Progress; Bob Allen, President of Walt Disney World; Scott Linder, Chairman of the Board of Linder Industrial Co.; Richard Johnson, Senior Vice President of Southeast Banks, and several others of noteworthy reputation. I believe this would be a tremendous opportunity for President Reagan if he could address them briefly.

Florida Progress is a new holding company with multinational business dealings in coal and energy. The organization is very active and just recently engaged in a merger with Lykes Brothers to sell coal to Japan.

Any assistance you can render with the President's schedule would be greatly appreciated. I look forward to hearing from you soon. With my regards and best wishes,

Sincerely,

Paula Hawkins
