MEMORANDUM FOR WILLIAM P. CLARK

FROM:

GUS W. WEISS *Gus Weiss*

SUBJECT:

Soviet Bloc Economic and Financial
Situation: Update #14

25X1

25X1

Soviet and Polish Grain Outlook. Preliminary estimates for winter grains are favorable for these countries. Barring an unforeseen frost, winter grains in both will be up 5 to 7 percent over last year. For the USSR, winter grains account for one third of production and 60 percent for Poland. But this auspicious outlook will not solve the food problem for either, as the Soviets alone will still likely need to import 30 million tons in the marketing year ending June 1983.

(S/NF)

Hungary. Two officials of the National Bank of Hungary are soon to visit U.S. banks in New York to discuss a rollover, i.e., extension of payments coming due. The Hungarian effort seeks to forestall formal rescheduling. (Hungary has a total hard currency debt of about \$8.3 billion of which \$350 million or 4 percent is government backed) (Tab A). (S)

The Hungarian government sent a representative to solicit a letter of one million dollar credit from Italian banks, noting that if credit were not forthcoming, the Hungarian economy would be in "terrible financial condition" (credit was denied) (Tab B). (S)

East Germany-Poland. In late January, East Germany turned down Jaruzelski's recent requests for more economic assistance. He had asked Honecker for credits, sustained deliveries of raw materials, food, and consumer goods, despite shortfalls in Polish coal production. The GDR argued that it does not have the requested quantities and that it expects Poland to continue deliveries of hard coal as contracted for (Tab D). (S)

Cuba. Even though tourism is Cuba's second largest source of hard currency (after sugar), the tourist industry is not providing sufficient cash to show a working profit. Packaged tours, which are marginally profitable, only provide enough funds to support the industry's capital needs. Cuba will therefore promote the more profitable private visits of citizens of Canada, Mexico, and Western Europe (Tab D). (S)

Romania. Internal problems are reported as "very grave," in that many industrial plants are closed, unemployment has increased, and the unemployed are receiving only 1/6 of their regular salaries. Energy and raw materials are in short supply. On top of those conditions, the Soviets have asked for hard currency in payment for imported Soviet electricity and oil; the reporting Romanian official believes that some "political conditions" will have to be accepted at Soviet insistence because of Romanian economic troubles (Tab E). (S)

Polish Commercial Debt Rescheduling. Poland has put off making final its debt restructuring agreement with Western banks until April. Bank Handlowy did this because of Poland's having been unable to complete its 1981 commercial interest payments (Tab F). (C)

Soviet Union. The hard currency shortage continues, spurred by payment requirements for food imports, the support of the Cuban economy, and worsening economic circumstances in Eastern Europe. Of special note is the inclusion by a Soviet official of Czechoslovakia and Romania as "close behind" Poland's difficulties (Tab G). (S)
