Dear Carlton:

I apologize for being so tardy in responding to your kind note. I had hoped that during our Annual Meeting in Washington, D.C., time would allow for the Executive Committee to contact you and have some further discussions on one of our initiatives, which is substance abuse. Unfortunately, because of the pressure of so many meetings during that time this was not possible. However, I want to assure you that we do make frequent visits to Washington and will contact your office for the purpose of continuing our discussions. Currently our task force on substance abuse is finalizing an educational program for our membership which hopefully funding can be obtained to publish it as a series of supplements in Pediatrics.

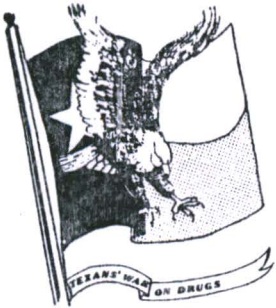

Thank you again for your communication. I look forward to our future meetings.

Sincerely,

William C. Montgomery, M.D.

American Academy of Pediatrics
1300 N. 17th St.
Arlington, Virginia 22209

Dear Mrs. Noyes:

Please let me introduce myself. I am Gracie McClure, Regional Coordinator for Texans' War on Drugs whose ultimate goal is to provide a drug-free, healthy environment for the children of Texas.

I work closely with civic organizations such as the Medical Auxiliary, PTA, Lions Club, and Junior League. All the organizations in Texas are making a great effort to educate parents, teachers, businesses, etc. about the dangers of drug abuse as well as trying to provide alternatives to the youth.

We are fortunate in Houston to be planning a Media Fair sponsored by the Harris County Medical Auxiliary, the Spring Branch Council of PTA's, and Texans' War on Drugs. The Media Fair to be held March 1, 1983, at the Region 4 Education Service Center will make the latest drug education materials available to Superintendents and Curriculum Coordinators from fifty-five local school districts.

In checking on information to give to school representatives, Dr. Carlton Turner suggested your excellent poster on drugs. Would it be possible to obtain 250 copies of these for the attendees? If there is a charge, would you please notify us as soon as possible (before mailing posters). I think you would find that your information would be distributed to a wide and receptive audience.

I look forward to hearing from you soon.

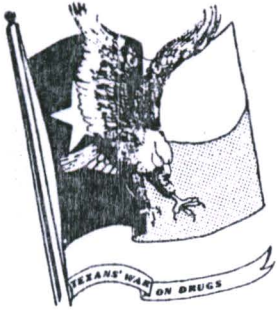

Sincerely,

Gracie McClure

Dear Carlton:

I am delighted that you will be able to meet with the Academy's Committee on Drugs to discuss pediatric initiatives in the area of drug and alcohol abuse. The meeting will be held at the Old Town Holiday Inn in Alexandria. Your presentation is scheduled for ~~4:00~~ ^{3:00} p.m., followed by cocktails and dinner.

I will plan to meet you in the lobby of the hotel just before ~~4:00~~ ^{3:00} p.m.

I look forward to seeing you then.

Sincerely yours,

Jackie Noyes

THE WHITE HOUSE

WASHINGTON

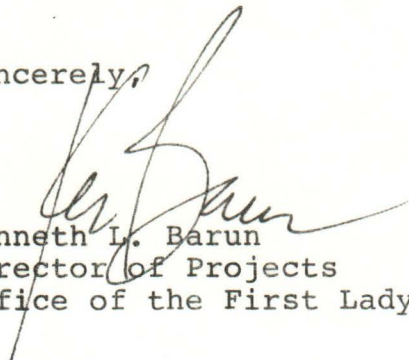

July 11, 1985

Dear Dr. Haggerty:

On behalf of Mrs. Reagan, I wish to thank you for your invitation to accept the President's Certificate for Outstanding Service for 1985 on Wednesday, October 23, 1985.

Because the invitation reflects a date far in the future, I'm afraid that it is impossible to make a commitment at this time. If you wish to have your invitation reconsidered, please renew it two months before the event.

Sincerely,

Kenneth L. Barun

May 24, 1985

Mrs. Ronald W. Reagan
The White House
Washington, D.C. 20500

Dear Mrs. Reagan:

In recognition of your outstanding contributions to our nation's young people in the area of substance abuse, the American Academy of Pediatrics has selected you as a recipient of the President's Certificate for Outstanding Service for 1985. This award is presented to individuals who exemplify the highest level of individual service toward the mission of the Academy -- the attainment of optimal physical, mental and social health for all infants, children and young adults.

You are invited to receive this award at our annual meeting which will be held in San Antonio, Texas, October 21-24, 1985. Some 4000 pediatricians will be on hand to join in applauding your efforts. The specific date and time of this presentation can be arranged to best suit your schedule. Should your schedule permit, the Wednesday, October 23, will feature a joint seminar with the American Academy of Child Psychiatry specifically on the issues of substance abuse and your award presentation on this day would most appropriately inaugurate this session.

I look forward to hearing from you and having the opportunity to personally thank you for your special crusade in this area.

Sincerely yours,

Robert J. Haggerty, M.D.
President

AAP
Addresses
For People

To: Task Force on Substance Abuse

From: Jean D. Lockhart, MD *JDL*

The corrected roster for the Task Force is attached,
as well as the Recommendations of the Task Force as they will
be presented to the Executive Board next week.

Thank you all for your enthusiasm and productive work.

JDL:1b

Attachment

RECOMMENDATIONS OF THE AAP TASK FORCE ON SUBSTANCE ABUSE
TO THE AAP EXECUTIVE BOARD, June 18, 1984

The Directive to the Task Force was to advise the Executive Board on the most effective and reasonable activities the Academy should take against substance abuse.

The Task Force makes the following recommendations for Academy Goals, Objectives, and Projects:

GOALS: The American Academy of Pediatrics should designate the problem of drug abuse, including alcohol, by young people and their families as a major area of concern and activity for the organization.

The Academy should create the mechanism to ensure the coordination and implementation of the following proposed objectives and projects.

OBJECTIVES:

1. Educate pediatricians how to interview, identify and counsel/manage young people (and their families) who are using drugs, including alcohol. This objective should be extended step-wise to include the education of pediatric residents and medical students.
2. Become actively involved in the support and implementation of comprehensive educational programs for children, young people, their families, and the community regarding drug/alcohol use, in consort with liaison groups already engaged in that activity.

PROJECTS:

1. Develop an educational program for practicing pediatricians to become knowledgeable concerning the subject of drug and alcohol abuse with emphasis on identifying problems in their patients and families and providing resources to deal with same. This would include:

AAP Annual and Spring Meetings, seminars,
workshops
CME courses
PIR/PREP
PEDIATRICS, News&Comment
Video/Audio tapes

Substance Abuse Task Force Recommendations

Page 2

June 19, 1984

2. Promote and support programs which would reduce the risk of accidents or injury in which drugs and/or alcohol is a contributing factor.
3. Promote through AMSPDC the development of teaching programs in medical training facilities to teach prevention, treatment and management of drug and alcohol abuse.
4. Develop reference guides which include printed materials on these subjects (drugs and alcohol); one list which would provide information for the professional and another which is directed to patients and families (e.g., an annotated bibliography).
5. Remain informed and become actively involved in legislation addressing the issue of drug and alcohol abuse.
6. Encourage and support research activities in the field of drug and alcohol use by children, adolescents and young adults.
