RESOLUTION IN SUPPORT OF
PRESIDENT REAGAN'S PROGRAM FOR ECONOMIC RECOVERY

WHEREAS this nation faces a debilitating combination of sustained inflation, high unemployment, and stagnating productivity;
WHEREAS ever-increasing federal spending, high taxes, and excessive regulations are major contributors to this economic distress; and
WHEREAS the American people, in the 1980 elections, have voiced their overwhelming support for a comprehensive program designed to slow the growth of government spending, reduce tax burdens, provide regulatory relief, and achieve consistent monetary policy:

Now, therefore, be it:

Resolved; That we, the undersigned members of the freshman class of the 97th Congress of the United States House of Representatives, do hereby pledge our support for President Reagan's Program for Economic Recovery as the best possible plan for restoring economic health to our nation.

While each of us may have particular reservations about certain aspects of the plan, we believe that the economic crisis we face is of such paramount importance that we must rise above individual, parochial interests.

Accordingly, we support the basic tenets of President Reagan's Program for Economic Recovery, including --

1) a budget reform plan designed to cut the rate of growth in Federal spending, distributing more than \$40 billion of spending cuts equitably while preserving a social safety net for the poor, elderly, and disadvantaged, and ensuring our national security needs;

2) a series of proposals to reduce personal income tax rates by 10% a year over three years and to create jobs by accelerating depreciation for business investment in plant and equipment;

3) a far-reaching program of regulatory relief; and

4) in cooperation with the Federal Reserve Board, a new commitment to a monetary policy that will restore a stable currency and healthy financial markets.

We further believe that adoption of the President's Program for Economic Recovery will lead to a reversal of the adverse trends of the past two decades and a stimulation of growth, productivity and employment together with a reduction of inflation.

SUGGESTED TALKING POINTS FOR MEETING WITH
THE FRESHMAN CLASS OF REPUBLICAN HOUSE MEMBERS

- Indicate that the freshman class has a very important role to play in supporting your programs. You feel especially close to this group because you were elected with them and know that they are uniquely linked with your efforts to reverse current economic trends.

- The Democrats presented you and the first-term Republicans with an 80 billion dollar deficit. Republicans must work together to control spending, to cut taxes, to reduce government regulation, and to insure a stable monetary policy.

- Recognize that the scope of the economic package might create some political concerns for the first-term members. Ask the freshmen for their unified support.

- Emphasize that the tax and spending cuts are integral parts of a total economic package. Urge them to resist any exceptions. Each committee vote and floor vote is important if your economic plan is going to succeed.

- Urge them to push the Democrats to act on your proposals as quickly as possible.
