Dear Carlton:

I appreciated the opportunity to talk with you briefly about the President's strategy on drug abuse. I would appreciate your sending me information on his remarks of November 17, concerning the Florida Task Force.

Your comments concerning the President's strategy toward alcohol and drugs are well taken. We at ADPA do definitely perceive a divergence in opinion and philosophy, although we certainly share a common agreement on the magnitude of the problem. ADPA is currently preparing a formal response to the strategy, which we will share with you as soon as it is ready. While we will be in disagreement on some points, I think that we can begin to work toward a resolution. It is always the policy of ADPA to work in full cooperation on commonly agreed areas of concern.

Roger and I look forward to an opportunity to discuss these issues in more detail with you. I will give you call after the first of December to set up a convenient time.

Sincerely,

Eric G. Scharf
Assistant Director
for Membership Services

ALCOHOL AND DRUG PROBLEMS ASSOCIATION OF NORTH AMERICA

ALCOHOL AND DRUG

The Alcohol and Drug Problems Association of North America, Inc. (ADPA) is a non-profit, tax-exempt membership association representing more than 10,000 professional alcohol and drug abuse workers through institutional and individual memberships. The mission of ADPA is to improve the conditions under which such professionals and other concerned groups and individuals operate so they more effectively provide treatment, rehabilitation, prevention, education, research and other services.

ADPA's membership as a whole is active in virtually every sector of the field.

Based in Washington, D.C., since 1949, ADPA is especially concerned with bringing together diverse disciplines and interests for unity of action whenever feasible. ADPA is the only national association concerned with both alcohol and drug abuse issues. The association focuses mainly on issues, developments, and problems which are national in scope and which represent either opportunities for or threats

to the field. These issues typically include federal legislation, public policy questions, development of improved services, financing and quality assurance. ADPA functions as an observer and reporter of issues and as a strategist and implementor on behalf of its membership and the field at large.

Field professionals are encouraged to participate in national activities as a demonstration of their concern. ADPA offers this opportunity.

PROBLEMS ASSOCIATION

CONFERENCES/ TRAINING

ADPA conducts a variety of activities to improve the professionalism of field workers. Each year ADPA holds its annual conference, a major alcohol/drug abuse training event, which brings together field leaders for presentations and workshops. Regional conferences and specialized training workshops are held throughout the year in various locales throughout the country.

PUBLICATIONS

ADPA publishes a monthly newsletter, the "ADPA Professional", on association activities and current events and issues in the field. The "Professional Training and Educational Opportunities Directory" is published twice each year, and includes a schedule of upcoming educational events. ADPA's Education Section publishes the "Journal of Alcohol and Drug Education," a quarterly journal available at a reduced rate to

ADPA members. Other specialized mailings on current legislation and public policy and other issues are sent to the membership.

JOB CLEARINGHOUSE

Since 1972, ADPA has operated the most comprehensive Job Clearinghouse Service in the field. Each month, ADPA compiles a list of positions available and positions wanted and distributes this information to the membership. The Job Clearinghouse Bulletin may also contain other announcements.

ALCOHOL AND DRUG PROBLEMS ASSOCIATION OF NORTH AMERICA

**THE ADPA WORKSHOP PROGRAM
ANNOUNCES WORKSHOPS IN TREATMENT, FUNDRAISING AND MARKETING
WASHINGTON DC, AUGUST 28-29, 1982**

. . . ABOUT ADPA

The Alcohol and Drug Problems Association seeks to improve the conditions under which alcohol and drug abuse professionals and their supporters operate so that they may more effectively treat persons suffering from these illnesses, reduce the potential for these addictions and abuses, and lessen their destructive impact on society. In seeking to accomplish its goals, ADPA functions as a membership association consisting of alcohol and drug abuse professionals and others active in every conceivable sector of the field. ADPA is proud of its unique status as the only national association concerned with both alcohol and drug abuse and with the general well-being of the field as a whole, rather than with any one of the many important special interests and disciplines within it. One of ADPA's chief interests since its formation in 1949 has been to foster unity of purpose and action among various field constituencies.

. . . ABOUT ADPA'S WORKSHOP PROGRAM

ADPA's commitment to professional development for alcohol and drug abuse workers is manifested through numerous activities including training offered at its annual meetings, regional conferences and workshops. The ADPA Workshop Program consists of a continuing series of specialized training events conducted throughout the country by trainers who are nationally recognized as experts in key areas within the field. Typically, ADPA workshops are held concurrently, are conducted on two consecutive days (often weekends), and are limited to fewer than 25 participants. Fees are kept as low as possible consistent with the association's policy of not losing money on the workshop program. Reduced fees are available to the association's members.

• WORKSHOP TOPIC AND DESCRIPTION

"Improving Your Agency's Marketing Techniques" will focus on the interrelated concepts of selling your program's services to target groups and of gaining community and/or legislative support for both your program and the services it offers. Given recent national developments, many are beginning to recognize that effective marketing is critical for survival. The workshop will make use of lectures, problem-solving exercises and group discussion. At the completion of the program, participants should be competent to develop marketing strategies for selected target groups based on effective methodologies including cost-benefit techniques.

• WORKSHOP LEADER

Elliott Wolf, MBA, is highly regarded as a trainer and consultant with over 15 years experience in the marketing of business and social services. A consultant to NIAAA, NHSTA and other federal agencies, Wolf has conducted workshops for numerous groups through sponsorship by these agencies, and for states, academic institutions, associations and many other organizations.

• EXPECTED PARTICIPANTS

This workshop is specifically designed for program personnel responsible for, or concerned with, the marketing of services, whether from a treatment perspective or for prevention, training of other services. Others who may benefit from the workshop include general program administrators, individual and group trainers, consultants, and essentially anyone concerned with marketing health and social services in a competitive environment.

• **WORKSHOP TOPIC AND DESCRIPTION**

"Reality Therapy, a Highly Effective Counseling Technique" will focus on personal growth and on counseling skills from the perspectives of non-judgmental self-awareness and therapeutic involvement. The underlying goal is to facilitate change, whether in a client or in oneself. Discussion and group exercises will stress an exploration of personal values, the qualities of the effective counselor, basic techniques of reality therapy and personal and interpersonal conflict management. The workshop will be based on the leader's book, *Consider the Alternative*. A major theme of the workshop will be "shared rebirth", a passage from a fractured, self-centered, destructive existence to an open, constructive and caring life.

• **WORKSHOP LEADER**

Lee M. Silverstein, MSW, is a recovering alcoholic turned therapist/counselor. He is widely known as a lecturer to professional alcohol and drug abuse audiences. Author of *Consider the Alternative*, his philosophy and counseling methodology are derived from reality therapy, rational emotive therapy and values clarification.

• **EXPECTED PARTICIPANTS**

The workshop is specifically designed for mid- and senior level counselors in the alcohol, drug abuse and related fields, and for program administrators whose agencies offer counseling services. The workshop may also be of significant interest to recovering alcoholics and addicts, and to health care professionals in general and others who have an interest in an effective therapy applicable to alcohol and drug abusers and other substance abusers.

• **WORKSHOP TOPIC AND DESCRIPTION**

"Proven Fundraising Techniques for Community-Based Programs" will focus on an examination of a variety of techniques which may be used to attract corporate, foundation and philanthropic support for community-based programs. Numerous fundraising ideas will be explored, including a model for assessing your own program's chances for raising funds. Techniques for preparing the community to assist in fundraising will be described, with emphasis on the use of public relations and media relations. By the completion of the workshop, participants will have worked out a general plan of action for fundraising in their home communities.

• **WORKSHOP LEADER**

John William Thomas is a professional development and fundraising officer for a major institution of higher learning in Florida. With 15 years experience in every aspect of fundraising for human services programs, he is a Past President of the Florida Association of Drug Abuse Treatment Programs, and is currently a senior member of the National Society of Fundraising Executives. Through agreements with NIDA and NIAAA, Thomas has delivered workshops on fundraising for alcohol and drug abuse treatment and other programs throughout the country.

• **EXPECTED PARTICIPANTS**

The workshop is specifically designed for program personnel responsible for, or concerned with, fundraising for their agencies. Members of boards of directors and other concerned citizens who actively support alcohol and drug abuse programs and programming will also benefit from participation.

• **WORKSHOP TOPIC AND DESCRIPTION**

"Transformers: the Therapists of the Future" will focus on the role and functions of transformers, a relatively new concept in the areas of human development and counseling. Transformers act as human catalysts to assist themselves, clients and others to discover and use innate abilities to transcend "ordinary" living, thus effectively changing lives for the better. The basic conceptual framework and specific examples and exercises for using this new therapeutic methodology will be given. The workshop will also include a discussion of the relationships between the principles of transformation and the Twelfth Steps of AA.

• **WORKSHOP LEADER**

Jacquelyn Small, MSSW, presently conducts a private consulting and clinical practice in Austin, Texas. Director of Training for the Texas Commission on Alcoholism for six years, she is the author of *Becoming Naturally Therapeutic*, a widely recognized workbook for alcoholism counselors. Her new book, *Transformation: the Therapy of the Future*, offers a new model of Self-Transformation Theory. She has conducted workshops and given lectures throughout the U.S. for government agencies, universities, addictions programs, associations and other groups.

• **EXPECTED PARTICIPANTS**

The workshop is specifically designed for addictions counselors at every level, and for others concerned with effective counseling techniques. Recovering alcoholics and addicts and persons interested in self-help therapeutic techniques will also benefit.

REGISTRATION FORM WDC-0882

- Please type or print your name and address:

Office phone with area code: _____

- The fee for attending any of the workshops is \$75 for ADPA members and \$95 for others. CEU's will be granted through the Georgetown University Hospital Educational Program (nationally certified) for an additional \$7 fee. Please indicate the workshop and amount due below:

_____ Silverstein _____ Small
_____ Williams _____ Wolf
Amount due ADPA _____

- Enclose a check or money order in U.S. currency for the appropriate amount or you may charge registration by providing the information below:

Plan: _____ MasterCharge or _____ VISA
Card # _____ Exp. _____
Signature _____

- Return this form with your remittance to ADPA Workshop Program, 1101 15th Street, N.W., Suite 204, Washington, DC 20005. (Phone 202-452-0990 for further information.) ADPA reserves the right to cancel any workshop where registrations are insufficient to cover all costs. In this event, you will be notified by August 11, 1982, and your full remittance will be refunded. Cancellations initiated by registrants are subject to a \$10 handling fee, and cannot be accepted after August 6th. In the event you cancel, you may name a substitute attendee if you wish.

- All workshop sessions will be conducted at the Hyatt Regency Hotel, Washington, DC, on August 28-29, 1982. Specific times and room numbers will be provided upon receipt of your registration and remittance. Included will be a hotel registration form allowing you to register at the Hyatt for the reduced rate of \$55 per night per room.

ADPA Workshop Program Announcement

ALCOHOL AND DRUG PROBLEMS ASSOCIATION OF NORTH AMERICA

ANNOUNCES A

**NATIONAL CONFERENCE ON FINANCING
ALCOHOLISM AND DRUG ABUSE TREATMENT SERVICES
CHICAGO, ILLINOIS — FEBRUARY 27-MARCH 1, 1983**

• PURPOSE OF THE CONFERENCE

The financing of treatment services for those suffering from alcoholism and/or drug addiction is one of the chief concerns facing program administrators today. Whether they want to or not, virtually all programs must, of necessity, place greater emphasis on private funding sources. The situation demands creative planning and the sound management of resources. Large or small, public, private or "in-between," programs must meet the challenges inherent in financing their services.

Because of this situation — actually a crisis for many — ADPA is sponsoring this National Conference. Primarily for program administrators, the conference will focus on the numerous issues comprising the broad area of treatment financing. Expert speakers with hands-on experience will provide current, accurate information and state-of-the-art techniques to help you develop practical strategies for your program. The National Conference will address every major issue in this critical area of concern to the field.

• WHO WILL BENEFIT FROM ATTENDING?

The National Conference has been designed to be of benefit to both public and private program administrators, fiscal managers, planners, owners and others directly concerned with program survival and growth. Of interest to the private sector will be presentations relating to the maintenance and expansion of funding support. Public sector programs will generally be concerned with issues relating to the identification and securing of new revenue sources. Others who will benefit from the National Conference include those in state and sub-state government, the insurance industry, EAP programs and those concerned with financing issues in general. The program will be designed so that attendees with varying levels of skills and knowledge will find presentations suitable to them.

• ISSUES TO BE ADDRESSED

All speakers at the National Conference will have expertise in one or more of the numerous issues comprising the complex subject of treatment financing. At least one presentation will be given on each of the following issues:

- Maximizing Health Insurance Reimbursements
- Funding Sources for Currently Expanding Programs
- Overview of Private Sector Funding Issues
- JCAH: Where Are They Going and Who Will Be Helped or Hurt?
- Treatment Financing Issues from the Perspective of Private Insurance Carriers
- Successful Client Fee and Billing Systems
- Proven Tactics for Marketing Your Program's Treatment Services
- The Cost Effectiveness of Treatment — Can We Prove It Yet?
- Record Maintenance as a Critical First Step
- Tapping into Federal Insurance Programs
- Effective Unit Costing Techniques
- Community Contributions as a Funding Source
- Matching Levels of Care to Costs of Treatment
- Program Alumni as a Fundraising Resource
- Health Care Financing Administration Update
- The Role of Quality Assurance
- Self-Insured Programs and Service Financing
- Client Referrals from EAP Programs, Drunk Driving Programs and Other Sources

The Preliminary Program is expected to be available by mid-December.

ALCOHOL AND DRUG PROBLEMS ASSOCIATION OF NORTH AMERICA
1101 Fifteenth Street, N.W., #204, Washington, DC 20005 202-452-0990

• **ADPA**

The Alcohol and Drug Problems Association seeks to improve the conditions under which alcohol and drug abuse professionals and their supporters operate so that they may more effectively treat persons suffering from these illnesses, reduce the potential for these addictions and abuses, and lessen their destructive impact on society. In seeking to accomplish its goals, ADPA functions as a membership association consisting of alcohol and drug abuse professionals and others active in every conceivable sector of the field. ADPA is proud of its unique status as the only national association concerned with both alcohol and drug abuse and with the general well-being of the field as a whole, rather than with any one of the many important special interests and disciplines within it. One of ADPA's chief interests since its formation in 1949 has been to foster unity of purpose and action among the various field constituencies for the mutual benefit of all.

• **ADPA SERVICES**

ADPA serves to promote the interests of the professional alcohol and drug abuse community. The association sponsors national and regional conferences — five in 1983 — to bring together major field constituencies for purposes of information exchange and strategy development. ADPA distributes numerous publications and mailings including a monthly newsletter, the "ADPA Professional," the popular "Directory of Professional Educational and Training Opportunities," the monthly "Job Clearinghouse Bulletin," the quarterly "Journal of Alcohol and Drug Education" and various reports and specialized mailings addressing current topics of interest to the field. ADPA also provides testimony before Congress and other governmental bodies, is a leading member in numerous coalitions, forums and other groups, and actively participates in federal and other national initiatives.

• **CONFERENCE SITE**

The National Conference will be held at the Hyatt Regency Hotel near O'Hare International Airport in Chicago. The Hyatt Regency is a large, modern hotel with extensive conference facilities and an enclosed shopping mall, and is ten minutes from the airport by regularly scheduled shuttle bus.

• **CONFERENCE SCHEDULE**

The National Conference has been designed to provide attendees with a concentrated, highly informative program in a limited period of time. Its format will include plenary sessions for all attendees and concurrent workshops from which attendees may make selections.

Sunday, February 27

- 2:00—4:00 Registration/Informal Orientation
- 4:00—5:30 Opening Plenary: "Overview of Treatment Financing Issues"
- 5:45—7:00 ADPA President's Reception

Monday, February 28

- 9:00—12:00 Plenary Sessions
- 12:15—1:30 Luncheon, with Speakers
- 1:45—4:00 Concurrent Workshops
- 4:00—5:00 Plenary Session

Tuesday, March 1

- 9:00—10:30 Concurrent Workshops
- 10:45—12:00 Small Group Workshops on Strategies for the Future
- 1:00—3:00 Closing Plenary: "Developing Specific Strategies for the Future"

Proceedings of the National Conference will be published and mailed at no additional cost to all conference attendees.

STATISTICAL ANALYSIS ON THE MEMBERSHIP
OF THE ADPA AGENCY COUNCIL

- - - - -

An analysis of the programs and concerns of ADPA agency members based on a 37% response to a survey instrument utilized in the fall of 1981.

OVERVIEW

The typical Council member is a large, private, non-profit treatment program which is concerned with both alcohol and other drug problems and which believes that the associations major activities should be focused on third party reimbursement issues and federal legislation. Many Council members differ from this typical profile, however, reflecting the diversity of field constituencies affiliated with ADPA. Highlights from the analysis include the following:

- 33 of the 52 respondents (63%) are private non-profit agencies.
- 34 of the 52 respondents (65%) described their primary classification as a treatment program. The classification with the next highest incidence, occupational/EAP was mentioned several times.
- The majority of the responding programs, 25 out of 44 (57%), are concerned with both alcohol and other drug abusers. Of the remaining programs responding to this question, 16 (36%) focus primarily on alcohol abuse and alcoholism, and 3 (6%) on drug abuse and addiction.
- Of those programs providing treatment, 68% listed inpatient care. The average number of beds for these programs was 52 within a range of 10-180. Sixteen agencies also provide intermediate/residential care, with the average number of beds being 73 in a range of 15-250.
- Major activities other than treatment included community education (cited by 23 respondents), out-patient care (20), aftercare (19), constituency building (14), consultation/education (13), referral (11) and advocacy (10).

With 23 and 22 mentions respectively, third party reimbursement and federal legislation were clearly those areas of concern upon which most Council members wanted the association to focus its resources. Other issues, none cited by more than seven agencies, included accreditation, certification, networking, research, special populations and private sector issues.

- - - - -

ADPA COUNCIL OF AGENCIES SURVEY - 1981

GENERAL INFORMATION

Of the 52 agencies that responded to the questionnaire the majority represent programs in the mid-west, with the rest almost equally divided between other areas of the United States, as follows:

<u>Mid-west</u>	<u>South-east</u>	<u>Mid-Atlantic</u>	<u>North-east</u>	<u>West</u>
18	8	7	7	4

Broken down by state, responses came from the following states (numbers in parentheses represent programs responding): Illinois (5), Minnesota (4), Ohio (4), South Carolina (4), Wisconsin (4), Massachusetts (3), Pennsylvania (3), New Jersey (2), North Carolina (2), Utah (2), and one (1) each from Alaska, California, Connecticut, Delaware, Florida, Maine, Maryland, Missouri, New Hampshire, New Mexico, Oklahoma, Rhode Island and Tennessee.

The majority (34) of programs listed their primary classification as treatment, with the remainder classifying themselves as follows: Occupational/EAP (7), State/Sub-state Association (5), Prevention Program (5) and Academic/Educational (2). Other descriptions listed were Private Voluntary Health Agency, 24-hour emergency service, Alcohol Recovery Network, Training/Consulting Firm, Referral/Advocacy, Driver Education/DWI, Public Inebriate Program, and Research.

Thirty-five (35) programs described themselves as free-standing; 19 are under a parent organization including mental health centers, city health department, private hospital, state authority, county mental health center, and university.

The majority of programs focus primarily on the treatment of both alcohol and drug problems, as follows:

<u>Alcohol and Drug Abuse/ Addiction</u>	<u>Alcoholism/ Alcohol Abuse</u>	<u>Drug Abuse/ Addiction</u>
25	16	3

Approximately half of the programs (26) are currently affiliated only with ADPA. The remainder are also affiliated with the following organizations: NCA (10), ALMACA (8), NAATP (5), AHA (3), AHHAP (3), Local/State Hospital Association (3), Local/State Organization (2), NCCMHC (1).

Forty-four (44) programs responded to the questions related to staff and volunteers, with the following results:

	<u># of programs:</u>	<u># of individuals:</u>
Full-time paid staff	44	Greatest number of staff 325
More than 100 paid staff	5	Smallest number of staff 2
Less than 10 paid staff	10	
Active volunteers	37	Greatest # of volunteers 500
More than 175 volunteers	3	Smallest # of volunteers 3
Less than 10 volunteers	5	

A total of 2202 full-time staff were employed in the 44 programs.

A total of 1892 volunteers, including boards, were active in 37 programs.

SERVICE DELIVERY

Programs which described themselves as primarily treatment agencies were asked to describe their major and minor activities, as follows:

<u>Direct client services</u>	<u>Major activity</u>	<u>Minor activity</u>
Inpatient care	24	
Intermediate/residential	16	2
Outpatient care	20	9
Outreach	8	18
Referral	11	15
Daycare	3	3
Aftercare	19	13

The average number of inpatient care beds was 52 in a range from 180 to 10 beds. The total number of inpatient beds in the 24 facilities was 946. The average number of intermediate/residential beds was 73 in a range from 250 to 15 beds. The total number of intermediate/residential beds was 1021.

All of the programs responding were asked to indicate which indirect and other services they provided, and to indicate which were major or minor activities.

<u>Indirect/other services</u>	<u>Major activity</u>	<u>Minor activity</u>
Community education	23	18
Advocacy	10	14
Constituency building	14	16
Consultation/education	13	12
Volunteer recruitment/training	7	11
Volunteer placement/supervision	1	11
Human resource (training)	9	18
Human resource (academic)	4	16

Other services listed were outpatient methadone detoxification, occupational referral, school referral service, EAP, juvenile diversion program, and DWI intervention program.

-more-

FUNDING

Forty-one (41) agencies responded to the question about their approximate annual operating budget.

<u>Category:</u>	<u># of agencies:</u>	<u>top figure:</u>	<u>lowest figure:</u>	<u>average:</u>
Million dollars	18	9 million	1 million	3 million
Thousand dollars	23	800,000	4,000	321,000

Agencies were then asked to indicate all funding sources from which they currently receive at least 10% of their operating budgets. Twenty (20) programs receive funds from the federal government, 23 from state governments, 18 from local government, and 7 from private foundations. The sources which provide at least 10% of the agency funds are as follows:

<u>Funding source:</u>	<u># of agencies:</u>	<u>Funding source:</u>	<u># of agencies:</u>
NIAAA	8	Private foundation	7
NIDA	7	Client fees	29
DOT	1	Dues/membership	6
NIMH	1	Tuition/workshop fees	9
HUD, Navy, Army	3	Sales of materials	5
State government	23	Donations/contributions	16
Local government	18	Other (United Way, contracts)	3

Third party reimbursement was received from the following sources:

Blue Cross/Blue Shield	21	Medicaid	5
Other private payors	20	Medicare	9
CHAMPUS	10	Title XX	10

Thirty-three (33) programs described themselves as private non-profit; four (4) described themselves as private-for-profit. Two (2) programs are state governmental agencies; seven (7) programs are city, local or county agencies.

LICENSURE/ACCREDITATION

The majority of programs had some form of licensure, certification or accreditation, as follows:

<u>Licensing body:</u>	<u>Number of programs:</u>
State licensure/certification	35
JCAH accreditation:	
one year	5
two years	11
NIMH psychiatric facility certification	1
Local department of mental health	2
Association of clinical pastoral education	1
Church social service organization	1
Counselor certification	1

Three (3) agencies reported that they had been found out of compliance by JCAH with, respectively, program management, patient management, or patient services. The comments concerning the competence, helpfulness or validity of the JCAH process ranged from "excellent, professional and thoughtful" to "boring" and "not helpful at all." Many of the agencies, even those that found the process helpful, thought the JCAH standards were inappropriate, that the survey took too much staff time, or that the process was more beneficial to management than to the quality of patient care. One agency thought the standards were "too hospital-oriented" and that more attention should be paid by the surveyors to the concerns of family members. Several agencies mentioned that their only motivation for participating in a JCAH survey was 3rd party reimbursement. The perception of the surveyors ranged from "exceptional" to "poor".

FOCUS OF ACTIVITIES

At the conclusion of the questionnaire it was pointed out that ADPA's primary focus has been on major national issues affecting the field as a whole, including such broad categorical areas of activity as federal legislation, third party coverage, accreditation, research issues, and more.

The survey asked the programs to describe the general or specific national issues they believe ADPA should focus its efforts on over the next 18 months. Thirty-five (35) programs responded (SEE CHART ON FOLLOWING PAGE).

The overwhelming response indicated that the major concerns of the programs were federal legislation and 3rd party reimbursement; several programs divided their priorities equally between these two categories.

Three (3) programs listed women as the special population of concern; one program listed the indigent substance abuser as a priority special population; one program divided its concerns between the white-collar substance abuser, native Americans, youth, and women; one program was concerned with rural populations.

Coordination of activities between national organizations in the field, exchange of information between states, and membership building were mentioned as priorities by six (6) agencies. Two (2) programs, one for profit and one non-profit, felt strongly that ADPA concentrates too heavily on the public sector.

One program listed the ADPA job listings as a priority area on which ADPA should continue to focus. Another program mentioned the job listings as a part of networking.

One program, which is a treatment center for substance abuse, felt that drug monies should be spent on law enforcement instead of treatment. One program was concerned about treatment alternatives to incarceration.

Under federal legislation a number of specific areas were listed: education of congressional staffs, regulations concerning federal grants, national health insurance, mandated alcohol services, lobbying, legislation relative to DWI programs and domestic violence, and support/oversight of NIAAA.

Youth, genetics, medical issues, and more readily available data, were listed by those concerned with research.

SEE CHART ON NEXT PAGE

The following chart shows the major areas of concern of the thirty-five (35) programs responding. The numbers represent the number of programs in each category. (A number of programs divided their priorities, ie: between federal legislation, 3rd party coverage, certification, and so forth).

<u>Issue</u>	<u>Priority of Concern</u>

RE: Drunk and Drugged Driving Awareness Week

DATE: October 27, 1982

The President has proclaimed the week of December 12-18, 1982 as National Drunk and Drugged Driving Awareness Week. This will be an important opportunity to conduct a variety of activities to raise awareness among the citizens in your state. The Awareness Week has been supported by a number of national alcohol and traffic safety organizations, including ADPA. We are strongly committed to the concept that alcohol and drug professionals need to become more involved in advocating for and operating education programs and treatment services for the problem drinking driver. This packet of information is a first step toward helping your agency effectively participate in community activities on this Awareness Week.

Included within are the following materials:

- Press Release on ADPA involvement
- Senate Resolution and Presidential Proclamation
- Sample Press Release

Additional materials, including an idea list, a resource guide on public information materials and programmatic information will be sent to you next week. Let us know how else we can assist you.

FOR IMMEDIATE RELEASE

ADPA Endorses National Drunk and Drugged Driving Awareness Week

Kay Hardin, President, Alcohol and Drug Problems Association, announced today that ADPA has endorsed and will participate in the National Drunk and Drugged Driving Awareness Week scheduled for December 12-18, 1982. Passed as a Joint Congressional Resolution, the Awareness Week was formally established by a Presidential Proclamation.

Hardin called upon alcohol and drug treatment and prevention programs to take an active role in informing citizens on the serious nature of the problem resulting from drinking and/or taking drugs and driving. She stated: "In the past decade, a quarter of a million Americans have lost their lives in alcohol related crashes. In addition, drunk driving costs society between five and six billion dollars each year. It is time that the public becomes aware of the dangers, and acts together to lower these numbers and stop this slaughter."

ADPA will be working in cooperation with numerous national organizations to coordinate a variety of special activities during the Awareness Week.

Drunk Driving is said to be responsible for more than 25,000 highway deaths annually. Approximately, 55% of fatal crashes involve a driver who has been drinking and/or using drugs. Each day, an average of 360 teenagers are injured in alcohol-related crashes. Various citizens groups have expressed outrage over this serious national problem. ADPA encourages professionals in the field to work closely with concerned citizens to raise awareness about drinking and drugged driving.

#####

SAMPLE PRESS RELEASE

_____ has announced that their agency will be participating in activities taking place during National Drunk and Drugged Driving Awareness Week. The Awareness Week was called for in a Joint Congressional Resolution and formally established by a Presidential Proclamation for the week of December 12-18, 1982. _____ is joining hundreds of other agencies and citizens groups in the national effort to get drunk and drugged drivers off the road and where appropriate, help for their problem.

Drunk and drugged driving continues to be one of the nation's most serious health and safety problems. Each year more than 25,000 people lose their lives and many more are injured due to accidents related to drinking and drug usage while driving. A conservative estimate of the total economic cost of drunk and drugged driving is put at over \$5 billion a year.

Effective education and treatment programs have been developed for people who are arrested for driving while intoxicated. Educating the problem drinker, the alcoholic and the drug abuser who is arrested for driving while intoxicated to understand the consequences of their actions, is an important component of a comprehensive approach to drunk driving. Treatment of the alcoholic and drug addict is essential to keeping them from continued risk on the road.

The National Drunk and Drugged Driving Awareness Week is endorsed by the Alcohol and Drug Problems Association (ADPA) and other national organizations concerned about alcohol and drug traffic safety. ADPA applauds the efforts of _____ as an example of involvement in a community problem.

#####

Ninety-seventh Congress of the United States of America

AT THE SECOND SESSION

Begun and held at the City of Washington on Monday, the twenty-fifth day of January, one thousand nine hundred and eighty-two

Joint Resolution

To provide for the designation of the week of December 12, 1982, through December 18, 1982, as "National Drunk and Drugged Driving Awareness Week".

Whereas traffic accidents cause more violent deaths in the United States than any other cause, over fifty thousand in 1980;

Whereas traffic accidents also play a substantial role in serious injuries in this country;

Whereas between 40 and 55 per centum of drivers who are fatally injured have alcohol concentrations in their blood above the legal limit and this figure rises to 55 to 65 per centum in single vehicle crashes;

Whereas the total societal cost of drunk driving has been estimated anywhere from \$5,000,000,000 to \$25,000,000,000 a year, which does not include the human suffering that can never be measured;

Whereas there are increasing reports of driving after drug use and accidents involving drivers who have used marihuana or other illegal drugs;

Whereas more research is needed on the effects of drugs on driving ability and their impact on the incidence of traffic accidents, either alone or in combination with alcohol;

Whereas an increased public awareness of the gravity of the problem of drugged driving may warn drug users to refrain from driving and may stimulate interest in increased research on the effects of drugs on driving ability and the incidence of traffic accidents;

Whereas the public, particularly through the work of citizens groups such as Mothers Against Drunk Driving (MADD) and Remove Intoxicated Drivers (RID), is demanding a solution to the problem of drunk driving;

Whereas the President has appointed a Commission on Drunk Driving to heighten public awareness and stimulate the pursuit of solutions;

Whereas many States have appointed task forces to examine the existing drunk driving program and make recommendations for a renewed, comprehensive approach;

Whereas an increase in the national awareness of the problem of drunk and drugged driving may help to sustain current efforts to develop comprehensive solutions at the State and local levels; and

Whereas the Christmas and New Year's holiday period, with more drivers on the roads and an increased number of social functions, is a particularly appropriate time to focus national attention on this critical problem: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week of December 12, 1982, through December 18, 1982, is designated as "National Drunk and Drugged Driving Awareness Week", and the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe that week with appropriate activities.

NATIONAL DRUNK AND DRUGGED DRIVING AWARENESS WEEK

By the President of the United States of America

A Proclamation

The most serious problem on our nation's highways is drunk driving. Drunk drivers kill and injure more people on the roads than any other cause. The cost of this slaughter is staggering, as much as \$25 billion each year. There is also a generally unrecognized menace in a category akin to the drunk driver: the drugged driver. While the statistics are not as obtainable and more research must be done, the problem of the drugged driver is growing and the American people must be made aware of it.

The drunk driving problem has stirred outrage among citizen groups which have succeeded in arousing national interest in the problem. In response to the rising concern, many States have set up task forces to examine their drunk driving laws. To encourage their efforts, I established the Presidential Commission on Drunk Driving last April.

The problem of the drugged driver has not yet attracted this attention. But as with alcohol, the problem is crucial, chronic, and warrants much more support for current State efforts to develop solutions.

There is a particular need to focus national attention during the Christmas holiday season on these critical problems at their most critical time.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, in accordance with Senate Joint Resolution 241 (Public Law 97-343), do hereby proclaim the week of December 12, 1982, through December 18, 1982, as National Drunk and Drugged Driving Awareness Week. I call upon the people of the United States to observe this week with appropriate activities in their homes, offices, schools and communities. I request all Americans to mind the dangers that such an observance alerts us to. I ask all of us to use this observance to prevent sadness and tragedy from intruding on our joyful holiday season.

IN WITNESS WHEREOF, I have hereunto set my hand this 15th day of October in the year of our Lord nineteen hundred and eighty-two, and the Independence of the United States of America the two hundred and seventh.

RONALD REAGAN

RE: DRUNK AND DRUGGED DRIVING AWARENESS WEEK MATERIALS

DATE: NOVEMBER 9, 1982

Enclosed are additional materials regarding the National Awareness Week on Drunk and Drugged Driving, that we feel will be useful. Please share this information with others where you think it would be appropriate. Included in this packet is:

- Summary of recent Federal legislation
- List of suggested projects/ideas
- Information of National Safety Council Public Awareness materials
- "Putting the Brakes on Drunk Driving," by Dr. Robert L. Marshall (Dr. Marshall made a similar presentation at the ADPA Annual Meeting in August.)
- "Know Your Limits" card

Let us know if you need additional assistance. We are all looking forward to safe holiday season.

p.s. ADPA will be testifying at the public hearing of the President's Commission on Drunk Driving on November 29. ADPA is the only alcohol/drug constituency group invited to testify at this important hearing. We will send you a copy of the testimony when it is ready.

p.p.s. Also included are three fact sheets that should be useful. One was prepared by ADPA, the other two were supplied by the Department of Transportation.

SUMMARY OF ALCOHOL TRAFFIC SAFETY LEGISLATION, RECENTLY ENACTED HR. 6170

President Reagan signed into law HR. 6170, on October 25, 1982. This legislation establishes an incentive grant program, using One Hundred Twenty-five Million (\$125,000,000) Dollars from the Highway Trust Fund over a three year period, to encourage state and local action to combat drunk driving.

A state would be eligible to receive a basic grant by satisfying the four basic criteria outlined in the legislation:

- * Any person driving with a .10% or above blood-alcohol concentration shall be deemed to be driving while intoxicated;
- * The prompt suspension or revocation (administrative or judicial), for no less than 90 days for a first offender and no less than one year for a repeat offender, of the driver's license of someone who, by a chemical test, is deemed to be driving while intoxicated, or a suspected drunk driver who refuses to submit to a chemical test;
- * For a mandatory sentence, which may not be suspended or probated, of 48 consecutive hours jail or no less than 10 days community service, of any persons convicted of drunk driving more than once in any five year period;
- * For increased enforcement of state's drunk driving laws supported by increased efforts to inform the public of such enforcement.

The Secretary of Transportation will establish additional criteria for effective drunk driver control programs. States would be eligible for additional grants by satisfying additional criteria to be established by the Secretary through rule-making. The legislation outlines several supplemental criteria to be considered by the Secretary during rule-making:

- * For establishing and maintaining a statewide driver record system to track repeat offenders that is easily accessible to the courts and public;
- * For the setting of a minimum drinking age in the state at 21 years of age;
- * For the creation and operation of rehabilitation and treatment programs for persons convicted of drunk driving;
- * For the impoundment of any vehicle operated by a person whose driver's license is suspended or revoked for a drunk driving offense;
- * For the grant of pre-sentence screening authority to the courts;
- * For establishing in each major political subdivision of a state a locally coordinated drunk driver control program which are administered by local officials and financially self-sufficient;
- * For consideration of and, where consistent with other provisions of state law and constitution, the adoption of recommendations of the Presidential Commission on Drunk Driving.

Title 2 provides funding for upgrading the National Driver Register from the presently ineffective manual operation to a computerized system which will enhance state motor vehicle administration officials ability to better identify license applicants with bad driving records in other states.

For additional information on the grant program, contact your state Department of Transportation.

**SUGGESTED PROJECTS/IDEAS FOR NATIONAL
DRUNK AND DRUGGED DRIVING AWARENESS WEEK**

A number of activities and programs can be incorporated into an effective week of educational programs. Be sure to work with all the community resources available, including state alcoholism authority, media, schools, law enforcement agencies, councils on alcoholism, parents groups, local civic organizations and businesses and the concerned alcohol beverage industry groups. The drunk and drugged driving issue is currently receiving a great deal of attention, so generating support should not be too difficult. Some suggested ideas/projects are:

- 0 Sponsor a press conference featuring political figures, local celebrities and/or "experts" on drunk driving in your area. They can kick-off the week and announce their concern about the drunk and drugged problem.
- 0 Arrange for speakers to appear on local radio and tv interview shows.
- 0 Encourage the local radio and tv stations to utilize Public Service Announcements, that have been developed by the National Council on Alcoholism and the National Institute on Alcohol Abuse and Alcoholism. For additional information contact:

Daphne Pryor
National Council on Alcoholism
733 Third Avenue
New York, NY 10017
(212) 986-4433

Judy Funkhauser
National Institute on Alcohol Abuse and Alcoholism
Parklawn Building
5700 Fishers Lane
Rockville, MD 20857
(301) 443-3860

- 0 Distribute brochures and posters to shopping areas, schools, hospitals, businesses, etc. The National Safety Council has some good materials on driving and drinking. (See Attachment) Also contact:

The National Clearinghouse on Alcohol Information
1776 East Jefferson Blvd.
Rockville, MD 20857
(301) 268-4600

- 0 GEICO Insurance in Washington, D. C. sponsors a program for its employees, called "Project Lift," that reimburses them for taxicabs when they have had too much to drink. Comprehensive Care Corporation sponsors a project called "Care-Cab" that provides free cab service for people from bars to their homes. Information

on these programs is attached. There may be similar programs in your state and community.

- 0 The Distilled Spirits Council of the U. S. endorses the "Know Your Limits" program and has special cards describing BAC levels. (Sample Attached.) Contact DISCUS directly to determine quantity availability.

Robert Kirk
DISCUS
425 13th Street
Washington, D. C. 20004
(202) 628-3544

- 0 The several states have released a pamphlet that lists the penalties for conviction of DWI. Local printers may be able to assist in cutting printing costs.
- 0 The PIMA Alcoholism Consortium in Tuscon, AZ is planning a variety of events and activities, in co-sponsorship with the local ABC affiliate and a local rock station. You may want to use some of these ideas in your own area. Their activities include:
 - o 21 billboards are being located throughout Tuscon in December;
 - o tips on being a good host and hostess are being televised in a series of short media spots;
 - o a holiday hotline is being set up to answer questions concerning where to go for help and to provide crisis counseling. (The Washington Area Council on Alcoholism and Drug Abuse in Washington, D. C., also conducts this type of activity, with excellent results.) Many other communities operate similar programs.

For additional information, contact:

Janet Loeb
PIMA Alcohol Consortium
United Bank Plaza
120 West Broadway
Tucson, AZ 85701
(602) 623-8664

Mary Kidd
WACADA
1221 Massachusetts Avenue, N. W.
Washington, D. C. 20005
(202) 783-1300

- 0 Work with local law enforcement officials to sponsor breathalyzer demonstrations. This can also be done in local bars and lounges. This can serve as an excellent media event.
- 0 The Wayland, a Massachusetts High School, initiated a program called "Students Against Drunk Driving" that works with high school students on alcohol education issues. This program has received wide publicity and is endorsed by the Secretary for Health and Human Services. For additional information, contact:

Robert Anastas
Students Against Drunk Driving
60 Diana Drive
Marlborough, MA 01752

ELIGIBILITY FOR MEMBERSHIP

Traffic Safety Membership is provided for those individuals whose prime responsibility is highway safety related. Individuals from organizations holding another appropriate National Safety Council membership may also enroll for these additional services.

THE HIGHWAY TRAFFIC SAFETY DIVISION

The Division is composed of volunteers who have responsibility for program development, supervision, and coordination of highway safety activities at all levels of government and the private sector. It has representation from all disciplines in highway safety. The Division recommends programs and policies for the National Safety Council. It has representation on the Council's Board of Directors and Executive Committee of the Council. The Division meets annually at the National Safety Congress and Exposition. The Division's Executive Committee acts for the Division between annual meetings and all actions of the Executive Committee and standing committees are subject to Division ratification.

TRAFFIC SAFETY MEMBERSHIP SERVICES

TRAFFIC SAFETY MAGAZINE. The only national magazine dealing exclusively with safety on the nation's streets and highways. The editorial content covers traffic safety methods; state and community programs; driver education; new developments in traffic accident prevention. Published bi-monthly.

ACCIDENT FACTS. This publication contains accident statistics of all types. Facts and figures are presented in graphs, charts, and tables. Data representing traffic, school, farm,

home, occupational and recreational safety are included. Published annually.

PERIODIC UP-DATE. A news bulletin discussing any current National Safety Council testimony and policy statements; reports on legislative developments; and other relevant issues.

MEMBERSHIP CARD AND CERTIFICATE. Official proof of your active voluntary participation in the movement to reduce highway and traffic accidents. The card fits conveniently into wallet . . . certificate suitable for framing.

MEMBERSHIP SERVICES AND PRIVILEGES

STATISTICS/RECORDS — statisticians are available to assist members in setting up viable accident record systems.

LIBRARY — the Council library is the largest of its kind in the world. A computer is utilized to retrieve information for staff responses to member requests for general and technical information.

WASHINGTON D.C. OFFICE — the Council maintains access to key officials at the White House, Congress, federal agencies and private sector organizations. This enables members to keep abreast of safety and health policies at the national level.

MEMBER/NON-MEMBER PRICES — members are allowed to purchase Council materials and services at lower prices than non-members.

USE OF OFFICIAL EMBLEM — members may display the Green Cross for Safety emblem with the wording "Member National Safety Council" on organizational letterhead in accordance with Corporate Policy. Write for information.

VOTING/PARTICIPATION — individual members shall be entitled to one vote upon payment of annual dues. Organizations shall be entitled to one vote for each twenty-five dollars of annual dues. Members are encouraged to participate in the Council's committees and Divisions.

Social Drinking—Fun and Fatal

Color film which vividly reveals the dangers posed by "social drinkers" when they decide to drive. 10 minutes.

Product Number 37910-0000

The Last Round

Hard-hitting color film helps supervisors recognize the problem of employee alcoholism, tells what must be done to aid the problem drinker. Approximately 10 minutes long.

Product Number 17161-0000

The Hangover

Color film showing how the lack of alertness from "a few too many" the night before can cause on-the-job accidents. Film reveals what happens to typical worker under alcohol-related circumstances. About 10 minutes long.

Product Number 17142-0000

Alcohol and the Impaired Driver

Special publication primarily for persons concerned with quantitative determination of blood-alcohol levels. Major subjects: alcohol and traffic safety, acute alcoholic intoxication, alcohol and the nervous system, new chemical tests, many others. Published by the National Safety Council with permission of AMA. 278 pages, well illustrated, soft cover.

Product Number 39924-0000

Alcohol and Traffic Accidents

General interest bulletin that discusses the correlation between alcohol and traffic accidents. Safety Education Data Sheet #19.

Product Number 42904-0019

Partners in Trouble

Reviews proven guidelines for a good occupational alcohol abuse program. Describes symptoms, hidden costs, where to get help. 12 pages, 8" x 3 3/4".

Product Number 19245-0000

The Choice Is Yours

Takes a close look at drinking-related accidents associated with social life, driving, working, recreation and the home. Special section on How to Help the Problem Drinker. Fully illustrated. 12 pages, 8" x 3 3/4".

Product Number 19244-0000

Don't Drink and Drive But...

Drinking and driving is the number one problem in highway safety. If you drink and drive you can help solve the problem by reading and following the advice in this booklet. 12 pages, 8" x 3 3/4".

Product Number 32925-0000

Alcohol Influence Report

For use by police officers in the arrest of a person suspected of driving under the influence. 2 pages, 8 1/2" x 11".

Product Number 32199-0000

How To Order

Address Orders and Inquiries To:

Manager
Traffic Safety Department
444 North Michigan Avenue
Chicago, IL 60611

Terms and Discounts:

ONLY NATIONAL SAFETY COUNCIL MEMBERS ARE ENTITLED TO MEMBER PRICES. All orders eligible for 2% discount if payment is made within 15 days of invoice date; net 30 days. Service charge of 1½% per month on all invoices unpaid after 30 days. Shipments F.O.B. Chicago. Allow 4 to 8 weeks for delivery. All international orders not shipped via AIR will be shipped at customer's risk; no replacements on lost orders not shipped via AIR. U.S. federal agencies: terms of current GSA contract apply. Nonmembers and government agencies must use purchase orders. **ORDERS UNDER \$25.00: ADD \$3.00 SERVICE, HANDLING AND SHIPPING CHARGE. FULL PAYMENT MUST ACCOMPANY ORDER.**

Product Numbers. Are shown with commodity. Please use them on your orders.

Quantity Prices. Quantity prices are based on an order of one item for one shipment to one destination. (For subscriptions: on a single shipment per month to one address.)

Quantity prices are shown in this way: 1-\$1.00; 2-\$.90; 10-\$.80; 100-\$.70, etc. These prices should be interpreted as follows: 1 copy of the item is priced at one dollar; 2 to 9 copies are ninety cents each, etc.

Minimum Orders. On some items the first quantity is a 2 or 10 minimum quantity that can be ordered. Example: 10-\$.10. This means the minimum order is 10 copies and that the price is ten cents for each of the copies.

Special Price Quotations. Special quotations will be made for certain items when the quantity to be ordered is substantially larger than the largest quantity priced in this catalog.

Availability of Materials/New Materials. Materials

shown in this catalog are available only as long as supplies last and may not be reprinted when the current supply is exhausted. Many new materials are produced by the Council every month, and thus may not be listed in this catalog. Subscribers to Safety Materials Services automatically receive literature and samples of new materials.

Foreign Shipment. To insure delivery, shipment via air is advisable. Costs will be as billed by the carrier. Also, the Council is unable to fulfill requests to pack for export, or furnish documents other than invoice (three copies) and packing list (one copy). On subscription items there is a postage surcharge which is available on request.

Special Delivery, Air Mail, etc. Air mail and special delivery shipment are F.O.B., Chicago, Illinois.

Returned Merchandise. Because of the nature of the materials sold, materials are not returnable except where such return is to correct an error or omission on the part of the Council.

Imprinted Materials. Allow at least four weeks for delivery of imprinted materials after receipt of order (unless a longer time is indicated in this catalog). Because of difficulty of exactly controlling quantity, acceptable delivery on imprinted materials may be plus-or-minus 5% of quantity ordered.

Use of Materials. Unless otherwise indicated, materials in this catalog are available both to members and nonmembers of the National Safety Council. (Certain awards, incentive materials, and other items bearing the Green Cross for Safety Emblem may be purchased by members and U.S. Government Agencies only. The descriptions of these items will so indicate this fact.) No National Safety Council materials may be used to convey the impression that the Council has approved any commercial product or service.

Use of Green Cross For Safety Emblem. The Green Cross is the registered trademark of the National Safety Council. Except for use in specified ways by members in their safety programs, its use is strictly forbidden. Write for "Statement of Policy on Use of National Safety Council Emblems."

Dear John:

Thank you for calling about information on the Alcohol and Drug Problems Association. Enclosed is a set of materials about the work of ADPA. I trust that it will fill you in on what we do.

Please let me know if you have any questions. I will give you a call when I return.

Sincerely,

Eric G. Scharf
Assistant Director
for Membership Services

Profile

alcohol and
drug problems
association of
north america

ADPA'S MISSION

The mission of the Alcohol and Drug Problems Association is to improve the conditions under which alcohol and drug abuse professionals and other concerned groups and individuals operate so that they may more effectively treat persons suffering from these illnesses, reduce the potential for these addictions and abuses, and lessen their adverse consequences to society.

In seeking to accomplish its mission, ADPA functions as a membership association consisting of alcohol and drug abuse professionals and others active in every conceivable sector of the field. ADPA is proud of its unique status as the only national association concerned with both alcohol and drug abuse and with the general well-being of the field as a whole, rather than with any one of the many important special interests and disciplines within it. One of ADPA's chief functions is to serve as a major force for field unity of purpose and action.

Within the context of its mission, ADPA mainly focuses on issues, developments and problems which are national in scope and which either offer opportunities or pose threats to the field as a whole or to major professional constituencies within it. At a minimum, such issues have historically included federal legislation and other initiatives; public policy questions; and program accreditation and professional certification, especially as they relate to securing third party reimbursement. ADPA functions as an observer and reporter of such issues, and as a strategist and implementor of actions of behalf of its membership and the field. ADPA is prepared at all times to coordinate its activities with those of other field organizations and constituencies to achieve success with respect to mutually agreed-upon objectives.

ADPA'S ORGANIZATIONAL STRUCTURE

ADPA's organizational structure is designed to maximize member participation in the activities of the association and to provide for the delivery of services to its members in a logical, effective manner. The association's Board of Directors consists of 15 members, six of whom are elected by the full membership and nine of whom are elected by the major constituencies (councils) making up the association. Up to seven members of the board may be newly elected in any given year, thus insuring that the association is democratically controlled by its members.

(over)

The membership of the association is composed of three distinct constituencies or councils as described below. Each council, at any given time, has three representatives on the Board of Directors. This is intended to insure that the specialized needs and interests of the distinct constituencies receive thorough consideration at the highest policy-making level.

ADPA's Council of State Authorities includes as members all State Alcohol Authorities and State Drug Abuse Directors in the 50 states, the District of Columbia and the territories. This is ADPA's "oldest" council, given that the association was formed in 1949 with a membership originally composed of those state officials who later came to be known as State Alcohol Authorities. In the more than 30 years since its founding, the association has substantially broadened its area of concern to, among other things, also focus attention on other drug abuse. The Council of State Authorities represents the concerns of alcohol/drug professionals in state government.

The Agency Council consists of member programs and agencies which are engaged in alcohol and/or drug abuse work. Although the majority of its members are treatment programs, other member agencies are active in prevention, research, publication work, education and training, state associations, employee assistance programs, federal agencies and numerous other specialized interests within the field. The Agency Council has its own board, the 10-member Board of Managers, which establishes council policy subject to approval by the ADPA board.

The members of the Council of Individuals are professionals and others concerned with specialized aspects of alcohol and/or drug abuse. The council includes a great diversity of interests and disciplines, and frequently serves to focus the association's attention on issues which might not be stressed by other major constituencies. The needs and interests of the council are represented by its 10-member board of directors and by its 3-member delegation to ADPA's full board.

ADPA'S SERVICES

Most of ADPA's resources are focused on promoting positions favorable to the field. These typically include the creation of new professional opportunities; increased funding for treatment, prevention, research and other field priorities; and increased possibilities for third party reimbursement. To secure these goals, ADPA serves as a field advocate with Congressional Committees and with the administration, especially NIAAA and NIDA. ADPA also works closely with JCAH and with private carriers in promoting field positions and countering threats to alcohol and drug abuse program funding.

Each year ADPA conducts its annual meeting, the major alcohol/drug abuse training event of the year. The 33rd Annual Meeting will be held August 29-September 1, 1982, in Washington, DC. Regional conferences are also held.

Other regular services include the "ADPA Professional", a bi-monthly newsletter, the monthly Job Clearinghouse Bulletin, several directories, the Journal of Alcohol and Drug Education, summer schools listings, surveys, reduced subscription rates, information and referral services and more.

Alcohol and Drug Problems Association of North America, Inc.

APPLICATION FOR MEMBERSHIP

Name: _____

Organization: _____

Address: _____

City/State/Zip: _____ Phone No.: _____

AFFILIATION

Council of Agencies Dues for calendar 1982 are determined by size of agency budget that is directly expended on alcohol and drug abuse services. Members of this council are entitled to all services offered by the association. Each agency member designates one representative to the Council of Agencies. Our representative (including title) is: _____

Estimated Budget and Dues for 1982

___ Less than \$100,000	\$200	___ \$1,000,000 - \$2,499,000	\$500
___ \$100,000 - \$249,999	\$300	___ \$2,500,000 or more	\$600
___ \$250,000 - \$999,999	\$400		

Council of Individuals

___ Regular Membership Persons presently working in the alcohol/drug abuse field or in a related field. Annual dues are \$45 if your income is \$12,000 or more per year and \$25 if your annual income is less than \$12,000.

___ Retired, Unemployed or Disabled Membership Persons retired from paid employment in the alcohol/drug abuse field or a related field; and such persons as are temporarily unemployed or on disability status. Annual dues are \$25 if your income is \$12,000 or more per year and \$15.00 if your annual income is under \$12,000.

___ Student Membership Persons currently attending a college or similar educational institution who have an active interest in alcohol, drug or related problems. Annual dues are \$25. Proof of student status required.

___ Associate Membership Persons whose primary commitment is outside the alcohol/drug abuse field but who have an active interest in promoting sound alcohol/drug abuse services. Annual dues are \$15.

___ National Alliance of Chairpersons of State Advisory Councils on Alcohol and Drug Abuse Membership is limited to current and former chairpersons of state advisory councils. Dues are the same as those for individual members, plus a \$10 surcharge earmarked for National Alliance use.

AFFILIATION WITH SPECIAL INTEREST SECTIONS ADPA has Special Interest Sections to provide members with common interests a vehical through which to work together and to assist one another. The payment of annual dues entitles a member to affiliate with one section. Members may participate in the activities of additional section upon payment of \$5 per year for each. Include such payments with your dues and indicate below your choice/choices of sections.

PROFESSIONAL EDUCATIONAL AND TRAINING
OPPORTUNITIES DIRECTORY

1982 EDITION

ADPA is pleased to distribute to its members and to others in the field the 9th annual edition of the Professional Educational and Training Opportunities Directory. Previously entitled the Alcohol and Drug Abuse Summer Schools Directory, this edition has been expanded and reformatted. The contents are divided into the following sections:

1. Educational and training opportunities by date of occurrence.
2. Major meetings of national alcohol and drug abuse associations by date of occurrence.
3. Addendum of information received too late to be inserted by date.

Recognizing the ever increasing importance of educational and training opportunities for field professionals, ADPA has responded by expending this directory and by adding a major regional conference to its annual agenda of events. The 1982 regional conference will be held May 5-7 in Reno, Nevada. Watch for announcements of future conferences and meetings in field media.

ADPA wishes to express its gratitude to the various conference coordinators and others who provided information to us this year for the directory. A special thanks is due volunteers at Chit Chat Foundation, Wernersville, Pa., for help in preparing the directory.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and analysis processes, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that data is reliable and protected.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of a data-driven approach in decision-making and the need for continuous monitoring and improvement of data management practices.

ALCOHOL AND DRUG PROBLEMS ASSOCIATION

ACCOMPLISHMENTS FOR 1982

The major accomplishments of the Association for 1982 are presented below in terms of activities relating to professional development such as meetings and conferences; meetings of all types including newsletters and publications; special areas of focus and organizational and internal development relating to the structure and business of the Association. Additional details on each of these activities are available from the AADP office.

MEETINGS, CONFERENCES AND WORKSHOPS

REPORT ON

Major conferences in 1982 included the Association's 34th Annual Meeting held in Washington, D. C., and the Midwestern/Western Regional Conference held in Denver, Colorado. Specialized business meetings, and numerous other

ACCOMPLISHMENTS FOR 1982

by the

ALCOHOL AND DRUG PROBLEMS ASSOCIATION

held in Washington in late August, the Association's 1982 Annual Meeting drew 800 attendees. Highlights included a major policy address delivered by Honorable Services Secretary and the Association's Outstanding Awards for 1982 to W. J. Foster (Alcohol Abuse and Alcoholism) and S. J. (Alcohol). Over 100 separate presentations were given during the meeting.

ALCOHOL AND DRUG PROBLEMS ASSOCIATION

OF NORTH AMERICA, INC.

1101 15th Street, N. W.

Suite 204

Washington, D. C. 20005

KAY HARDIN, PRESIDENT

The Association completed its 34th regional conference since the early 1970's in late August, early in the year. Presentations were given for the primary address and the specialized program focusing on prevention, treatment and rehabilitation.

Two concurrent workshops on treatment, prevention, marketing and fundraising were held prior to the Association's annual meeting in Washington. Topics included Law Enforcement, Alcoholism, W. Thomas and Elliott Wolf.

ALCOHOL AND BUSINESS MEETINGS

Approximately 50 meetings of the AADP board, Council boards, sections and other constituency groups were held during the year in Washington, D. C. and other locations.

PLANNING FOR 1983 CONFERENCES

By early and planning was well under way for the Association's 34th Annual Meeting for the 1983 Eastern and Western Regional Conferences, and for the national theme conferences on treatment, financing and on alcohol and drug abuse.

ALCOHOL AND DRUG PROBLEMS ASSOCIATION

ACCOMPLISHMENTS FOR 1982

The major accomplishments of the Association for 1982 are presented below in terms of activities relating to professional development such as meetings and conferences; mailings of all types including newsletters and publications; special areas of focus; and organizational and internal developments relating to the structure and "business" of the Association. Additional details on each of these activities are available from the ADPA office.

A. MEETINGS, CONFERENCES AND WORKSHOPS

Major conferences in 1982 included the Association's 33rd Annual Meeting held in Washington, D. C., and the Midwestern/Western Regional Conference held in Reno, Nevada. Specialized workshops were also conducted, and numerous board and other business meetings held.

1. THE 33rd ANNUAL MEETING

Held in Washington in late August, the Association's 1982 Annual Meeting drew 600 attendees. Highlights included a major policy address delivered by Health and Human Services Secretary Richard Schweiker, and the awarding of the Association's Outstanding Services Awards for 1982 to Will Foster (Alcohol Abuse and Alcoholism) and Shirley Coletti (Drug Abuse). Over 100 separate presentations were given during the meeting.

2. MIDWESTERN/WESTERN REGIONAL CONFERENCE

The Association conducted its first regional conference since the early 1970's in Reno, Nevada early in May. Over 100 attendees were present for the plenary addresses and the specialized programming focusing on prevention, treatment and public policy.

3. WORKSHOPS

Four concurrent workshops on treatment modalities, marketing and fundraising were held just prior to the Association's annual meeting in Washington. Trainers included Lee Silverstein, Jackie Small, J. W. Thomas and Elliott Wolf.

4. BOARD AND BUSINESS MEETINGS

Approximately 20 meetings of the ADPA Board, Council Boards, sections and other constituency groups were held during the year in Washington, Reno and other locations.

5. PLANNING FOR 1983 CONFERENCES

By year's end, planning was well under way for the Association's 34th Annual Meeting, for the 1983 Eastern and Western Regional Conferences, and for the national theme conferences on treatment financing and on alcohol and drug abuse

programming in academic settings. The 1983 conference schedule is the most comprehensive ever offered by the Association.

B. PUBLICATIONS, SURVEYS AND OTHER MAILINGS

An average of more than one multi-recipient mailing went out each week during 1982 to various ADPA constituencies. Recipients included the full membership, the ADPA Board, Council Boards, Councils, sections, task forces and other specialized groups.

1. NEWSLETTERS AND GENERAL MAILINGS

During the course of the year, over 30 newsletters and other general mailings were sent to the membership or Council constituencies. This represents a slight increase over corresponding mailings for 1981. Numerous topics were covered including conferences, federal legislation, treatment financing issues, organizational developments and other issues.

2. JOB CLEARINGHOUSE BULLETIN

ADPA continued to distribute to the membership the monthly Job Clearinghouse Bulletin. A policy was implemented during the year whereby ads for positions available were accepted at no charge for state and agency members of the Association.

3. DIRECTORY OF PROFESSIONAL EDUCATIONAL AND TRAINING OPPORTUNITIES

Expanded from ADPA's annual summer schools listing distributed for many years, the Directory was increased to a twice-a-year service in 1982. It is distributed free of charge to Association members (one copy per member) and sold to others.

4. MEMBER SURVEYS

During the course of the year, the full membership and each of the three Councils were separately surveyed. Survey results were used in developing the 1983 Program of Work and also in gathering information and establishing policy with respect to treatment financing issues.

5. PLANNING FOR 1983 MAILINGS

With regard to most mailings, 1983 will represent a continuation of the policies and practises of 1982. Expected to be sent to the full membership are monthly newsletters and job bulletins, conference promotional materials, survey instruments and specialized mailings on federal legislation and other national issues of significance. The Directory of Professional Educational and Training Opportunities will be distributed twice in 1983.

Expansions of mailing services will include a new newsletter, the "ADPA Agency Council News," and increased mailings dealing with treatment financing issues, drunk and drugged drivers, prevention and special drug abuse topics.

C. SPECIAL AREAS OF FOCUS

The Association broadened its scope of activities in 1982 to include several areas of increasing importance to the field. These included drunken and drugged drivers, issues involving the Joint Commission on Accreditation of Hospitals (JCAH), other treatment financing issues and prevention. There was some decrease in efforts relating to federal legislation, a reflection of the general reduction of activity in this area. 1983 is expected to bring further increases in ADPA actions in these areas, with a new focus on certain issues relating to the abuse of licet and illicit drugs.

1. DRUNKEN AND DRUGGED DRIVING

Efforts in this area increased through the year, with major activities relating to the December Awareness Week and on providing input to the Presidential Commission on Drunk Driving. Formal testimony was submitted to the Commission in November. States were surveyed as regards laws and practises, and a report was produced.

2. JOINT COMMISSION ON ACCREDITATION OF HOSPITALS (JCAH)

Working through independent initiatives and also within a coalition consisting of ADPA and the National Association of Alcoholism Treatment Programs (NAATP), the Association was successful in convincing the Joint Commission to modify policies and intended policies relating to chemical dependency programs. These successes including getting the JCAH to postpone and reconsider a planned requirement that programs licensed as or physically located within hospitals be accredited on the basis of medical standards; and increased field review of proposed changes to standards affecting alcohol/drug treatment programs. Of major importance to the success of these efforts were letters from ADPA agency and other members to JCAH urging adoption of the position the Association supported.

3. FEDERAL BLOCK GRANT APPROPRIATIONS AND OTHER LEGISLATION

The Association worked hard during the year to maximize block grant funding for states; retain food stamp eligibility for clients in residential treatment programs; restore coverage for alcoholism services for federal employees; retain the maximum possible staff, funding and scope of effort for NIAAA and NIDA; and on other federal issues. Threats to block grant funding and food stamp eligibility were overcome, although coverage for alcoholism treatment services for federal employees was not restored.

4. TREATMENT FINANCING

In addition to efforts relating to the JCAH, the Association has also been active with the Blue Cross Association in seeking to retain, and where possible expand, coverage for alcohol and drug abuse treatment services. To coordinate these and related activities, the Association has established a task force focusing on treatment financing issues, has developed a position paper on the issue, and has commenced planning for a national conference in early 1983 focusing on the numerous and complex issues of treatment financing.

5. PREVENTION

The Association established a special interest section on prevention issues during the year, and was in the process of establishing its policy position on prevention at year's end. Prevention is expected to be a major area of expansion in 1983.

6. WORKING WOMEN'S EDUCATION PROJECT

Supported by a grant from the Licensed Beverage Information Council (LBIC), the Association commenced work on a project for working women designed to educate them as to the dangers of alcoholism and to promote the concept that alcoholism is an illness which is treatable. The initial phase of the project is expected to be completed early in 1983.

7. SPECIAL DRUG ABUSE ISSUES

The Association took steps in 1982 to become increasingly active in areas relating to the abuse of both licet and illicit drugs. Closer liaison was established with the parents' movement for drug-free youth. By year's end, the Association was in the process of establishing task forces on the abuse of licet drugs and on the confiscation of profits from illegal drug sales.

8. PLANNING FOR 1983

Increased activities are expected in each of the areas described above, with special emphasis on issues in the area of treatment financing.

D. ORGANIZATIONAL AND INTERNAL DEVELOPMENTS

The Association modified its organizational structure during the year by establishing a new constituency council consisting of state liaison/coordinators and by relocating its special interest sections under the Council of Individuals. These steps were taken to improve service delivery. The Association also increased its budget from the previous year and was therefore able to expand staff.

1. DESIGNATION OF STATE LIAISON/COORDINATORS

ADPA established the position of volunteer State Liaison/Coordinator, and named 40 members to these positions during 1982. Governing and procedural documents were being developed as the year ended. The group as a whole will form the State Advisory Council, which is expected to be formally established in the Spring of 1983.

2. STAFF INCREASE

As a result of increased revenue, the Association was able to hire a new staff member in mid-year, bring the staff up to three-full time positions. The Association also benefitted from the services of a part-time intern for most of the year, and improved its utilization of volunteers.

3. SECTION COUNCIL RELOCATED

In order to increase services to its 15 special interest sections, the Association relocated its Section Council (leaders of the sections) within the Council of Individuals.

4. MEMBERSHIP RECRUITMENT

Because of the effects of inflation and because dues had not increased since the early 1970's, the Association raised dues for agency members effective 1982. Approximately one-third of the agency members failed to renew at the new rates which averaged at a 75% increase. The Association has interpreted the net 40% difference between agencies discontinuing affiliation (35%) and the increase in revenue (75%) as a very positive indication that ADPA is viewed as being highly cost-effective by its agency constituency.

5. PLANNING FOR 1983

The Association's Program of Work for 1983 anticipates that by year's end the State Advisory Council will be operational and that state chapters will have been established in at least one-third of the states. Staff is also expected to be increased again by mid-year with the hiring of a conference coordinator.

ADPA PROFESSIONAL

NOVEMBER, 1982

WASHINGTON, D.C.

ADPA REPRIORITIZES ACTIVITIES FOR 1983

A reprioritization of the Association's activities for 1983 has resulted from recent Board decisions. Among areas to receive increased emphasis are the financing of treatment services and the enhancement of professional skills among field workers. Additional resources will also be committed to the solicitation of member input and the utilization of services volunteered by members.

Most dramatically reflecting the changes in focus is ADPA's conference schedule for 1983. Five major conferences have been scheduled in four locations. Negotiations were recently completed at the various conference sites, and the 1983 schedule will include

- National Conference on Financing Alcoholism and Drug Abuse Treatment Services in Chicago February 27 - March 1.
- National Conference on Alcohol and Drug Abuse Programming in Colleges and Universities in Chicago March 1 - 3.
- 1983 Eastern Regional Conference in Hartford, CT April 17 - 20.
- ADPA's 34th Annual Meeting in Washington, DC August 28 - September 1.
- 1983 Western Regional Conference in Los Angeles November 13 - 16.

As they become available, conference information and pre-registration forms will be sent to ADPA members.

The formulation of new policy statements and the review and revision of existing statements will receive high priority in the 1983 Scope of Work. Already in process are statements on drunken and drugged driving, prevention and treatment financing. Advisory groups are being formed to help in these efforts. Other policy statements expected to be developed next year include ones on the abuse of licit drugs and on the confiscation of proceeds from sales of illicit drugs. Other issues are being considered. ADPA members are encouraged to volunteer to serve on review groups and/or to suggest additional policy issues deserving of attention.

Another area slated for increased activity concerns the development of improved procedures for soliciting and making use of member input. Already in process are surveys of the Association's Council of State Authorities and Agency Council to identify the specific issues these constituencies feel ADPA should focus efforts on in 1983. The findings of these surveys, and of the

recently concluded poll of individual ADPA members, will contribute significantly to the final program of work for next year.

Efforts will be increased to utilize the services of member volunteers. This has already commenced through a major initiative launched by ADPA's Vice President, Larry Monson, Wisconsin State Alcohol/Drug Abuse Director. Key to the effort is the designation of Association members as volunteer state liaisons. Such members, already named in 37 states, would provide input to the Association regarding important policy issues and developments as they see them from the vantage of their home states, while representing and promoting the Association among their colleagues. Policies and procedures are being developed to guide the activities of the new group and of their constituent body, the State Advisory Council. Other meaningful opportunities for volunteer service are also under consideration, and member comments are welcome.

Major objectives and activities for 1983 for the Association and for its various constituent bodies are to be developed by the end of December. They will be reported to the membership following final review and approval by the ADPA Board at its January meeting.

* * * * *

● 1982 ANNUAL MEETING

An analysis of evaluation forms and a follow-up phone survey of attendees indicates that the Association's 1982 Annual Meeting was a success. Fully 600 conference-goers heard HHS Secretary Richard Schweiker's plenary address, and the youth initiatives on alcohol abuse announced by the Secretary received coverage in major newspapers and TV news programs across the country.

Many attendees commented on the outstanding work of the conference planning team, particularly Board Member Jan Durand who chaired the Program Committee, staff coordinator Eric Scharf, and ADPA intern Ellen Berlin, who was responsible for media relations. Hotel services and staff, on the whole, were judged acceptable or better. This is one of the chief reasons why the Association will be returning to the same site for its 1983 Annual Meeting.

The collaborative agreements negotiated with NIDA and NIAAA to allow the Institutes to utilize portions of the program for specialized presentations worked out very well. ADPA intends to repeat these arrangements in 1983 in agreements can again be reached on details.

While proceedings will not be produced for the 1982 meeting, tape recordings are available for many of the sessions. The mailing which included this issue of the "ADPA Professional" also included a form to be used in ordering tapes. Additional order forms are available on request.

* * * * *

● NATIONAL DEVELOPMENTS

Developments at the national level continue to plague many sectors of the field

while presenting opportunities for others. Representing as it does the broadest possible spectrum of field constituencies, ADPA seeks to monitor and report on the largest possible number of national developments which could be of significance to any substantial sector of the field.

As they have since the early 1970's, federal activities continue to play a key role in shaping options for programs. Neither public nor private programs are immune. Publicly funded agencies continue to suffer the effects of major cuts in federal expenditures (coupled with state budgetary reductions in most states), with alternate funding sources being explored by many. Private programs remain concerned with actual or potential federal actions which may alter the conditions under which many of them receive third party reimbursements.

With the November 2nd election attracting the attention of the Congress, work on Capitol Hill has essentially halted pending the return on Congress in lame duck session. Awaiting their return are various authorizing and appropriations bills of interest to field constituencies. With lame duck sessions of Congress often noteworthy for inactivity, chances are stronger than usual that many issues of concern to the field will not be dealt with until after the new Congress convenes.

One current national issue receiving a lot of attention is drunk driving, with its numerous ramifications and possibilities for field constituencies. ADPA has already increased its level of activity in this area, with one result being that the Association has been invited to testify before the Presidential Commission on Drunk Driving on November 29th. ADPA has also been invited to participate in the group planning the HHS Secretary's Initiative on youth and alcohol abuse, which will include a national conference to be held in Washington in March, 1983. In these and in other activities done in conjunction with the federal government, ADPA will continue to stress the concept that involving the professional alcohol/drug abuse community is critical for long-term success in various federal endeavors.

As regards related activities, the Association is presently drafting a detailed policy statement on drunk and drugged driving; is engaged in identifying model alcohol and/or drug abuse programs securing substantial levels of funds from drunk/drugged driving sources for treatment, prevention, education and/or other field-related activities (relevant information is requested); and in preparing a study of various drunk driving laws and programs among the states. As they are completed, the results of these efforts will be made available to the membership.

Another significant national issue concerns the continuing deliberations of the Joint Commission on Accreditation of Hospitals (JCAH) regarding potential changes in accreditation standards for alcohol and drug treatment facilities. At stake from the perspective of field interests are third party reimbursement dollars and practises and procedures up to now acceptable to the Joint Commission during its surveys. This is because JCAH apparently fully intends to require that facilities licensed as, or located within, hospitals be surveyed under standards in the Accreditation Manual for Hospitals, which essentially mandates a "medical model" approach -- while continuing to apply the Consolidated Standards to other programs, but revising them to eliminate treatment plans, the multidisciplinary approach and many other practises used successfully for many years in large numbers of programs.

A campaign mounted several months ago by ADPA, NAATP and other field groups appears to have slowed down the momentum of the planned changes. At a September meeting with JCAH attended by Harry Swift, ADPA Board Member and Administrator of the Hazelden Foundation, Michael Q. Ford, Executive Director of the NAATP, and R. Zach Thomas, Board Member of the Charlotte Treatment Center and former JCAH Board Member, Joint Commission representatives agreed to delay final decisions on standards and survey practises for at least a month and possibly until March, 1983. At a subsequent meeting in late October of the Professional Technical Advisory Committee, an advisory group to JCAH, Swift and others obtained a favorable Committee vote to recommend to the Joint Commission that all alcohol and drug treatment facilities opting to do so be allowed to continue being surveyed under the Consolidated Standards. (Further detailed mailings are planned on this very important issue.)

William "Bud" Mayer, M.D., while retaining his position as ADAMHA Director, has assumed the duties of Acting Director of NIAAA pending the appointment of a permanent director. (The previous NIAAA Director, John DeLuca, left the Institute almost a year ago.) Mayer, highly visible and accessible to field constituencies, appears to enjoy substantial field support. The Association has urged him and HHS Secretary Schweiker to move with all deliberate speed to appoint a permanent Institute director.

Although the Reagan administration seems genuinely committed to substantially increased federal funding for research conducted or sponsored by both NIAAA and NIDA, virtually all other elements of the Institute's budgets have either been eliminated or sharply reduced. As a result, studies, developmental efforts, demonstration projects, data gathering and reporting projects and similar endeavors which many felt were best done once, with adequate funding, by the federal government, are mostly lost to the field for the present.

Both NIAAA and NIDA have recently been reorganized, and the shuffling of federal employees among agencies due to RIF transfer procedures has resulted in a fairly large number of the current staff having relatively little experience with alcohol and drug abuse issues. The invariable reduction in the level of effort is missed by those who supported a federal effort commensurate to at least a minimum extent with the scope of alcohol and drug problems.

The White House Drug Abuse Policy Office, headed by Carleton E. Turner, Ph. D., recently issued a strategy paper, "Federal Strategy for Prevention of Drug Abuse and Drug Trafficking". An extraction of data from tables on Pages 74 and 75 graphically illustrates the shift in focus at the federal level:

(Budget Outlays in Millions, Rounded, by Federal Fiscal Year)

	'79	'80	'81	'82	'83
Totals, Law Enforcement	\$468	\$537	\$643	\$673	\$695
Totals, Treatment and Prevention	\$405	\$459	\$403	\$286	\$206

The letter accompanying the report revealed another factor of concern to field constituencies. In the cover letter, the administration called for "a positive approach which involves as many elements of this society as possible -- state and local officials, volunteer groups, parents, teachers, students, independent agencies and law enforcement officers." ADPA's response to Turner

notes the lack of mention of a term such as "drug abuse treatment and prevention professionals" among the list of elements of society. This is another instance of a seeming lack of awareness that a large, dedicated body of experienced professional alcohol and drug abuse workers is in place, and is prepared to take part in any federally sponsored action which appears worthwhile and in which they are invited to participate.

● RECENT BOARD ACTIONS

At meetings held during the Annual Meeting and in subsequent actions, the Association's Board of Directors established, revised or refined policy such that a significant shifting of staff and fiscal resources will be occurring. Details are provided beginning on Page 1.

Three new Board Members representing the three constituent councils of the Association were installed on the Board during the Annual Meeting. Representing ADPA's Council of State Authorities (which is identical to the National Association of State Alcohol and Drug Abuse Directors, NASADAD, an independent field association) is Judy Brady, State A/D Director for Utah. William Hartigan, President of Bay Colony Health Systems, Inc., of Boston, was named the new representative to the Board from the Agency Council. Joining the Board as the new representative of the Council of Individuals is Ruth Eng, Ph. D., of the University of Indiana (Bloomington). Council representatives serve three year terms of office.

Kay Hardin, ADPA President, and Larry Monson, Association Vice President, were reconfirmed in their respective offices until the 1983 Annual Meeting. (Terms of office of Board Members begin and end at the conclusion of the Board meeting held each year just prior to the Annual Meeting.) Board incumbent Richard Esterly, Executive Director of the Chit Chat Foundation, Wernersville, PA, was elected Association Treasurer, while Board newcomer William Hartigan was elected Secretary. Joining with the four corporate officers to form the Association's Executive Committee are Board Members Margaret Clay, field consultant from MI; Gary F. Jensen, Immediate Past President, with Advanced Health Systems, CA; John North, Executive Director of the Cumberland Heights Treatment Center, TN; and Tom Stanitis, Oklahoma State Alcohol/Drug Director.

The next Board Meeting will be held in Washington, DC, on January 13, with major agenda items to include the finalization of the 1983 Program of Work and budget, and the consideration and possible approval of several policy statements.

● OTHER ADPA NEWS

Evolving a number of times during its 33-year history to reflect changing needs of the field, ADPA's present organizational structure consists of three constituent councils; a Section Council consisting of 14 special interest sections to provide field specialists with a vehical for dealing with colleagues sharing their specialties; and various committees and task forces. A new advisory council is in the process of being formed.

ADPA's 37 state liaisons thus far designated are currently reviewing drafts of the documents which will guide their work on behalf of the Association. (See Page 2 for additional details.) Chief among these documents will be policy and procedures manuals for individual state liaisons and for their constituent body, the State Advisory Council. Necessary steps in the development of this new ADPA constituency are scheduled such that its officers are expected to be elected by March.

In response to requests from a number of members, the Association has established a special interest section for members concerned with prevention issues. Section members are currently busy with organizational work and with assisting in the development of a prevention policy statement for the Association.

Don McConnell, Chair of ADPA's Council of State Authorities (which also exists as a independent field association, NASADAD, in which McConnell serves as President), was a featured speaker at the recent Annual Meeting, and will co-host the Association's Eastern Regional Conference to be held in Hartford next April.

NASADAD is in the process of selecting a new director to replace Carl Akins, who resigned from the position September 30th. Akins, a highly respected member of the alcohol/drug abuse association community in Washington, has been replaced on a part-time, interim basis by former staffer Robert Stites. The new director is expected to be named by November 19th.

The Association recently learned with deep regret of the death of Ray Washington, former State Alcohol/Drug Abuse Director for West Virginia, and an ADPA Board Member in the late 1970's.

The Council of State Authorities' (NASADAD's) new Board of Directors was installed at its annual meeting in DesMoines, IA, last June. The council's representation to the ADPA Board includes State Alcohol/Drug Abuse Directors Larry Monson, WI; Tom Stanitis, OK; and Judy Brady, UT.

The Board of Managers of ADPA's Agency Council met during the Annual Meeting to deal with various items of council business. Newly elected or appointed to the Board of Managers were Ann Crowley, Vice President of Flint Associates, RI; William Hartigan, President, Bay Colony Health Systems, Inc., Ma; David Jameson, Executive Director of the Lexington-Richmond Alcohol/Drug Council, SC; Rev. Dick Virtue, Director of the Norman Alcoholism Information Center, OK; and Anne Webster, Executive Director of the Massachusetts Alcoholism Services Association. They joined Board incumbents Rebecca Brownlee (NC), Cynthia Lang (NM), Orville McElfresh (IL), John North (TN) and Harry Swift (MN). Chaired by Orville McElfresh, Vice President at the Lutheran Center for Substance Abuse, Park Ridge, IL, the council is represented on the ADPA Board by members North, Swift and Hartigan.

The Board of Managers is currently conducting a survey of its members to identify the major issues its constituency perceives that it is facing. Preliminary indications are that the most critical issue will be the financing of treatment services.

The Board of Representatives of the Association's Council of Individuals also held meetings during the Annual Meeting. Installed on the Board were newcomers Patrick Griffin, Marketing Vice President for the Parkview Centers, Wayzata, MN; Phyllis Michelfelder, Executive Director of Wayside House, Delray Beach, FL; and Barbara Skorney, Director of the Senior Alcoholism Services Program, Vancouver, WA. They joined incumbents Gerald Carroll, Ph. D. (PA), Margaret L. Clay, Ph. D. (MI), Jan Durand (CT), Ruth Engs, Ph. D. (IN) and Eve Taylor (NY).

The Board of Representatives discussed and voted on a number of issues, including to simplify its dues structure, to accept the Section Council as an integral part of its council, and to establish additional opportunities for council members to become involved in the work of the council. Outgoing council Chair Bruce Carruth, Ph. D., was succeeded by Jan Durand. Engs was elected to represent the council on the ADPA Board, joining incumbent representatives Clay and Durand.

The Association's Section Council, consisting of the leaders of the various special interest sections, was transferred to the jurisdiction of the Council of Individuals. Stepping down as Section Council Co-Chair was Board Member Jan Durand, who was replaced by John Lee, SC. Lee joins incumbent Co-Chair John Hand, MI.

● FIELD ASSOCIATION DEVELOPMENTS

Jay S. Lewis, well-known publisher/editor of the "Alcoholism Report" and 1981 recipient of ADPA's Outstanding Service Award in the Field of Alcoholism, has accepted a position with the National Council on Alcoholism as Director of its Washington-based Public Policy Office effective January 1st. Lewis will replace former director Diana Tabler, who has been appointed special assistant to the ADAMHA Director.

NCA has also recruited New York State Alcoholism Authority Sheilah Blume, M.D., as its new Medical Director. The appointment also takes effect on January 1st.

ADPA representatives attending the 1st Annual Meeting of the National Federation of Parents for Drug-Free Youth October 10-13 in Arlington, VA. The program included addresses by First Lady Nancy Reagan and HHS Secretary Richard Schweiker. The Secretary's address focused on how the Parents' Movement could broaden the scope of its activities to include dealing with alcohol abuse by youth. ADPA used the opportunity to continue discussions regarding possible areas of cooperation between the Association and the Parents' Movement. Of value in such discussions is the fact that ADPA members Shirley Coletti, 1982 recipient of ADPA's Award for Outstanding Service in the Field of Drug Abuse, and Jokichi Takamine, M.D., serve on the Board of Directors of the Parents' Movement group.

ADPA wishes to express its gratitude to Women for Sobriety and to ALMACA for assistance they have provided in connection with the Association's activities involved in the development of educational materials for working women on the subject of alcoholism. The project is chaired by ADPA Board Member Margaret

L. Clay, Ph. D., and is supported by the Licensed Beverage Information Council.

Thomas Claunch was installed as the new President of the National Association of Alcoholism and Drug Abuse Counselors (NAADAC) during the group's recent annual meeting in California. Previously known as the National Association of Alcoholism Counselors (NAAC), the name change also went into effect at the meeting.

The Board of Directors of the National Commission on Credentialing on Alcoholism Counselors (NCCAC), at a meeting held during the recent NAADAC annual meeting, voted to rename the organization the National Commission on Credentialing of Alcoholism and Drug Abuse Counselors (NCCADAC). Stephen Valle was elected President. The association recently completed its Directory of Counselors, a national directory of more than 7,000 names and printed courtesy of the Hazelden Foundation. The directory is available for \$15 from NCCADAC, 181 North Common Street, Lynn, MA 01905. The newly elected Board includes ADPA members Stephen Valle, Mel Schulstad (VA), Dan Crowe (IN), Michel McKiernan-Doherty (PA), Riley Regan (NJ) and others.

● QUERIES

Member Frank Ridley, a retired federal attorney in the Washington, DC area, is interested in helping to establish a legal defense fund to protect the rights of practising and recovering alcoholics and addicts against adverse legal actions instituted because of these illnesses and handicaps. The concept is under consideration by the ADPA Board. Contact Ridley at 11105 Conti Place, Silver Spring, MD 20902, or phone 301-468-2298.

ADPA is very interested in hearing from or about alcohol and/or drug abuse programs of any type (treatment, prevention, referral etc.) which secures most or all of its funding directly or indirectly from fines or other moneys derived from drunken drivers. Please contact the ADPA office if you have any knowledge of such programs. We are receiving an increasing number of inquiries on this type of funding possibility.

● BRIEF NOTES/MISCELLANEOUS

ADPA's request for book reviewers has drawn responses from several members including Susan Ghoseil (CA), Richard E. Miller, Ed. D. (OH), Sarah Reagan, Ph. D. (VA), Barbara Carroll Stevenson (MD) and Robert E. Tournier (SC). A special thanks to each of you.

ADPA Board Member Bruce Carruth, Ph. D., of Little Rock, AR, was recently appointed to one of the NIAAA review groups advising the contractor working on the development of alcoholism counselor credentialing standards. Carruth's colleagues on the review groups include ADPA members Doug Harton (OH), Michel McKiernan-Doherty (PA), Cloyce Patree (CA), Stephen Valle (MA) and Maxine Womble (IL).

ADPA Executive Director Roger Stevenson will deliver an address to the North Carolina Association on Drug Abuse Prevention at its annual meeting in mid-November. Stevenson will discuss how to get maximum benefit from an association membership.

Ann Wrobleski, Director of Projects
Office of the First Lady
The White House
Washington, D.C.

Dear Ms. Wrobleski:

I was disappointed to receive word in your letter of June 7th that because of Mrs. Reagan's busy schedule she would not be able to meet with me and a group of other alcoholism professionals to discuss issues pertinent to youth and alcohol. I can well understand, however, how busy her schedule must be.

I appreciate your offer to help arrange for a meeting with Carleton Turner, Special Assistant to the President for Drug Abuse. ADPA and other field organizations have been working with Dr. Turner since he took over that office, and my own schedule would not permit another meeting in the foreseeable future.

Thank you for your prompt reply. I hope that the Office of the First Lady will continue to work for sound prevention and treatment policies and programs as regards youth and alcohol.

Sincerely,

Kay Hardin
