SUBJECT: Revision of Mobilization Scenarios

Reference is made to an October 5, 1982 memorandum which requested your comments on five scenarios prepared by the Military Mobilization Working Group. I realize that your response has been delayed because of the REX-82 BRAVO exercise play. However, it is still imperative that we receive your comments so that the scenarios can be completed. I would appreciate your response by December 17, 1982

DEC 18 1982

MEMORANDUM FOR: ~~BOARD MEMBERS~~

FROM:

Lee M. Thomas
Lee M. Thomas
Executive Secretary

SUBJECT: Plan of Action on Emergency Mobilization Preparedness

The minutes of the seventh Board meeting have not been forwarded as yet because they have not been approved. In the meantime, to avoid further delay, the following points which require additional consideration have been extracted.

COST IMPLICATION DATA. It is imperative that cost implication data be provided for every implementation measure. The cost data, as well as other information, will be used to determine those measures that will remain in the approved Plan of Action. Mr. Mehle of the Department of Treasury made a strong case concerning the dangers of displaying cost figures in a document that most likely will be open to review. In view of his suggestion, it is now envisioned that the cost implication data will be made available to Board and Working Group members in a separate document, but will not be displayed in the National Plan of Action. See attachment 1 for a recapitulation of the most recent cost implication data. The data may still be upgraded, if desired.

PRIORITY FUNDING IN AGENCY BUDGETS. The National Plan of Action, when finally approved by the Board and signed by the President, will be a directive to the Departments and Agencies of the Executive Branch. Each Department and Agency will be expected to fully comply, on schedule, with the requirements as stated in the milestones of each measure. This, of course, will require commitment of Department and Agency resources, specifically personnel and funds. Once signed, changes to the Plan will be authorized only upon adequate justification and Board approval. Therefore, adjustments to the Plan of Action must occur before final Board approval.

IMPLEMENTATION MEASURE PRIORITY. The line showing the priority of each measure has been left blank in the draft. The priorities were set by the Working Groups and were relevant only within that particular preparedness area. They are being provided for information to the Board and Working Group members in a separate document. See attachment 2. The priorities will not be displayed in the National Plan of Action. Once an implementation measure is included in the approved Plan of Action, it automatically will have priority status as described above under "PRIORITY FUNDING IN AGENCY BUDGETS."

INCORPORATE MEASURE A-1 INTO MEASURE A-3. It was the consensus that measure A-1 was addressed in measure A-3.

CHANGE FOOTNOTE ON MEASURE H-1 AND ADD A SIMILAR ONE TO MEASURE H-2. There appeared to be consensus that the footnote should read "excludes military operational plans."

ECONOMIC STABILIZATION AND PUBLIC FINANCE MEASURES SHOULD INCLUDE MORE POSITIVE INDUCEMENTS SUCH AS DEFENSE PRODUCTION ACT (DPA). There appeared to be consensus that the DPA should be addressed in the Industrial Mobilization area rather than in Economic Stabilization and Public Finance which, in fact, it is. The point was made clearly that the direct and indirect controls described in section E of the Plan of Action were merely options that could be invoked if, in the last resort, the free market could not be relied upon, but only at the latest appropriate moment. The National Policy Statement on Emergency Mobilization Preparedness (NSDD-47) establishes, without question, the Administration's reliance on the allocative efficiencies of the free market.

PUBLIC FINANCING OF A MOBILIZATION. This was a subject of discussion at the meeting. It comes under the responsibility of the Economic Stabilization and Public Finance Working Group, which will investigate various methods, prepare option papers, and be prepared to brief the Board if desired. The Working Group has included measure E-3 to accomplish the investigation of alternatives.

THE PLAN OF ACTION DOES NOT REPRESENT A COHESIVE OR INTEGRATED EFFORT. The point was made that there are several areas of overlap among implementation measures and milestones of the preparedness areas. It was indicated that a comprehensive review should be made to identify these overlapping items. An example of this situation is a measure, which appears in 11 of the 12 preparedness areas, and calls for a review of authorities. In fact, the Working Groups are reviewing legislation and other authorities but only in the preparedness area under their purview. The Government Operations Working Group will make use of the efforts of each group to pull together a coordinated data base of all emergency authorities which will be available for use by every Department and Agency.

OFFICIAL USE

A basic function of the 12 Working Group Coordinators is to assure coordination and consistency of the actions taken pursuant to the Plan of Action. It is, however, ultimately the responsibility of the Departments/Agencies to achieve coordinated and consistent emergency mobilization preparedness measures. The Secretariat has conducted a review of the draft plan to identify areas where improved coordination would be desirable. The activities identified by the Secretariat will be brought to the attention of the affected working groups for resolution.

The results of the review are at Attachment 3. Some of the areas listed may already have been addressed by the relevant Working Groups. Because the language of the draft Plan of Action is intentionally general, other areas of potential overlap, etc., may be identified as more detailed plans are developed.

SUMMARY

Please review the considerations detailed in this memorandum as they pertain to the second draft of the Plan of Action. It is requested that comments on these and any additional considerations or issues be delivered to me not later than noon on December 22, 1982. These comments will be used to modify the Plan so that a third draft will be available for consideration at the next Board meeting on January 5, 1983.

DEC 3 - 1982

MEMORANDUM FOR: BOARD MEMBERS
WORKING GROUP CHAIRMEN
Lee M. Thomas
FROM: Lee M. Thomas
Executive Secretary
SUBJECT: Revision of Mobilization Scenarios

Reference is made to an October 5, 1982 memorandum which requested your comments on five scenarios prepared by the Military Mobilization Working Group. I realize that your response has been delayed because of the REX-82 BRAVO exercise play. However, it is still imperative that we receive your comments so that the scenarios can be completed. I would appreciate your response by December 17, 1982
