PRESIDENTIAL REMARKS: PBS TAPING AT SHILOH BAPTIST CHURCH
THURSDAY, DECEMBER 1, 1983

Thank you so much, all of you, for this extraordinary hour of singing and music. And thank you, Leontyne, for organizing this splendid array of talent, and for inviting ~~Nancy and me~~ ^{us} to be part of your celebration. As I listened to these beautiful spirituals, I thought of the opening words of Walt Whitman's poem Leaves of Grass. It begins, "I hear America singing, the varied carols I hear."

Well, tonight we've heard America singing some of our most beloved songs. You've helped us understand what the person meant who said, if you want to know a people, listen to their music. For me, these wonderful melodies tell the world a great deal about America's faith, about our strength, and our hope for the future.

Tonight's program was very fitting for these special days when we celebrate the blessings of God and the promise He has given mankind. It is a season of renewal, of hope and of love.

With Christmas little more than a week away, I was wondering if I could ask Leontyne for a small present in advance. I was wondering if you could sing a hymn I have always loved: "Amazing Grace."

THE WHITE HOUSE

WASHINGTON

MEETING WITH THE CABINET COUNCIL
ON COMMERCE AND TRADE

DATE: December 1, 1983
TIME: 2:00 pm (60 min)
LOCATION: Cabinet Room
FROM: CRAIG L. FULLER

I. PURPOSE

The Cabinet Council on Commerce and Trade is meeting to review with you NASA's proposal to begin research and development of a manned space station.

II. BACKGROUND

Following your decisions concerning a National Space Policy, the Senior Interagency Group on Space (SIG/SPACE) chaired by your Assistant for National Security Affairs considered alternative approaches to a U.S. space station.

A presentation of four options developed as a result of the work by SIG/SPACE will be made during the meeting. The recommendations are summarized below and discussed in the attached materials from SIG/SPACE.

Options:

1. Approve NASA's recommendation to begin research and development of a U.S. manned space station.
2. Direct NASA to pursue a program utilizing unmanned platforms in space and a newly developed extended duration space shuttle/orbiter.
3. Direct further study of this matter and do not approve either approach listed above.
4. Direct that research and development be undertaken on both a manned space station and unmanned platforms serviced by extended duration space shuttle orbiters. (Options 1 and 2)
