Morton C. Blackwell
Special Assistant to the President for Public Liaison
The White House
1600 Pennsylvania Ave.
Washington, D.C. 20500

Dear Mr. Blackwell:

Recently President Reagan had an opportunity to speak before the Commonwealth Club of California. At this function Professor Jeanne Crank had a scheduled brief encounter with the President. She offered to present the enclosed letter, with attached documents, to President Reagan; unfortunately, a secret service agent refused her permission while waiting in the reception line. Jeanne then gave the original copy to the agent, asking him to present it to the President.

The reason I am writing to you, is to ask that you review the letter and documents. Please look at the two issues raised and forward any recommendations to the appropriate officials.

Additionally, on the issue of a Presidential Commission on Youth Service Alternatives I enclose a recent reply from Counsellor Edwin Meese III. His office has additional material on this subject.

I would like to thank you in advance for your attention, time and consideration to these dilemmas.

Sincerely,

Peter P. Jesella
Phlebotomist, Kaiser Hospital

March 1, 1983

Honorable President Ronald Reagan
c/o Commonwealth Club of San Francisco

Dear Mr. President:

Issue #1: President Reagan is it possible for you to have a pre-summit meeting with Mr. Andropov at Hiroshima Japan?

Recently a Mr. Harold Willens visited your office and suggested that you meet with Soviet leader Yuri V. Andropov at Hiroshima, Japan. On November 30, 1981 I received a letter from Counsellor Edwin Meese III indicating that this Administration would give "careful consideration" to my suggestion that your START Talks open at Hiroshima. In light of your speech at Arlington Cemetery announcing the opening of these talks in Geneva I ask you to consider having a "pre-summit" meeting at Hiroshima. Speaking to Mr. Andropov would be as difficult as speaking to Tip O'Neil, but even that was possible. The idea of a pre-summit implies a less formal meeting, more along the lines of a barbeque. Finally on August 6, 1982 Mayor Takasaki Araki, of Hiroshima, offered to host any forum dealing with nuclear arms concerns.

Issue #2: Three times Congressman Panetta has introduced a bill to establish a Select Commission on National Service (H.R. 1264); please speak to Congressman Panetta on this Commission and consider offering your support in passage of this legislation.

This commission could study national service's impact on reducing the deficit, instituting a new Federalism program while diminishing government bureaucracy, and manpower for emergencies.

Enclosed are two letters from Congressman Panetta expressing his agreement with my thesis that a Federal balanced budget could be derived from a public and Congressional discussion of the cost and benefits of a National Youth Service Program. Programs like this, demanding a certain sacrifice and payback to America, can produce the psychological/political climate that will allow for a comprehensive movement towards obtaining a balance in appropriations and revenue. I urge you to review a major article on national security policy in this week's, March 7th, Time Magazine. American soldiers' who read this article may question the fact that many of their superiors; military, Congressional, and Executive, have little regard for honest appraisal of military technology. Do these actions contribute towards effective survival of American military personnel and their battle mission. You claim your goal is to rebuild American national security, excluding even political considerations. A Select Commission on National Service would create a forum for national debate on what is required for effective national security and education about democracy and civic responsibility.

I would like to thank Professor Jean Crank for personally delivering you this message Mr. President.

Sincerely,

A handwritten signature in dark ink, appearing to read "Peter P. Jesella". The signature is fluid and cursive, with the first name "Peter" and last name "Jesella" clearly distinguishable.

San Jose, California 95128

Dear Mr. Jesella:

Thank you for sending me your outline for a proposed thesis on the relationship between a balanced budget and national service. I found your proposal and the supplementary material very interesting, and look forward to reviewing your completed paper.

The possible economic benefits of a national service program are indeed extensive, and a point which should help the chances of such a program being established. A national service program can provide not only much-needed public services (such as conservation, urban redevelopment, and assistance for the elderly and disabled) which would otherwise have to be funded out of more expensive government programs, but also the job training necessary to enable young people to become productive, tax-paying contributors to the American economy. In addition, the relationship between national service and military service is a complex area which might yield further cost savings. A thorough analysis of these economic effects is certainly needed; I have enclosed some materials on this subject, which I hope will be of help to you in working on your thesis.

In closing, I would like to offer my full support of your suggestion that the Strategic Arms Reduction Talks (START) be moved to Hiroshima, Japan. Hiroshima, site of the first atomic attack, stands as a tragic testimonial to the compelling need to direct our full and immediate attention to eliminating the threat of a nuclear holocaust. I think you would agree, however, that it is imperative that the present negotiations proceed at full speed. Therefore, I think it is unlikely that the talks will be moved at the present, but certainly agree that Hiroshima should be considered as a site for future nuclear arms reduction talks.

Again, thank you for writing and for your continued efforts on behalf of national service. If I can assist you any further with your paper, please do not hesitate to contact me again.

Sincerely,

LEON E. PANETTA

Dear Mr. Jesella:

Thank you for calling my office to express your further views on the subject of national service. I am sorry you were not able to speak to me, but appreciate your sharing your concerns through my staff.

As I noted in my previous correspondence, I certainly agree that the economic and budgetary impact of a national service program is an area that deserves further study, and I would hope that this would be one of the issues taken up by the Select Commission my legislation would create. I am sure you will be interested in the enclosed study by the Congressional Budget Office from 1978, which provides a useful overview of the issue and an analysis of three different national service options. However, I do not believe it would be appropriate to request further analysis by CBO until the outlines of a national service program are established in greater detail.

You may also be interested to know that I have reintroduced my bill to establish a Select Commission on national service, which I hope will help us in formulating a national service program. This legislation will be H.R. 1264 in this Congress. I have enclosed a copy of my introductory statement for your information.

Again, thank you for keeping in touch. If I can be of further service in this matter, please do not hesitate to contact me again.

Sincerely,

LEON E. PANETTA

Peter V. Jesella *Peter V. Jesella*

Mr. JESELLA. Thank you for this time, I appreciate it.

My name is Peter Jesella. I am from San Jose, Calif. I would like to talk about the possibility of relocating the SALT talks from Geneva, Switzerland, to Hiroshima, Japan. I have been pursuing this concept for the last few months fairly vigorously.

I have with me two letters that I would like to read, one from Senator Cranston and one from Counselor Meese from the White House. First the one from Senator Cranston.

Thanks for getting in touch with me about your suggestion that future arms control talks be held in Hiroshima. I can well understand your concern. And I will be very glad to look into this matter for you. I have asked that the issues raised in your letter be given thorough consideration by the Arms Control and Disarmament Agency. As soon as I get an answer, I'll be back to you. I hope I can be helpful.

The letter from Counselor Meese goes:

Thank you for your correspondence concerning your suggestion for locating any future SALT talks. We appreciate the time you have taken to write and you can be assured that your views and comments will be given careful consideration by the Administration.

With best wishes, Edwin Meese.

Also, I have a letter here, this is a copy of the letter I sent to the two mentioned people and this was addressed to Ambassador Dobrynin of the Soviet Union to the United States. Also his was sent to Ambassador Okawara—I'm sorry, I'm pronouncing it wrong. He's the Japanese Ambassador to the United States. It was also sent to Ambassador Mansfield, who's the American Ambassador to Japan.

I hope in the future I receive some responses from these other sources. Part of the letter goes to the effect, as to the justifications of having the talks at Hiroshima as providing the proper atmosphere for this dialog.

The Soviet Union is very paranoid as to the capabilities and expectations of the Western World; and I believe by having them held at Hiroshima would provide the proper image for the world.

As William Naverel Herman has said, "as we become more remote from the horrors of Hiroshima, there are doctrines of war fighting based on the fantasy of using nuclear destruction for some rationale

William Averell Harriman

67

end." Efforts must be made to remove this remoteness. I propose that any new talks be held at Peace Park in Hiroshima.

Japan is the only country that has suffered the effects of nuclear destruction and survived. Japan's culture could play host to negotiations and provide a more proper atmosphere to the subjects to be covered. Thank you for your time.

Senator CRANSTON. Thank you for a very creative idea. [Applause.]

Senator CRANSTON. Would you please proceed and identify yourself.

Mr. NEFF. My name is Ted Neff. I live in Davis, Calif. I'm the western regional field secretary for the Friends Committee on National Legislation, the religious society of Friends, the Quakers.

We have a lobbying program in Washington that has been there since 1943. I attended the hearings of this committee on November 9 in Washington and I couldn't resist the opportunity of speaking to you because at that time, there was only one of you in attendance, Senator Pressler, so with the addition of Senator Cranston and Senator Pell, we appreciate this additional opportunity.

Reagan Finally Gets State's Request for Nuclear Freeze

Los Angeles Times Thursday, February 10, 1983

WASHINGTON—The "nuclear freeze" message that nearly 4 million Californians voted last Nov. 2 to send to President Reagan finally was delivered to the White House Wednesday after weeks of political jockeying over who would be the official messenger.

The voters' formal request for an end to the U.S.-Soviet nuclear arms race ultimately was delivered by the chairman of the California freeze initiative campaign, Harold Willens, who jokingly told the President on leaving the Oval Office: "Thanks for not chopping off the messenger's head."

Willens suggested also that Reagan and Soviet leader Yuri V. Andropov meet in Hiroshima, a Japanese city hit by a U.S. atomic bomb in 1945, to symbolize their commitment to avoiding a nuclear holocaust. "He listened with inter-

est and said he would think about it," Willens said.

But the rest of the 10-minute, publicly unannounced meeting amounted to "verbal Ping-Pong," Willens said, with the men arguing their "deeply felt convictions"—Willens contending that each superpower already has enough megatonnage to destroy civilization and Reagan countering that the United States cannot freeze itself into nuclear inferiority.

President Reagan's advisers had turned down California Sen. Alan Cranston's request that he be permitted to deliver the message, which was embodied formally in a letter written by former Gov. Edmund G. Brown Jr., as required by Proposition 12, the freeze ballot initiative.

Cranston, the Senate minority

... Reaches Oval Office

Californian hands Reagan message on nuclear freeze

Continued from Page 1A

the problem you and the people you represent don't understand, Mr. Willens, is that the Soviets are way ahead of us. We've got to catch up and then freeze."

"I said, 'Mr. President, I respectfully disagree with you . . . I think we're superior, not the Soviets, but I'm really embarrassed to say that when each nation has the capability to destroy each other 47 times over,'" Willens said.

He added, "Anyway, we went back and forth on that, and neither of us convinced the other."

The California freeze measure passed on Nov. 2 by 3.8 million votes, a margin of 52.5 percent to 47.5 percent. It required that the following message be hand-delivered to the president:

"The people of the state of California, recognizing that the safety and security of the United States must be paramount in the concerns of the American people; and further recognizing that our national security is reduced, not increased, by the growing danger of nuclear war between the United States and the Soviet Union which would result in millions of deaths of people in California and throughout the nation; do hereby urge that the government of the United States propose to the government of the Soviet Union that both countries agree to immediately halt the testing, production and further deployment of all nuclear weapons, missiles and delivery systems in a way that can be checked and verified by both sides."

* Willens also recommended to Reagan that he meet with Soviet leader Yuri Andropov in a personal "pre-summit meeting" in Hiroshima, Japan, because "the symbolism would be tremendous." He said the president thanked him for the suggestion and said he would give it some thought.

Willens is a contemporary of Reagan and, as a wealthy Southern California retired businessman, travels in the same social circles as some of the president's most prominent supporters. But he said that the shock he felt upon visiting Nagasaki and Hiroshima as a Marine Corps intelligence officer, weeks after they were destroyed by U.S. atom bombs, guided him into the peace movement instead of party politics.

Willens was a contributor to Paul N. "Pete" McCloskey's challenge to Richard Nixon in 1972 when McCloskey was a vocal congressional critic of the Vietnam War. And Willens was a co-founder of Business Executives Move for Vietnam Peace in 1967.

Although this background may not qualify Willens as an administration favorite, one administration official suggested Wednesday that, given the alternatives, the White House was glad to have him.

Edmund G. Brown Jr., then governor of California, had hoped last fall to present the letter to Reagan himself, but he lost his bid for the U.S. Senate on the same day the freeze measure passed. Brown wrote the letter anyway and asked Alan Cranston, California's Democratic senator, to present it.

On Jan. 3, Cranston requested an audience with Reagan. The president's advisers weren't exactly eager to let him have it.

THE WHITE HOUSE

WASHINGTON

9 March 1983

Dear Mr. Jesella:

Thank you for your correspondence regarding your suggestion for the creation of a Presidential Commission to study the proposal for a National Youth Service Program.

We appreciate the time you have taken to write, and you may be assured that your views and comments will be given careful consideration by the Administration.

With best wishes,

Sincerely,

A handwritten signature in cursive script that reads "Edwin Meese III". The signature is written in dark ink and is positioned above the printed name.

SUMMARY

COSTS OF THE NATIONAL SERVICE ACT (H.R. ~~2206~~):
A TECHNICAL ANALYSIS ¹⁷³⁰

¹⁷³⁰
The National Service Act (H.R. ~~2206~~) is intended to establish a national service system to meet the nation's economic, social, and military needs. Youths could volunteer for one year of civilian service or for two years of military service. If too few persons enlisted in the military, young men would be drafted to eliminate the shortfall. Subsistence wages would be paid, but military personnel would also receive substantial post-service educational benefits. This study estimates the costs of H.R. ~~2206~~.

¹⁷³⁰
If implemented at the beginning of fiscal year 1982, CBO estimates that H.R. ~~2206~~ could add a total of \$13.1 billion to federal budget costs in fiscal years 1982-1986. (All costs are in constant 1981 dollars.) This estimate assumes that national service would develop into a broad-based effort involving a substantial portion of the youth population. A breakdown shows that over the first five years:

- o A broad-based National Youth Service Corps—providing one million civilian jobs by 1986—would increase budget costs by \$20 billion.
- o The costs of manning the active-duty military force would decline by \$8.7 billion largely because of decreases in military pay. To maintain recent levels of recruit quality in the face of these pay reductions, however, the services over the next five years would have to draft a total of 460,000 young men, or 27 percent of total accessions.
- o The costs of manning the Selected Reserve—enlarged to its peacetime objective of one million reservists—would decline by about \$0.2 billion largely because of pay and allowance cuts.
- o Registering, testing, and examining youths—about 16 million in 1982, 4 million a year thereafter—would add \$2.0 billion to federal budget costs.

The added costs might be less if there were reductions in existing Comprehensive Employment and Training Act (CETA)

San Jose, California 95128

Dear Peter:

Thank you very much for taking the time to see me at the Santa Clara Chamber of Commerce Installation dinner. I apologize for not being able to spend more time with you in discussing Pete McCloskey's excellent idea of a National Service Corps. I have always felt that such an idea had merit, and would provide our young people with an alternative to military service. It would also give them time to sort out their future direction, while contributing to make this a better society.

It should be put on the agenda for a national debate and discussion. I reserve judgement however, on the final legislative vehicle that would implement such an idea, due to the complicated process that legislation generally takes - the final product is not known until the ink dries.

I compliment you on your efforts in promoting this concept, and I am sure my friend, Pete, appreciates the good work you are doing.

With best wishes,

Question:

BARRY M. GOLDWATER, JR.
Member of Congress

The Real War by Richard Nixon shows that the Soviet Union has only by name replaced the imperialistic growth of the Russian Empire. This Soviet Empire has contributed major resources to complicate and expand social-economic imperfections in capitilistic and third world economic systems. This has prevented the United States from effectively correcting these imperfections, such as the cost of energy.

I believe HR 1730, The National Service Act, is an ideal "trade off" that would counterbalance this Soviet threat and also again inspire this wonderful country to again move forward to repair these imperfections. In January you agreed that a national debate is needed! My question, are you willing to have a series of debates with Congressman McCloskey, and any others, as to the significants of this legislation for a better- healthier -California, America and a Global Future???

OFFICE OF THE VICE PRESIDENT
WASHINGTON

May 12, 1981

Mr. Peter P. Jesella
3015 Davie Avenue
San Jose, California 95128

Dear Mr. Jesella:

My staff assistant told me of your recent visit to our office and your interest in the National Service Act (H.R. 1730).

As you may know, this legislation is currently being studied by three committees in the House of Representatives: Armed Services; Education and Labor; and Veterans Affairs.

I appreciate your advising our office of your efforts in this area and hope you were able to follow-up on our suggestion to visit ACTION while you were in Washington. I know that office would value your thoughts regarding the contribution of young people to a better society.

With best wishes, I am

Sincerely,

Robert J. Thompson
Executive Assistant to the
Vice President for
Congressional Relations

Dear Mrs Dole

Your husband has already collected almost One Million dollars for the little wound he got in the service, Do you think it right the rest of us never gets anything? Please read my letter, It's straight from my heart. You will never forget what you read in this message. Please tell your husband to help us all. We served the same as he.

Thank you so much.

*Arthur -

OCT 29 1921

A million dollars is to much.

Ladies and gentlemen,

ONE CHECK FOR EACH VETERAN IS ENOUGH

Friend Veteran,

To use Walter Winchel's news call — "Mr. and Mrs. North America and all the ships at sea, let's go to press." And following this breath-taking call came story after story of frightening, sad, heartbreaking and unbelievable news; news that touched every heart and home in America. In ending this ringing news cast, he usually left us with a note of encouragement: there's more solutions than one to any problem.

The following is also frightening, sad and unbelievable. In my belief, it, too, touches every heart and home in the USA today. If Mr. Winchel was still on the airways, the message you are about to read might just be his news cast for the evening.

FLASH — There's nearly two and a half million Veterans receiving somewhere between \$600 to \$1200 per month on the so-called service-connected disability loop-hole. Also by using the same faked medical papers, they get a social security check for a couple hundred dollars per month — a double take for a single fake. There just couldn't be this many sick Veterans. They're lying themselves sick. It's lie-ability not dis-ability. It seems they resent having served their country. It appears they have nothing more than hardening of the heart, but not the artery, or the service-connected itch. There's no antidote for this kind of evil.

There's an epidemic of fox-hole grievances — faking heart attacks, having severe headaches, backbone ailments and pretending to be mentally off-balance and many other reasons, all of which befuddles a lot of the doctors. But these same doctors, you won't believe it, are the very ones who decide the outcome of each complaint. Some Veterans can show a scar no deeper than the skin itself and collect these high benefits while some can't. These same befuddled doctors decide who will and who won't. It is frightening for what it costs the taxpayer. It's sad that such a few get so much, unbelievable that Uncle Sam will allow these doctors to hand pick the ones who will and the ones who won't.

For example — A Veteran drawing benefits for a possible average of 45 years — from 25 to 70 years old — at a possible average of \$900 per month comes to the sum of \$489,000. Plus the social security check he wormed to get, a possible average of \$200 per month for 45 years comes to \$108,000 for a combined total of \$597,000. And don't hang up, listen to this.

These so-called service-connected disability Veterans pay no federal income tax, no state income tax, no social security tax, no doctor bills, no hospital bills, no medicine bills, no hospitalization or life insurance premiums. They have no working tools, truck, equipment, or uniforms to buy, no union dues to pay, and when they shop at the PX's and commissaries, they pay no sales tax.

So, at the end of 45 years this \$597,000 could easily double in value and be equal to just about 1¼ million dollars or over \$26,500 per year in buying power. And, believe it or not, it could very easily and probably will, cost the taxpayers another \$597,000 to process each Veteran's papers each month for 45 years. Such as keeping tab of his life long records, his complaints, his many visits, his progress, if he ever has any, his many, many checks and long last his funeral expenses and his widow's payoff after he's gone to glory. Even his wives and step kids will continue to receive benefits for as long as they ever want it — frightening, sad and unbelievable.

Stop here and think about this: out of approximately 25 million Veterans in the USA today, only about 2½ million are getting benefits, and this year along in 1976, aid to the Veterans will cost the country \$19 billion dollars — and they're getting sicker and thicker at the hospital doors. It's frightening, sad and unbelievable.

I wouldn't know who to blame the most, the Veteran who will lie himself sick, or the doctor who will let him fake it, or the past officials who put this so-called service-connected disability law, or decision, in motion. As I see it, they are all guilty of something that stinks.

Now I've been told the rest of the 22 million ex-servicemen and women can't do a thing about it. They say it's out of hand to stay, but let me say this, sooner or later there comes a time in every country when it becomes perfectly clear that a major change must be made in the way we do things.

So in the year of 1976, I myself, and if a poll were taken, I believe that 99% of the ex-servicemen and women who have been denied any compensation because of the so-called service-connected disability loop-hole, would like to see a complete turn around in the Veterans' benefits system by bringing it to an end with a one time payoff and for every boy and girl who served this great country and at the time of the termination of their services as near as possible.

Our President and Congress should get together and decide on which way to bring this about. I feel sure they will be fair to every boy and girl who served in these wars as they were voted in to do things like this.

Notice, where there's a will there's a dozen ways. I know the President and Congress can surely come up with at least one way that will be right for every boy and girl who served to end these wars. We have no one else to go to. Most of us are poor and uneducated but too proud bed down in a hospital and lie and beg the doctors for a pension. I believe most of us had rather take it standing up. I can't see us being turned down any longer. Our time for a payoff has come.

The taxpayer abides by the White House decisions, why not the Veterans? Let's do away with the hospitals and doctors, let's do it like practical men and women. Why should the dis-connected Veterans have to go on trial before a long line of prejudiced doctors to get a little settlement he already has coming?

Servicemen and women should be told what their benefits will be the day they receive their discharge or as soon as possible thereafter, and without any physical examination whatsoever. And also let them know this will be the end of all handouts as long as they live. Bonuses, pensions and all benefits should be based on how long one serves and where one serves, not how long one lives. Some could live to be 100, while others might die soon, so you see this is not a fair plan.

ONE CHECK FOR EACH VETERAN — Page 2

Again, I must say that the fate of the ex-servicemen and women should be decided in Washington, D. C. by fairminded men and women whom we all voted in to do the job instead of the neighborhood doctors who are most always one-sided. That's why we shouldn't have to go before a doctor for benefits of any kind. They have so many ways to twist their findings to suit their cases, so as to give to whom they want. His relatives, in-laws, special friends and close neighbors take precedent over needs and eligibility. The color of your skin, your nationality, your religion, your political preferences, the length of your hair and a number of other things could cause a doctor to case you out instead of in. So, if we are to receive equal benefits, no physical examination will be required. Let the President and Congress decide our fate, not some fisty little doctor who in some cases is sicker than the Veteran who bellyaches his way to riches.

For a few doctors to give top benefits to a few chosen Veterans century after century is too much for the taxpayers and the forgotten Veterans to have crammed down their windpipes.

Even our POW's have to take a back seat to these so-called service-connected disability Veterans. If our government were to favor any one group, these POW's should be near the top, if not the highest on the list in payoffs. What sort of doctor would want to put our POW's at the end of the line when these so-called service-connected Veterans have already received well over the \$100,000 mark in benefits and are crowding in for more? Let us not forget that all who served were connected with the service. We all are service-connected if that's what you want to call it. But the way it's being used, service-connected is a foul word. Let's do away with it, take it off the service records. It's made selfish fools out of a lot of ex-servicemen. It's a stepping stone to riches for 2½ million ex-Veterans, and a detriment and hinderance to the other 22 million Veterans whom have been disconnected because of the so-called service-connected loop-hole.

Receiving 100% disability benefits for 40 to 60 years is the next best thing to being born rich. A half million dollars tax free is a lot of money. We must protest this outrageous plan. There are hundreds of thousands of fake disability ripoffs — hypocrisy is a mild word for it.

If their wounds won't qualify them for high payoff, they try to go before a psychiatrist in hopes of being declared mentally incompetent, but anyone could fail this test. It's so easy to fake heart attacks and pretend to be loco, it takes no special training.

These same Veterans will still be playing sick three to five generations from now. You'll never cure 'em — they won't let you. Of all the Veterans whom have ever been under treatment, I've never heard of a single one ever being cured or even getting better. They won't die or get well either. They're interested in one thing — security without work. They are the modern day version of the hobo. They quit work to impress the doctors and it's paying off. A thief who steals from the rich feed his family is a better man than the fellow who fakes sickness for security reasons. He's lying as well as stealing and throws such a hardship on the country and his relatives. Lots of Veterans who were discharged on 20 to 30% disability are now getting 100% service-connected disability. Question: how can they claim service-connected on the last 70%? I know of no way except through a one-sided doctor. This should be stopped dead.

This business of paying the Veteran off by the month as long as he shall live has just got to be obsolete. They're about to wear the hospitals out. In a few more years and another hot war could bring the cost to near \$50 billion dollars per year to keep this system in operation.

The Veterans hospitals have become an assembly ground for the Veterans who seem to resent having served their country. As the pay gets bigger, the lines get longer.

I'm not saying these men didn't deserve a payoff, I'm saying they've had their share and a lot more. It's time to get rid of them and right now is the best time ever to pay everybody off at one time while the country is fairly rich. It can be done. It must be done and I believe it will be done. Where there's a will, there's a dozen ways.

I believe the best thing that could happen to this country in 1976 is to close every last one of the Veterans hospitals at once, turning them over to the states where they now exist, converting them into regional medical centers so all the people of this great land can benefit from them. Right now they do so little good for so few and are such a hardship on so many.

Let's pay all the Veterans off at one time and they will have money to pay their own way — pay their own hospital and doctor bills, buy a new home, start a small business and become tax-paying citizens instead of a liability to their country and a disgrace to their families.

The draft was supposed to be fair to everyone, so should the benefits. They drafted and hired us all on the same promise: If we were good sailors and soldiers, we wouldn't be sorry later. We were to be treated equally in the service and out. Some have already got their share, well over the \$100,000 mark, even past the \$200,000 mark.

I feel no guilt of any kind in asking our men and women in the White House to cut these men off now, then bring the rest of the Veterans up to their level of benefits, then stop the whole thing all together by closing the hospitals where they go to bellyache; and there's no time like the present.

Any boy or girl who spent from one to six years in any war, whether he was wounded or not, is deserving of a settlement the same as the slightly wounded Veteran. Let's remember this, Mr. and Mrs. North America, it's not our fault our buddies got wounded. They weren't hired out to us so we shouldn't be held accountable for their condition, that is if they have one. We were all working for the government and for the same reason. No one was under contract, no one should be favored. We were all subjected to the same dangers; no one should be shut out on account of someone else's misfortune. Let's keep remembering one thing — these so-called service-connected Veterans have been paid plenty for their little wounds. and several times over.

It makes one wonder — did our government want us all to be shot, crushed or blinded in order to get a just compensation? Surely not. Must the majority of the ex-servicemen and women step back into the dark and never get a dime except the \$21 per month that was given them while in service? Surely not. Is there really \$489,000 difference between a slightly wounded Veteran and one who may be a lot sicker and who served three to five years longer, but never gets a dime bonus because of the so-called service-connected disability loop-hole? Surely not.

This great windfall of riches that has fallen to this wonderful country since the last four wars can surely be divided equally among the servicemen and women who served so long to help make it all possible. It's not human for the government to write so many faithful Veterans off the books when they are constantly raising the benefits of a favored few, tied to the cost-of-living index. It's frightening, sad and unbelievable.

They say when you become 65 and have been disconnected all these years, you can make trip after trip to the Veterans hospital, take physical after physical for months after months and maybe the little one-eyed doctor will allow you a few dollars, and again maybe he won't. It depends on who you are. It's just that way.

So ex-servicemen and women, you don't have to wait till you're 65 to ask for your settlement. If you served just one hour for the protection of your country, you are entitled to a bonus without any strings attached. You were called upon to serve, laid everything down to go, your life was broken up never to be the same again. You have a settlement coming. It belongs to you. Don't feel bad in claiming it. Don't cut yourself off by selling yourself short.

Another thing I would like to mention is this: under this unfair so-called service-connected disability loop-hole mess, our female personnel can never get anything. They have been completely eliminated, blotted out entirely. As far as I know they weren't allowed to serve on the battle fields, but then, surely, we wouldn't want these girls to be shot in order to be eligible for benefits. They served and what a fine job they did. These girls are entitled to the same payoff as the Veterans with the belly full of guts who fakes his illness.

Almost every home in the United States today has a father, mother, husband, wife, brother, sister, son, daughter, or a grandchild who has never got a dime bonus for being so faithful to this good old USA. 1976 is a perfect year. As John Kennedy once said, "To begin all over again . . ." And if the President and Congress get with it like they did on our tax rebate, it should take less than a year to pay us all off.

In my own judgement, no Veteran, male or female, should be offered less than \$15,000 for one year's service, and not over \$100,000 for any war lasting six years or less. I think this amount would be close to right, after all, it's been due 30 to 40 years.

Some will say this country can't afford to pay all its ex-servicemen and women, but this is not true. By the time the government pays 2½ to 3 million Veterans \$600 to \$1200 per month for as long as each one lives, it will cost billions upon billions more than would paying us all off at one time then closing the books on every case, closing the free hospitals and doing away with paying thousands upon thousands of hospital staff to pamper these conscientious pretenders.

These faking Veterans are getting way beyond what it takes to live on. They drive cars 12 axle handles long, they have cabins in the mountains, lakeside cottages, boats big enough for a home, money stashed in the old sock. They say they are sick, but yet, they chase deer in the hills of Colorado, hunt grizzly bears in Alaska, fish in the Gulf of Mexico, ski on every lake and river for miles around, harvest a thousand acres of wheat, bale 15,000 bales of hay and travel 25,000 miles per year on vacation. And that's only day time functioning — at night they crowd the taverns to drink and dance till the cock crows. Mr. and Mrs. North America and all the ships at sea, how sick would you say these men are?

NOTICE — This message does not apply to our servicemen and women who are down and can't get up, the ones who are really and truly 100% disabled, the ones who are totally blind, completely paralyzed, no legs, no arms, no feet, no hands, deaf and dumb, and the insane. They are the only ones who are really disabled. They should always be remembered and taken care of to the utmost. They don't have to lie about their condition. You can see it. The rest who claim to be all in are giving us a snow job — a fact that everyone seems to agree on.

I want to ask that everyone who reads this message to write someone in Washington, D. C. or your State Capitol concerning this forgotten matter. Maybe we will get our bonus money before Christmas.

Taking the words of another great man — Walter Cronkite, "And that's the way it is this Bicentennial year of 1976."

Sgt. G. L. Ingram
Farmington, Arkansas 72730

George Ingram

P. S.

We all know— money un-earned and un-taxed carries A wallop 2 to 4 times that of money hard earned and fully taxed. So veterans who fakes for more and more is doing so because of fast living not hard living.

If these expensive veterans did it all— and deserve it all— Then why was the rest of us called upon to serve?

Fact is— The rest of us buried the dead, took care of the wounded, served 3 to 5 years longer, stayed 'till it was over and came home broken in half. But some-how they say we didn't do enough to be counted in the pay-off. Frightening, sad and un-believable.

Roughly guessing— From his induction to the grave, these tough faking so-called service-connected veterans will cost our uncle sam very close to 3 million dollars each. enough to pay over 100 veterans \$30,000 each in A one time pay-off. --- My buddies, What have we done to be crossed out for ever? Please write someone today concerning A onetime pay-off.

What will you do to help these fine girls and boys overcome this so-called service-connected loop-hole and this frightening, humiliation set back?

Let's have A one-time pay-off for all.

COSMIC STUDY CENTER

7405 MASTERS DRIVE, POTOMAC, MARYLAND 20854 - (301) 299-7158

March 19, 1981

TO: President Ronald Reagan and Cabinet Members
FROM: Cloe Diroll

Due to the urgency of the plea of the enclosed Communique to send copies to all government representatives, United Nations officials, World Peace representatives and all leaders of the nations, I urge that this matter be given TOP PRIORITY without any further delay.

Validity of the message of the Communique is substantiated by

- (1) The unique experiences and revelations of William Ferguson
- (2) Phase 1 of the 'Cosmic Plan for Planet Earth'
 - Government recognition of UFOs and acceptance of Space Beings by an enlightened public.

Both of the enclosed messages indicate that "an awakening has come at last to the population of the planet and an awareness of the purpose of help of a high order coming to mankind, ever closer and closer, every day, that passes" and that "humanity has been sufficiently advised through many movies, TV programs, the media, contactees, and so on" of the existence of Space Beings.

Now that the "acceptance of Space Beings by an enlightened public" has been fulfilled, all that remains to come to pass is "government recognition of UFOs."

I would appreciate the opportunity to discuss this matter with you.

Respectfully,

Cloe Diroll

Cloe Diroll

EXCERPTS OF MESSAGE CHANNELLED JUNE 25, 1980
THROUGH FRANK WINN FOR CLOE DIROLL

"...many of the skyships that have appeared in the skies of your planet have come from the Sun. Not only from the Sun, of course, some come from the Moon, some from Jupiter and other planets, Venus, and so on. Each of the planets has its own type of flying craft. However, for some hundred years now at least we have been pooling our resources in the defense of Planet Earth because of the extreme importance that this planet plays in the plan of the Solar and Galactic Councils.

...indeed, that photograph taken May 30, 1980 was particularly planned for you, Sister, because it was your own personal manifestation. You can tell people with truth that you were there, that Fred was a sceptic but he took the picture, and that clairvoyants have seen on the fourth dimension a large number of other smaller craft. Even those who are not clairvoyant can see the mass of energy and that is what it is, the mass of energy that ship put out, and it was photographed.

...As far as your own part in this project is concerned, my Sister, you were there at Petra, Jordan. It is a highly, highly magnetic area...We have used that area as a lighting beam, a guidance beam, for centuries because it is visible to us. What needs to be done--is never forcing it upon anyone. Only if you feel in your heart that it is appropriate to tell your story of being there, being photographed, and then producing the evidence, and the fact that we exist, and that we are concerned vitally with the destiny of this planet, and that we are working around the clock... to put forth our maximum effort to ensure peace. That is our major thrust.

So, point number one, the peace offensive, as you would call it, from the Sun. Number two, the fact that we do exist, that our craft do exist, and that as Master William Ferguson has said, we do have the capacity to change frequency from six to five, to four, to three if necessary. If the occasion demands it or seems to suggest the desirability of such a frequency-lowering and when we wish to, we reverse that process. That should be made known. That we are able through evolution--the fact that we are 25,000 years (to be quite conservative) ahead of Earth technology--able to control the frequency of our own consciousness vehicles at will. That should be known. Of course, Mr. Ferguson said that quite accurately, but I am confirming it now. It is a fact. If we do not wish to be seen, we simply rise from three to four or from four to five, whatever it takes.

...Humanity has been sufficiently advised through many movies, TV programs, the media, contactees, and so on, that we do exist. So we are continuing to confirm, reaffirm, and strengthen the public belief in our existence, because this will lead people to realize that the Earth is not the be-all and end-all. It is one tiny planet and yet tremendously important in that the destinies of the whole solar system, the whole galaxy, and the whole Cosmos are all inextricably interwoven with the destiny of the people on Earth now who have chosen to be here...I will not give my name, but simply say I AM THAT I AM."

"And the number of Celestial and Immortal Beings who were to create a phenomenon in the Earth's atmosphere was two hundred million. And their spacecraft were illuminated with radiance and color and energy, and radiance issued from the Beings' Consciousness. And a third part of the people subject to the Planet Earth were corrected by the radiance which issued from their Consciousness, for their power was in their Consciousness and in their radiance, and in this manner did they change the ones subject to the Planet Earth." --William Ferguson. 1959. Chapter 9.

THE NEW REVELATION BY THE REVELATOR HIMSELF

COSMIC STUDY CENTER

7405 MASTERS DRIVE, POTOMAC, MARYLAND 20854 - (301) 299-7158

MOTHERSHIP AND SCOUTSHIPS FROM THE SUN
PHOTOGRAPHED MAY 30, 1980 IN PETRA, JORDAN

COSMIC STUDY CENTER

7405 MASTERS DRIVE, POTOMAC, MARYLAND 20854 - (301) 299-7158

The purpose and goal of the Cosmic Study Center is to assure consummation of the

'Cosmic Plan for Planet Earth'

Phase 1 - Government recognition of UFOs and acceptance of Space Beings by an enlightened public.

Phase 2 - Adoption of the true model of the Cosmos as the basis of religion and science.

Born July 23, 1900, William Ferguson discarded his projection in 1967. His unique career began in Chicago as a teacher of relaxation. His first book RELAX FIRST was published 1937. In his book MY TRIP TO MARS, William Ferguson

- described his 1938 illumination of consciousness
- revealed the Center and Source of the Cosmos
- explained the technique of his 1947 teleportation to Mars
- disclosed the nature of the next evolutionary step of man.

In 1954, William Ferguson experienced five hours aboard a Venusian spacecraft with the Oligarchs of Venus, who explained how Space Beings function within interpenetrating dimensions of parallel universes. In 1958, Jesus gave William Ferguson THE NEW REVELATION BY THE REVELATOR HIMSELF, a decoding of the Book of Revelation in fulfillment of Jesus' promise

"the time cometh when I shall no more speak unto you in proverbs, but I shall show you plainly of the Father." (John 16:25)

Space People, Flying Saucers to Be Discussed

Miss Clo Diroll

Flying saucers and space people will be the subject of an address to be given by Miss Clo Diroll, director of the Cosmic Study Center, Alexandria, Va., at 8 p.m. Wednesday at the YWCA.

Miss Diroll, whose appearance here is sponsored by the Sioux City Spiritual Fellowship, will speak on the topic, "The Nature, Origin and Purpose of Space People and Their Mysterious Flying Ships."

In her lecture, Miss Diroll will discuss the following questions:

Are flying saucers interdimensional as well as interplanetary? Is synchronization of the vibratory rates of both earth people and space people required for mutual visibility? Is the invisible fourth-dimensional plane the parent of the material 3D world? What is the principle of the locomotion of UFOs—are they propelled, repulsed, or drawn to their destination?

Miss Diroll has given this lecture over American University's radio station WAMU in Washington, and interviewed on the subject over Chicago's WBBM.

The Sioux City Journal, Tuesday, July 19, 1966—A 9

People from Other Planets Visiting Earth 'Centuries,' Cosmic Study Speaker Says

By DARREL HORSTED

Journal Staff Writer

People from other planets have visited the earth in flying saucers for centuries, according to Miss Clo Diroll, of the Cosmic Study Center, Alexandria, Va.

Miss Diroll spoke at the YWCA Wednesday night. She was sponsored by the Sioux City Spiritual Fellowship.

"To us at the (Cosmic) Center, they seem like elder brothers, who have experienced all the sorrows and suffering that accompany the 'limited' consciousness of Earth people," she said. Space people have "gained spiritual wisdom and kindliness, and have volunteered to come here and offer assistance."

This assistance includes introducing "new concepts" by means of "telepathic" inspiration," she said. This assistance will help Earth enter into its next evolutionary step, according to Miss Diroll.

Miss Diroll said that space people live on a higher plane and they function at a faster rate of vibration.

The eyes of earth people can not see then when they operate at this faster rate, she said.

"In order to make their spacecraft and themselves visible to us, it is necessary for them to lower their rate of vibration or frequency to synchronize with ours," she said. "Conversely, when they disappear from our range of vision, they simply increase their rate of vibration until their original vibratory rate is resumed."

The power of an unidentified flying object (UFO) is derived from the use of magnetic waves, according to Miss Diroll.

"Each spacecraft contains a powerful electro-magnetic system having an instantly reversibly (magnetic) polarity from gravitational attraction to magnetic repulsion," she said. "This system also nullifies or suspends the pull of gravity and thus enables the ship to hover in mid-air and to move in any direction and at any angle."

"The planet Earth is the laggard in space travel," Miss Diroll said. She also said that Earth is known as the "prison planet" in the solar system because Earth is occupied with the "laggards" of the other planets.

Miss Diroll said that the UFOs have come from Mars, Venus and Jupiter, in addition to other planets, galaxies, and universes.

"It appears, however, that the space people will not be free to make themselves known to us in greater numbers until they have been recognized by the government and welcomed by an enlightened public," she said.

A S H T A R C O M M A N D C O M M U N I Q U E

A higher Command is present overhead everywhere upon the planet. There are thousands and thousands which make up this Command. Their authority controls the entire Space Program for the planet.

We have stated that mankind is responsible to himself to search out his weaknesses and to call upon the Higher Ones for strength to change for the better. Man is Master of his fate and Captain of his soul. We are accountable for all the great releases of knowledge that have been given to the planet century after century and civilization after civilization.

We have endured the ridicule and the foolishness of your media with long suffering and patience. We have endured while our representatives and those whom we have contacted have been swayed from their convictions by the eloquence of your federal officials. There have been times when we have been amazed that this could take place, but this is the way of your planet. In the coming decade there will be signs in the heavens that your glib-talking officials will be unable to deny. For an awakening has come at last to the population of the planet and an awareness of the purpose of help of a high order coming to mankind, ever closer and closer, every day that passes.

We would speak to your world leaders and the spokesmen of your great assemblies, and CHALLENGE them to trust our words and believe in our presence and begin to accept the help which we bring to your world. The worldwide problems that beset your United Nations on every hand can be solved in the unity and the cooperation of your people with your friends and brothers from other worlds. This ostrich-like position that has prevailed in the last two decades can no longer stand the test of events that are about to come to pass. Once again we extend the hand of friendship and an offer to share our intelligence, research, and our assistance in all of the programs that are underway for the benefit of humanity.

We only ask that you lay down your arms, that you lay aside your plans for nuclear destruction. That you cease to pervert the great discoveries of energies, and that you start to convert them for the benefit of all humanity. We call upon the military men of this planet to meet together in one place at one time and forge an agreement for worldwide peace that is not false words upon paper, but is the depth of feeling within the heart of every military statesman!

Because of your indifference and your ridicule to channel our words and our directives through the men and women of the land in an official capacity --

Our approach in an official way of many years ago was spurned by your global authorities.

Once again for a brief period, we extend to your President, the House of Representatives, the men of your Senate and all of your national leaders our hand of friendship and cooperation. In the name of the salvation of the life of humanity, we ask that you would receive our words and WELCOME US TO SPEAK IN YOUR ASSEMBLIES! WE HAVE THOSE WHO CAN WALK AMONG YOU AND NEVER BE NOTICED FOR ALL THEIR SIMILARITY TO YOUR OWN APPEARANCE. THEY CAN SUDDENLY APPEAR BEHIND YOUR ROSTRUM AND SPEAK TO THE MEMBERS OF YOUR CONGRESS. WE WOULD PREFER TO BE INVITED TO DO THIS. IF WE ARE NOT INVITED TO DO THIS, WE MAY HAVE TO ARRANGE OUR OWN OPPORTUNITY TO SPEAK TO THESE GENTLEMEN IN THE EARLY PART OF THIS DECADE. FOR THERE IS TOO MUCH AT STAKE ON A PLANETARY BASIS AS WELL AS INTERPLANETARY REACTIONS TO STAND BY WITHOUT AN EFFORT TO PROBE THE MOTIVATIONS BEHIND PRESENT WORLD DISORDER.

We send this message as an advance envoy and ask that all world leaders and their governments make a place for our spokesman upon their agendas.

IF THE SPACE IS MADE THE SPOKESMAN WILL APPEAR!

This message is sent to planet earth by the members of the Ashtar Command.*

PEACE ON EARTH!

GOOD WILL TOWARD MEN!

*Reprinted from "WORLD MESSAGES FOR THE COMING DECADE". Published by Guardian Action Publications, P.O. Box 333, Columbus, New Mexico 88029. Price \$4.20.

MEMORANDUM

THE WHITE HOUSE

WASHINGTON

April 23, 1981

To: Elizabeth H. Dole
From: Morton C. Blackwell 
Re: Letter from Laird Busse

The attached note indicates that I have spoken to Laird Busse. I don't believe that I have. Maiselle Shortley did talk to him.

Upon careful review of the materials from Busse, I strongly suggest that they be turned over to the Secret Service.
Here's why:

1. The man is clearly disturbed. He reports that he has had many breakdowns and been under psychiatric care.
2. He demands unspecified responses and says: "I have no desire to come to D.C. and unleash my Lightning and Thunder."
3. He has a fixation of some sort on the President: "Ronald Reagan is the first person I have seen capable of being my friend."
4. About a field medical officer he says: "I had to exercise extreme self-control -- I almost shot him."
5. About a doctor who he says used him as a guinea pig in the Philadelphia Naval Hospital he says: "I would still like to carve my initials on his forehead!"

I'm no expert on such matters, but this man seems in need of some close attention by the Secret Service.

FROM THE DESK OF

* August 30, 1982.
Iron Mountain MI
See Reverse Side

Jan Beaderstadt

Mr. Margoian,

Thank you for your recent letter. Of course, much of what you say is true. But there is nothing you can do about it. We have already won.

I publish a small newspaper in northern Michigan, and we are using our outfit to make sure that the people think what we want them to. All the other newspapers in the area are very helpful, of course. Soon the citizens will turn in all their guns, because of our editorials and stories about how dangerous hunting is. This is our mission in the Upper Peninsula. There are no open Jews (just secret Jews like myself) and none of our Black brothers likes to come up where it is this cold. So when the time comes, it may be harder for us to subjugate the white people who have not joined our cause unless they turn in their guns. We will get them to do this, though.

We are all laughing at you, now. Why not give up? We are in control of everything that matters. A whole

generation has been raised on our message from TV. They like to see "The Jeffersons" and other Black shows. We have convinced them all that Israel is our best friend in the Middle East. Everyone, including the whites, think what we have taught them to. Foolish people like you who fight the trend get nowhere.

Why not join us? I was not a Jew until I got into the newspaper trade. Then I saw what it would take to get ahead, and converted. The blood ritual is simple and relatively painless. Are you man enough to take it?

On the other hand, if you continue to defy us, that serves our purposes well. We can point to people like you and say "There is freedom of the press still." You play right into our hands.

Become a Jew. Take the easy way out. Have you ever touched a Black woman? It is a wonderful sex experience and it can be yours if you convert. You can share your seed with white men or Black ones, too, when you are with us. Consider it seriously.

JAN BEADERSTADT

THE WHITE HOUSE

Dear Mr. President:

On behalf of the more than

20,000 members of the New York Veteran Police Association,

I want to express our relief and joy at reports of your remarkable recuperation. I would also like to add that we support your endeavors to bring this Blessed Nation of ours back to economic stability, with the same strength and vigor as we worked for your election.

As experience Police Officers,

we concur with the experts, that the Secret Service, and, in particular, JERRY PARR, acted promptly and properly, keeping control of a volatile situation. There can be no criticism, constructive or otherwise. The Secret Service did its job.

The City Of New York, with its

Police Department, recognizes that public assemblage is a basic right of our people. However, without careful supervision, this right may unreasonably interfere with the rights of others and possibly result in a panic and/or mob action. These consider-

ations place obligations upon the Patrol Force of the local Police Department. It is, therefore, imperative that restricted areas or "frozen perimeters" be established. Members of the UNIFORMED PATROL FORCE should be assigned to the front and rear of the gathering. ALL UNIFORMED POLICE OFFICERS MUST ALWAYS FACE THE CROWD, keeping the assemblage under constant view. Anyone acting in an agitated or suspicious manner should be approached, questioned and, if the occasion requires, frisked, to determine if he or she is armed and, if necessary, removed.

As for the Press, members of the 4th Estate, shall be located in an isolated area with necessary Police Coverage. They shall wear their Press Identification on their outermost garments so that the ID can be readily and easily seen by the Police. Intruders shall be asked to leave.

I realize, Mr. President, that I may have written too much, but please understand, our concern is for you and this great Country of ours.

Respectfully,

A handwritten signature in black ink, appearing to read "Burton S. Borkan", with a stylized flourish at the end.

SUBJECT: TOXIC CHEMICAL CONTAMINATION OF GROUND WATER: ENVIRONMENTAL
PROTECTION AGENCY: OVERSIGHT

Honorable Anthony T. Moffett
United States House of Representatives
Washington D.C. 20515

PERSONAL

IN RESPONSE to letters addressed to
Senator Hatfield, Wash. D.C. April 9,
1981; and letters May 5, 81 from Dr.
Foege, M.D. & Dr. Bock, DDS, May 4,
81, CDC Atlanta Ga.

Dear Mr. Moffett:

This is to thank you for the copy of the minutes of the Hearing before
your Subcommittee July 24, 25, and September 18, 1980 regarding the
above subject. Even though this document is very informative, it is
noted that no mention is made in the 410 pages regarding the Health
hazard potential of the highly toxic Industrial Waste Fluoride Chemi-
cal contaminants namely: (1) Sodium Silicofluoride (2) Sodium Fluoride
and (3) Hydrofluosilicic Acid being added "illigally" to Public Drink-
ing Water Supplies nationwide with the Blessing of EPA and the Depart-
ment of Health & Human Services.

Please be apprised that the insidious aspect of ignoring the "health
hazard potential" of ingesting the above listed toxic chemical drugs,
whose quality control, safety, toxicity, efficacy and dosage effects
have never been scientifically tested, pharmaceutically certified, or
FDA approved for human consumption, the Public is taking an enormous
health risk.

Please be further apprised that Judge John P. Flaherty, Supreme Court,
of Pennsylvania, Decreed, 16th day of November 1978 "that no fluoride
shall be added by the defendant to the water supply treated at the
West View Water Authority's Neville Island facility," after 2800 pages
of testimony covering "Fluoride Harm" to the human body and human brain.
Please be further advised that almost in desperation, the defense brought
in a dentist who spoke vaguely of the alleged benefits of fluoridation
for the teeth. But Judge Flaherty made him step down: "the suit against
fluoridation concernd its dangers, not the benefits." "What good are
good teeth to a dead man?" the Judge asked. The Judge further stated,
In my view, the evidence is quite convincing that the addition of sodi-
um fluoride to the public water supply at one part per million is ex-
tremely deleterious to the human body, and a review of the evidence will
disclose that there was no convincing evidence to the contrary."

▶ The strong evidence against the efficacy and safety of the practice of
fluoridating public water supplies continues to be ignored by those
charged with the responsibility for public health measures.

Cont'd page 2

May 11, 1981

Since the subject hearing covered "groundwater pollution" problems in its reference to hazardous chemical wastes, NO MENTION WAS MADE of the HUNDRED MILLION POUNDS of point-source discharge of HIGHLY TOXIC 1000 ppm fluoride toothpaste solution being washed down the drain daily, to wit: The 1972 issue of the Drug & Cosmetic Journal reported that 116 million pounds of "stannous fluoride toothpaste" was produced in the United States in the year 1971. Ten years later (1981) it is safe to estimate that the amount of "fluoride toothpaste pollution" would be 10 times 116 million pounds or 580,000 TONS, LESS of course, the toothpaste children swallow which was reported to be a minimum of 3 mgs. (3 ppm dosage) per day during the experiment. Source: Prevention Mag. April 1974, Carlton Fredicks Ph.d. Reason is, TV commercials treat "Fluoride Toothpaste" as CANDY commercials. NO WARNING not to swallow the 1000 ppm toxic solution was cited. Please see exhibits (A) & (B).

A TOOTHPASTE article, Orange County Register Cal. April 19, 1981 reports that "...Crest after years of standing by "stannous fluoride" it has joined the other eight (8) manufacturers in using "Sodium Fluoride". NOTE: Sodium Fluoride Chemical unlike Stannous Fluoride is very highly soluble in water thus adding to the "contamination" of the groundwater supply nationwide.

Industry's waste fluoride garbage is poisoning our Air, Food and Water. Why, WHY was "FLUORIDE POLLUTION" omitted from the Subcommittee Hearing regarding NATIONWIDE toxic chemical contamination of public drinking water supplies? Please respond.

Respectfully yours,

/S/ Colonel George Lindegren (ret.)
Former Chmn. Citizens Committee
For Pure Drinking Water F. Wly. Ca.

► **Bad Toothpaste To Be Buried In Iowa City**

By a STAFF WRITER

IOWA CITY, IA. — The Procter & Gamble Co. of Iowa City has been given permission to bury up to 10,000 pounds of bad toothpaste a day in the city-operated landfill.

But only rarely will the company have to dispose of that much toothpaste, which contains small amounts of potentially dangerous fluoride, officials said.

B. Z. Karachiwala, chief of permits for the State Department of Environmental Quality, said Thursday Procter and Gamble asked for permission to take its "bad batches" of toothpaste to the Iowa City Sanitary Landfill.

"Every once in a while they do get a bad batch that doesn't meet their specifications," Karachiwala explained.

He said the company's spoiled batches of toothpaste can vary in size from 500 to 100,000 pounds, but approval was given for the company to take only 10,000 pounds a day to the landfill.

A "special waste" permit allowing the toothpaste to be taken to the landfill was issued for a one-year period that will expire Oct 15, 1979, Karachiwala said.

State regulations consider even toothpaste an "industrial waste," which requires that the state be notified of disposal plans, he said.

Karachiwala said the amount of spoiled toothpaste that can be taken to the landfill was limited to 10,000 pounds a day because toothpaste contains "sodium fluoride," which has been shown to kill rats when administered in large doses.

But individual tubes of toothpaste contain only "very, very minute amounts of fluoride, which is very good for the prevention of cavities," the official added. (#)

The toothpaste to be dumped contains less than 1 percent fluoride, (*) according to information given Wednesday to the Solid Waste Disposal Commission. However, that level is considered toxic to humans.

Karachiwala said Procter & Gamble must get separate approval from the state before it buries any other potentially dangerous substances in the landfill.

Procter & Gamble officials estimated that the large batches of bad toothpaste — ranging between 30,000 and 50,000 pounds — might occur only once every year or year and a half, Karachiwala said.

Smaller batches — ranging from 500 to 2,000 pounds — might have to be disposed of as often as once a month, Karachiwala said.

He said state officials usually try to "recycle" industrial waste, but said Procter & Gamble officials were worried about bad batches of toothpaste falling into "unwelcome hands."

That's why company officials wanted the material to be buried in the landfill, he said.

(#)Reportedly, Industrial Fluoride is "cumulative".

(*)1-percent fluoride=10,000 Parts Per Million (PPM)

■ COMMENT: Hundreds of tons of toxic Industrial Waste Sodium Fluoride is being added daily to Public Drinking Water Supplies Nationwide instead of LANDFILLS with the blessing of the U.S. Public Health Service and the Environmental Protection Agency. Reportedly, as of April 19, 1981, highly toxic non-clinically tested Industrial Waste Sodium Fluoride is being added to TOOTHPASTE. gl/

GOVERNMENT INVESTIGATION REVEALS...

Death In Tooth Paste!

by LESTER HAWES

Millions of people are slowly poisoning themselves to death. And you and your family may be among those millions if you follow the standard practices of dental hygiene by brushing your teeth once, twice, or three times a day.

The medical and dental world has just been rocked to its very foundations by a government sponsored investigation of tooth pastes, especially the ones that contain fluorides.

For fluoride is derived from fluorine, a deadly chemical to humans, and while not dangerous in small amounts, the government investigation of 156 cancer deaths which occurred within the last three years, indicates that fluorine accumulates in the human body

NEW
Kolynos
Fluoride
TOOTHPASTE

and eventually causes cancer or other illnesses which are fatal.

That is the view of scientists who are re-examining the presence of fluorides in our drinking water and in national brands of tooth-pastes.

The government investigation, under the direction of Dr. L. F. Chambers—who played an important role in revealing the dangers of thalidomide—is of importance to almost every American and of extreme interest to manufacturers of tooth pastes such as BRISK, CREST, FACT, GLEEM, COLGATE, LISTERINE, and KOLYNOS just to mention a few of the dentifrices containing fluoride that are now on the market.

The drug thalidomide was tested in clinical trials by 1,800 doctors over a period

Colgate
fluoride

of six years, and finally passed as safe for general use. Among those who took this tranquilizer were thousands of mothers-to-be.

The world will never forget the anguish and misery of the women who soon gave birth to malformed and limbless babies.

NOW, EXPERTS FEAR THAT AMERICA MAY FACE A NEW DANGER CAUSED BY THE CHEMICAL SODIUM FLUORIDE AND ITS COMPANION STANNOUS FLUORIDE USED IN TOOTH PASTES!

The investigation was quietly launched last June.

by the Pure Food And Drug Department after a survey of autopsy records showed that of all the cancer deaths that occurred in the U.S. between 1962 and 1965, 156 victims were found to have large amounts of fluorine deposits in the marrow of their bones.

More important, there were indications that showed that it may have been the fluorine that triggered the cancer in the first place.

Fluoridated water was immediately considered to be the source of the possibly fatal fluorine until it was discovered that 121 of the 156 victims did not live in cities where the water supply was fluoridated.

Doctors sought for a new source of the fluorine and found it in short order.

TOOTH PASTE! Aside from fluoridated water tooth-paste is the next largest source of fluorine.

Statistics—which can lie every which way—have shown that the fluoride has been effective to some degree. In cutting down the incidence of dental decay in children's teeth.

BUT IT IS ALSO A DEADLY POISON, and many responsible medical experts now say it can cause cancer, mongoloid births if taken by women, kidney disorders, impotency, bone diseases and even madness!

All over the world in the last 10 years, communities have been torn asunder by the battle over fluoridation.

Drawn into the battle against it have been a bizarre array of food faddists as well as respected, substantial elements of the medical community who, without rancor or hysteria, oppose fluoridation, either in our water system or in tooth pastes.

One of the most distinguished members of this group is Dr. Ludwik Gross, whose work on cancer viruses brought him a \$10,000 UN prize.

Dr. Gross quite simply

LISTERINE
Antizyme

156 ARE ALREADY DEAD (1967) OF FLUORINE CANCER

GLEEM
TOOTHPASTE

says: "I don't believe in using either the water supply or any popular dentifrice as a vehicle to administer drugs, especially in the case of fluoride which is not only a drug but a poison as well."

Moreover, he says, many of his colleagues of the highest standing agree with him but in the face of what he considers to be "really appalling" mass pressure by public health authorities, are afraid to speak out.

Fact

Another top-ranking medical specialist who has voiced his fears about fluorides in both water systems and tooth pastes, is Dr. Edwin L. Langrock, consulting obstetrician at Beth Israel Hospital in New York.

Dr. Langrock feels that the fluorides, both sodium and stannous, may have a malign influence on the embryo.

"Why, we don't prescribe an aspirin these days if we can avoid it," he said.

"There are many babies born deformed from causes we can't trace. We don't know for a certainty yet whether fluoride will cause deformi-

BRISK
TOOTHPASTE

ties — BUT WE ALSO DON'T KNOW THAT IT WON'T!"

The fear that fluoride might have some effect on the human system—even produce brain defects in the unborn child—is not entirely far-fetched.

In the test tube, at least, it is a powerful inhibitor of enzymes, active against a half-dozen of the body's catalytic agents.

Though the inhibition into the human system of the amount of stannous fluoride as contained in a tube of Crest tooth paste, may be small, there is strong evidence that the accumulative effects over a long period of time, can produce disastrous results.

It was partly on that score that the great Swedish chemist, Hugo Theorell, a Nobel Prize winner, persuaded his country's government to delay acceptance of any type of fluoride either in their water systems or in any product like tooth paste, until extensive field trials had been held.

"More research is needed before we can tell whether there are far-reaching effects," said Prof. Theorell. "Indications are that some terrible effects on the human system may show up after a number of years."

In other studies of fluoride toxicity, a pair of Oxford scientists reported that tiny quantities of fluoride slowed down the growth of human cells.

One of the scientists, Dr. Oliver Martin Thomas, has come out plainly against any type of fluoride.

"The addition of any type

Crest

of fluorides into water or food or tooth paste is something the human race will regret later on. The cumulative effects are far more deadly than anyone even thinks."

Many medical men throughout the world are horrified at the "popularity" of fluorides.

One of Britain's foremost authorities on cancer, Dr. Reginald Holman, Senior Lecturer in Bacteriology, United Cardiff Hospitals, is convinced that fluoride is dangerous.

In a paper on cancer, he writes:

"The deliberate addition of those poisonous substances, sodium fluoride into public water supplies, and of stannous fluoride in popular tooth pastes, with the intent of delaying the onset of dental decay is a most unscientific and unethical measure."

Fact

"Fluoride is a potent catalase poison and is cumulative."

Catalase is the vitally important enzyme which

defends our bodies against infection, and against diseases such as cancer.

If it is destroyed, the body is left vulnerable to infection.

Prof. Douw G. Steyn, Professor of Pharmacology at the University of Pretoria and vice-president of the International Society for

Colgate
fluoride

Research and Vital Substances, told a conference on fluoride research in Los Angeles, that fluorides fed into the female body can lead to the birth of malformed babies.

He said: "No expectant mother should drink either fluoridated water or use any fluoridated tooth paste."

He said that in the course of 25 years of research into fluorosis in man and animals, he had found bone disease in young children as early as three years after they had first started drinking fluoridated water and brushed their teeth with fluoridated tooth paste.

He added: "We discovered evidence that the fluorides adversely affected the sexual functions, with conditions like impotency, not showing up until years later."

"Fluoride is the most dangerous poison from the chronic toxicity point of view, as it accumulates in the body. For this reason, effects may be discernible only after 20, 30 or 40 years."

NEW
Kolynos
Fluoride
TOOTHPASTE

Despite all the millions of dollars spent to hushhush tooth pastes like Colgate, Crest and others containing fluoride, there still isn't one shred of scientific evidence to prove that they're safe.

So, why take chances? You've only got one life to live — or lose — and so have your children!

NORMAN LEAR
AND
THE LUNATIC LEFT
by
Victor Tory

1
file KOOK

At long last the "sub" of social subversion has surfaced...with the formation of Norman Lear's coalition of the commuliberal clergy. America's Moral Mainstream can now openly see, above water for the first time, those who have been torpedoing this Nation's morality by way of the pulpit and propaganda pictures, for the past half century.

Quite fittingly, the man who chose to surface this submarine of "smear and slander" for an open attack upon America's Moral Majority is none other than T.V. impresario, Norman Lear. Unquestionable, Lear has shot off more television torpedos at American Morality than any other man in the Twentieth Century.

Lear's shows: All In The Family, Maude, and Mary Hartman, Mary Hartman, are packed with propaganda and subliminal slams at our society. For years his pictures have been saturated with blatant, ruthless attacks upon the Christian-conservative community. Admittedly they scored some direct hits, but Christianity has survived and Lear WILL NOT!

As the political awareness of America's Christian Community has risen, Conversely Lear's shows have sunk. No longer able to strike from below, subliminally, Lear and others from the Lunatic Left, have surfaced in a very visible coalition called, People for the American Way, to openly attack the Christian Community. Reverend [REDACTED] of the [REDACTED] put it this way, "We're not so dumb as not to see what Lear's been doing with

the use of comedy. He's designed it to destroy our mores. He, quite cleverly, conceals his culture killing cancer in comedy. Lear's television shows portray Christians and conservatives to be either bigots or buffoons, or both...Like Archie Bunker. While his shows were popular they did a great deal of damage to the Christian community. There's no doubt that Lear is a genius at psychological subversion. He was very successful in his attack upon American morality in his day... but Thank God his day is done."

Actually, the Judeo-Christian Community should be thankful to Norman Lear for creating his "People's" organization. This coalition of the communalist clergy has done what the Christian community has failed to do for over five decades, and that is, to openly identify the individuals like Lear and organizations like the A.C.L.U. and the N.C.C. who overtly oppose a rebirth of Christian Morality in this country. So many of America's Christians were confused by the humanists who in the guise of Christ took over the leadership of the major denominations through the National Council of Churches.

In fact, the National Council of Churches (N.C.C.) was originally founded by Dr. Harry F. Ward - an identified member of the Communist Party. In 1908, Dr. Ward started the Methodist Foundation of Social Service, which in 1909 became the Federal Council of Churches; then under pressure in 1950 the Federal Council changed it's name to the National Council of Churches. Dr. Ward also played a major role in the formation of the A.C.L.U. and the American League Against War and Fascism, which under the leadership of Earl Browder became the Communist Party (U.S.A.)

Until recently, it never occurred to most Christians that Communists have in fact become ministers, teachin' and preachin' the gospel of Marx and Mao. Preachers don't become communists, communists become preachers.

Communism which openly vows to kill Christianity has assassinated well over 100 million people on this planet. The "People's" Republic of China mass murdered over 66 million alone, 20 million of which were Christians. The current communist "Kill Campaign" is even more ruthless proportionately in: Cambodia, Laos, and Afghanistan. They're using poison gas, and chemical warfare to annihilate all opposition in their push for world government. While here at home individuals like: Armand Hammer, Edward Lamb, and David Rockefeller escalate their aid to this avowed enemy.

What upsets Lear and The Lunatic Left is the fact that evangelicals like: Jerry Falwell, Pat Robertson, Dr. Carl McIntire, and Jim Baker, who represent America's moral majority have become aware... much too aware of the anti-American activities of the Trilateralists and their comrades in the cause working through Rockefeller's Council of Foreign Relations.

At long last this "Born Again" ministry is even becoming aware of the maniacal methods used to get across "the Marxist message" through the movies all across America. Tens of thousands of ministers are "waking up" and in turn shaking up their Christian congregations. In bringing about this "revelation" it's important that the Christian Clergy not forget the statement of Gus Hall, the 1980 American Communist Party Candidate:

"I dream of the hour when the last Congressman

is strangled to death on the guts of the last preacher and since the Christians seem to love to sing about the blood, why not give them a little of it? Slit the throats of their children and drag them over the mourners' bench and the pulpit and allow them to drown in their own blood; and then see whether they enjoy singing these hymns."

Since the first day the Illuminists created Communism to carry on their cause, Christianity has been spat upon, slaughtered, and slandered. Finally here in America the Christian Community is beginning to wake up to the fact that what they face is Organized Evil. That's why Lear, his comrades in the craft and the coalition of the Leftist Clergy is so frightened. The A.C.L.U. has even taken to running full page ads in the New York and Los Angeles Times attacking America's Moral Majority.

This deluge of defamation and denigration upon the Christian Community by the Lunatic Left has backfired. The Sleeping Giant has awakened. Things are still a bit hazy but the Christian Community is beginning to get the message that the same group of individuals who are involved in manipulating the media, manufacturing our money, controlling our commerce, and putting out poisonous propaganda through their publications are involved in the systematic sellout of our sovereignty to some sort of Sovietized World Government.

As for Lear and his "advisors" one only has to look at their past and present associations or the product they produce... to know them, and to know them well.

In any war, be it of WORDS or WEAPONS one's enemy is always on the attack. Christianity is obviously alien to these humanists; they're

on the opposite side, both politically and religiously. So Christianity should expect to be hit and hit hard. There's a world of difference between those who believe that the government should control the people--and those in the Christian community here in America who believe that the people should control the government.

The war is on! Christians have heard the call to arms. Lear's T.V. shows and others of that "alien ilk" cannot survive without Christian support and are targeted for the attack. Obviously the Christian community would be fools to buy any of the products of Lear's sponsors.

And without Christian support these "propaganda" programs will perish. The Christian community is just now becoming aware of who the advertizing enemy really is, but they don't have to fight them. They need only ignore them.

But it's very difficult to tell the players without a scorecard these days. With all the "deception by design" in politics, pictures, and all of the various products on the market the American Mainstream is somewhat miffed.

Obviously America's Moral Majority, must clear up this confusion in order to survive the organized onslaught against Christianity by such groups as the A.C.L.U. and The National Council of Churches.

Ira Glasser, Executive Director of the American Civil Liberties Union hopes to cripple the cause of ministers like John Hurt who heads up the Church of Christ in Joelton, Tenn. through various legal maneuvers. Hurt has hit the nail on the head. He's organized a campaign to break the backbone of those who sponsor the Anti-Christ onslaught by way of the boycott. In short his campaign is cutting off the Christian

Hurt targeted Warner-Lambert, General Foods Corp., and American Home Products, who sponsor such shows as Soap, Three's Company, and Saturday Night Live. After a meeting in July, Warner-Lambert pulled the plug on Soap, and it's dowry went down the drain. The boycott has only begun. Some experts guesstimate that it will be 20 times the present size, by the same time next year, when others like Jerry Falwell, of the Moral Majority, joining the crusade.

For the first time, in a half century, the mega-banker bunch in Manhattan is losing its grip about the throat of America. They're frightened, and they have good cause to be. With the defeat of so many of the Lunatic Left Senators, in this last election, Rockefeller's Trilateral Team can now see the beginning of the end. A Giant has been awakened. A Giant that Lear and the Lunicrats can no longer treat as a comatose Cyclops but a Giant they must take seriously. In the Land of the Blind, the One Eye is King.

There's more than enough concerned Christians in this country to take it out of the hands of David Rockefeller and his Trilateral team and put it back on the right track. And that number is increasing daily, as Christians become aware that the "Internal Evil" is organized.

Before the last election, the Christian community had a great deal of difficulty in accepting the fact that organizations like: The Council of Foreign Relations and the Trilateralists not only have the same basic goal of bringing about World Government, but are in fact responsible for funneling American money into the building of the Communist World.

Until ministers like: Jerry Falwell, Carl McIntire, Jim Baker and Pat Robertson laid it on the line that American Sovereignty was being sold out to the Soviets...Christians were confused. They just couldn't understand why so called "Capitalists" like: Rockefeller, Armand Hammer, Edward Lamb and others of that ilk would underwrite our avowed enemy by building the largest truck factory in the world at the Kama River in the Union of Soviet Socialist Republics and ship billions upon billions of dollars of our wheat to feed the Soviet Army. It's all so crazy. It out Hitlers Hitler.

The Lunatic Left is not content with a concensus...they want total control. They seek to ridicule or ruin, all those who oppose their quest for World Government. they seek absolutism in a society without diversity or pluralism, which incidently is the exact opposite of what Lear and his Klan claims.

If this were not true there would be no need for them to form an organization to oppose Moralism in this country. The fact that Lear's advisory board for the "People for the American Way" lists the Rev. M. William Howard President of the National Council of Churches and the fanatical father Theodore Hessberg, Pres. of the University of Notre Dame is no accident. For years the National and World Council of Church's puppet preachers have preached from their pulpit the gospel according to Lenin and Lennon.

It is very important that Christians not blindly retaliate against Lear, Glasser, and others of the Jewish faith because they head up some of the so called "People's" movements, like: N.A.A.C.P. and the A.C.L.U.

They do not represent the mainstream of America's Jewish community, any more than the Rev. Jim Jones "People's" organization represented the mainstream of America's Christian community ^{with} and the mass murder of his communized congregation in Guiana. These "People's" organizations may represent David Rockefeller's Trilateral Team or some sort of Commucapitalist consortium to gain world government, but they do not represent America's Moral Majority.

Lear and others of his ilk are isolated and should remain isolated lest they infect America's masses with their social disease. They are not moderates. They are megalomaniacs. They are THE LUNATIC LEFT.

Warning: New Types of Black Crime

Love Lorn columnist Ann Landers last year urged White people to be more tolerant of negroes. She said Whites should accept the "kind assistance" of blacks who offer help when women have auto trouble along the roadway. She also urged that Whites accept door to door black salesmen and sevicemen. It should be noted that Ann Landers is Jewish whose real name is Eppie Lederer. Her sister is "Dear Abbie", or Abigail Van Buren, whose articles follow the same line also advocate interracial marriage. SUCH ADVICE HAS LED TO SOME OF THE MOST VICIOUS BLACK CRIMES AGAINST UN-SUSPECTING WHITES THIS NATION HAS EVER SEEN.

TO: FBI & CIA. "WIRETAP" PHONES OF RAT
JEWS & NIGGARS. EXPOSE EVIL SUBVERSION.

.LIARS.

.CRIMINALS.

.NIGGARS CREATED BY SATAN.

In 1964, FBI Director J. Edgar Hoover called civil rights leader Martin Luther King Jr. "the most notorious liar in the country."

.SATANIC WHORE.

Ann Landers

Mongrels Browbeat Blonde

The self-hate program has a black, Asian and a Jew shouting insults at girl as part of "American Jewish Congress" course being taught in our schools. **WHITES ARE ALWAYS "GUILTY".**
