*Dad - You not sure.

think?*

TO: Helene von Damm
FROM: Stephen M. Studdert *SM*
DATE: April 8, 1981

As you may be aware, W. Clement Stone of Chicago has made available to Special Agent Tim McCarthy the use of Mr. Stone's condominium in Mexico, and The President instructed McCarthy to accept the offer and enjoy the rest in Mexico. McCarthy plans to go when he is further recuperated.

Helene, I wonder if it might not be appropriate for The President to send a thank you note to both Mr. Stone and to his daughter, who actually owns the condo?

Dear Mr. Baer:

You were kind to share so candidly your reminiscences of March 30th. As you know, that day was filled with many unanticipated events, and I am grateful that you were among those who gave of their time and talents on my behalf at the hospital.

From one former patient to another, it was indeed fortunate that the Lord was looking out for the both of us at times of urgent need.

Judging from your letter I can see you have a special gift of caring -- one which I know you share with many in your profession.

Again, I very much appreciate your warm words of support.

From one former patient to another, it was indeed fortunate that the Lord was looking out for the both of us at times of urgent need.

Judging from your letter ^{I can see} ~~Mr. Baer~~, you have a special gift of caring -- one which I ^{know} ~~realize~~ you share with many in your ^{profession} ~~capacity as a medical student.~~

Again, I very much appreciate your warm words of support, and hope you will accept the enclosed photograph which ~~comes with~~ comes with my best wishes.

President Ronald Reagan
The White House
1600 Pennsylvania Avenue
Washington, D.C.

I do not think you would remember me. My name is Andrew Baer and I am a medical student at George Washington University. I was the first person to meet you as you arrived at the Emergency Room on that frightening Monday just a few weeks ago. It happened to be my first day rotating through the service! Ironically, an hour before the hospital "white" phone rang I was having lunch with my fiancé who works at the hospital and commented how slow the day was going and at the dearth of interesting patients.

I will never forget the expression on your face as long as I live. Several weeks earlier, I had been hospitalized for an acute lung problem which made it difficult for me to breathe. At the time of its onset I did not know what the etiology was and could only think that I might die.

As a medical student I am proud to be a member of the community of professionals who could be of service in a time of national and personal crisis. I am also very proud to be an American and that you are our President. Personally, I love your style - your wit and common sense approach really

come through.

Although our national problems are very tough, and that there certainly are no easy answers, I am confident that your administration will accomplish a substantial amount in the coming years.

I really wish that I could meet you someday under different circumstances and "chew the fat" regarding the problems of the day. I know this is not too likely! However, I wish you the best of luck and the strength to accomplish your goals.

Sincerely,

Andrew Baer
