My fellow Americans, before getting into my subject, I want to speak about some special people. Four years ago today, a man tried to take my life, and I wouldn't be here were it not for your prayers, the great skill of the medical team at George Washington University Hospital, and the bravery of heroes like Special Agents Tim McCarthy, Jerry Parr, Police Officer Thomas Delahanty, and Al Antenucci.

They and you continue to be in my thoughts, as is another who was injured that day, my Press Secretary, Jim Brady. Nancy and I ask for your continued prayers and support for Jim and his family, and also for the family of Al Antenucci, the man who helped wrestle my assailant to the ground. Mr. Antenucci died last May. He was a proud American who never asked a thing of others, but who willingly risked his own life to save another.

Now, another subject. This week, the House joined the Senate in approving production of the M.X.-Peacekeeper missile, and sent an important signal: America will maintain deterrence by modernizing our strategic forces, and we will stand united behind our negotiating team at the arms talks in Geneva. And, by strengthening deterrence, we can ensure those weapons are never used and meet a crucial challenge to our shared bipartisan responsibility of preserving peace.

But another crucial challenge must be squarely faced. It's a challenge that I and members of my Administration will be
presenting to you with the utmost seriousness in the days ahead, for it goes to the heart of American security— the security of our land, waters, economy, and people.

I am talking about the Soviet-Cuban-Nicaraguan plan to destroy the fragile flower of democracy and force communism upon our small Central American neighbors; a plan that could, for the first time, bring tyranny to our own borders, carrying the same spectre of economic chaos, the same threat of political terrorism, the same floodtides of refugees we've seen follow every communist takeover from Eastern Europe, to Afghanistan, Laos, Vietnam, Cambodia, Ethiopia, and now Central America.

A key Soviet objective has long been to turn Central America into a beachhead for subversion. By tying us down in this hemisphere, by penetrating our vital sea lanes and crippling our ability to meet our commitments worldwide, the Soviets will find it much easier to project their power, to intimidate other nations, and to expand their empire.

I know many well-intentioned people would rather not accept these facts. But we who have the responsibility for governing cannot afford to be ostriches with our heads in the sand. We know that Soviet Foreign Minister Gromyko described the region on our doorstep as "boiling like a cauldron," and urged revolution; we know that the Soviets turned Grenada into a warehouse of violence; we know that, in the last 5 years, they provided more military assistance to Cuba and Nicaragua than we did to all of Latin America; and we know that the support Nicaragua gets from Cuba, Bulgaria, East Germany, North Korea, Libya, the PLO and
Iran is a threat to our security, because the communist dictators of Cuba and Nicaragua have not only pledged to transform all Central America into one communist state; they have been caught, forgive me, red-handed, trying to do just that.

Right now, Havana and Managua are waging a campaign of disinformation to cover up their deeds and reassure the American people with soft, reassuring words of peace. A secret Nicaraguan memo, leaked to the Wall Street Journal and reported yesterday, revealed how the communists have used propaganda to smear their opponents, tighten censorship, and confuse the outside world.

There are other examples of the regime's true intent. On March 1, exiled Nicaraguan leaders representing a broad pro-democracy movement met in San Jose, Costa Rica and made this offer: the freedom fighters in Nicaragua will agree to a cease fire if the communist regime will negotiate, permit free elections and a genuine democracy. The answer came back quick, loud, and clear -- forget it.

U.S. support for the freedom fighters is morally right and intimately linked to our own security. If we refuse to help their just cause, if we pull the plug and allow the freedom fighters to be wiped out by the same helicopter gunships the Soviets are using to murder thousands of Afghans, then our ultimate price to protect peace, freedom, and our way of life will be dear, indeed.

Nearly 24 years ago, President Kennedy, warning against communist penetration in our hemisphere said, "I want it clearly
understood that this government will not hesitate in meeting its primary obligations which are to the security of our Nation."

For my part, I want it clearly understood today that if we fail to meet this obligation then history will hold us fully accountable for the consequences, for we will have sent an unmistakable signal that the greatest power in the world is unwilling and incapable of stopping communist aggression in our own backyard.

Until next week, thanks for listening and God bless you.

U.S. support for the freedom fighters is morally right and vital to our own security. If we refuse to help their just cause, if we pull the plug and allow the freedom fighters to be wiped out by the same helicopter gunships the Soviets are using to murder thousands of Afghans, then our ultimate price to protect peace, freedom, and our way of life will be dear, indeed.

Nearly 24 years ago, President Kennedy warning against communist penetration in our hemisphere said, "I want it clearly understood that this government will not hesitate in meeting its primary obligations which are to the security of our Nation."
For my part, I want it clearly understood today that if we fail to meet this obligation, history will hold us fully accountable for the consequences, for we will have sent an unmistakable signal that the greatest power in the world is unwilling and incapable of stopping communist aggression in our own backyard.

Until next week, thanks for listening and God bless you.

My fellow Americans, before getting into my subject, I want to speak about some special people. Four years ago, a man tried to take my life, and I wouldn't be here today were it not for your prayers, the great skill of the medical team at George Washington University Hospital, and the bravery of heroes like Special Agents Tim McCarthy, Jerry Parr, Police Officer Thomas Delahanty, and Al Antenucci.

They and you continue to be in my thoughts, as is another man who was injured that day, my Press Secretary, Jim Brady. Nancy and I ask for your continued prayers and support for Jim and his family, and also for the family of Al Antenucci, the man who helped wrestle my assailant to the ground. Mr. Antenucci died last May. He was a proud American who never asked a thing of others, but who willingly risked his own life to save another.

Now, another subject. This week, the House joined the Senate in approving production of the M.X.-Peacekeeper missile, and sent an important signal: America will improve deterrence by modernizing our strategic forces, and we will stand united behind our negotiating team at the arms talks in Geneva. And, by strengthening deterrence, we can ensure those weapons are never used and meet a crucial challenge to our shared bipartisan responsibility of preserving the peace.

But now another crucial challenge must be squarely faced. It's a challenge that I and members of my Administration will be
presenting to you with the utmost seriousness in the days ahead, for it goes to the heart of American security -- the security of our land, waters, economy, and people.

I am talking about the Soviet-Cuban-Nicaraguan plan to destroy the fragile flower of democracy and force communism upon our small Central American neighbors, a plan that would, for the first time, bring tyranny to our own borders, carrying the same spectre of economic chaos, the same threat of political terrorism, the same floodtides of refugees we've seen follow every communist takeover from Eastern Europe, to Afghanistan, Laos, Vietnam, Cambodia, Ethiopia, and now Central America.

A key Soviet objective has long been to turn Central America into a beachhead of aggression. By tying us down in this hemisphere, by disrupting our vital sea lanes and crippling our ability to meet our commitments worldwide, the Soviets will find it much easier to project their power, to intimidate other nations, and to expand their empire.

I know many well-intentioned people would rather not accept these facts. But we who have the responsibility for governing cannot afford to be ostriches with our heads in the sand. We know that Soviet Foreign Minister Gromyko described the region on our doorstep as "boiling like a cauldron," and urged revolution; we know that the Soviets turned Grenada into a warehouse of violence; we know that, in the last 5 years, they provided more military assistance to Cuba and Nicaragua than we did to all of Latin America; and we know the support Nicaragua gets from Cuba, Bulgaria, East Germany, North Korea, Libya, the PLO and Iran is a
threat to our security, because the communist dictators of Cuba and Nicaragua have not only pledged to transform all Central America into one communist state, they have been caught, forgive me, red-handed, trying to do just that.

Right now, Havanna and Managua are waging a campaign of disinformation to cover up their deeds and reassure the American people with soft, reassuring words of peace. A secret Nicaraguan memo leaked to the *Wall Street Journal* revealed how the communists have used propaganda to smear their opponents, tighten censorship, and confuse the outside world.

There is another simple way to prove the regime's true intent. On March 1, exiled Nicaraguan leaders representing a broad pro-democracy movement met in San Jose, Costa Rica and made this offer: the freedom fighters in Nicaragua will agree to a cease fire if the communist regime will negotiate, permit free elections and a genuine democracy. The answer came back quick, loud, and clear -- forget it.

U.S. support for the freedom fighters is morally right and intimately linked to our own security. If we refuse to help their just cause, if we pull the plug and allow the freedom fighters to be wiped out by the same helicopter gunships the Soviets are using to murder thousands of Afghans, then our ultimate price to protect peace, freedom, and our way of life will be dear, indeed.

My fellow Americans, before getting into my subject, I want to speak about some special Americans. Four years ago, a man tried to take my life, and I wouldn't be here today were it not for your prayers, the great skill of the medical team at George Washington Hospital, and the bravery of heroes like Special Agents Tim McCarthy, Jerry Parr, Police Officer Thomas Delahanty, and Al Antennuci.

They and you continue to be in my thoughts, as is the man by my side who was injured that day, my Press Secretary, Jim Brady. Nancy and I ask for your continued prayers and support for Jim and his family, and also for the family of Al Antennuci, the man who helped wrestle my assailant to the ground. Mr. Antennuci died last May. He was a proud American who never asked a thing of others, but who willingly risked his own life to save another.

Now, another subject. This week, the House joined the Senate in approving production of the M.X.-Peacekeeper missile, thereby sending the Soviets an important signal: America will modernize our strategic forces and stand united behind our negotiating team at the arms talks in Geneva.

By keeping our strategic deterrent strong, we can ensure those weapons are never used and meet a crucial challenge to our shared bipartisan responsibility of preserving the peace.

But now another challenge to that shared, bipartisan responsibility, and one every bit as historic and urgent as the
M.X.-Peacekeeper vote, must be squarely faced. It's a challenge that I and members of my Administration will be presenting to you with the utmost seriousness in the days ahead, for it goes to the heart of American security -- the security of our land and waters, and of our economy and people.

I am talking about the Soviet-Cuban-Nicaraguan plan to destroy the fragile flower of democracy and force communism upon our small Central American neighbors, a plan that would spread for the first time to our own borders, but on a much larger scale, the same spectre of economic and financial collapse, the same threat of political terrorism, the same floodtides of refugees we've seen follow every communist takeover from the Ukraine, to Eastern Europe, to Afghanistan, Vietnam, Cambodia, Ethiopia and now Central America.

A key Soviet objective has long been to turn Central America into a beachhead of aggression. By tying us down in this hemisphere, by disrupting our vital sea lanes and crippling our ability to meet our commitments worldwide, the Soviets will find it much easier to project their power, intimidate other nations, and expand their empire.

I know many well-intentioned people would rather not accept these facts. But we who have the responsibility for governing cannot afford to be ostriches with our heads in the sand. We cannot deny that Soviet Foreign Minister Gromyko described the region on our doorstep as "boiling like a cauldron," and urged revolution; or deny that the Soviets turned Grenada into a warehouse of violence; or deny that, in the last 5 years, they
provided more military assistance to Cuba and Nicaragua than we
did to all of Latin America; or deny the support and manpower
Cuba and Nicaragua get from such peace lovers as East Germany,
North Korea, Libya, the PLO and Iran; or deny that the communist
dictators of Cuba and Nicaragua have not only been quoted
repeatedly pledging a revolution without frontiers to transform
Central America into one communist state, but have been caught,
forgive me, red-handed, trying to do just that.

Right now, Havanna and Managua are waging a campaign of
disinformation to cover up their deeds and reassure the American
people with soft, reassuring words of peace. There is one simple
way to prove their true intent. Recently, the leaders of the
pro-democracy movement exiled from Nicaragua met in San Jose,
Costa Rica and made this offer: the freedom fighters in
Nicaragua will lay down their arms if the communist regime will
negotiate, permit free elections and a genuine democracy. The
answer came back quick, loud, and clear -- forget it.

That is why U.S. support for the freedom fighters is morally
just and vital to our security. But if we refuse even this small
price to help others supporting our cause, if we pull the plug
and allow the freedom fighters to be wiped out by the same
helicopter gunships the Soviets are using to murder thousands of
Afghans, then we will find the ultimate price to protect peace
and our way of life will be dear indeed.

Nearly 24 years ago, President Kennedy warned against
communist penetration in our hemisphere and said, "I want it
clearly understood that this government will not hesitate in
meeting its primary obligations which are to the security of this Nation." And Congress passed legislation to this effect.

For my part, I want it clearly understood today that those who refuse to meet this obligation will be held fully accountable for the consequences, for we will have sent an unmistakable signal that the greatest power in the world is unwilling and incapable of stopping communist aggression in our own backyard.

Until next week, thanks for listening and God bless you.

The answer came back quick, loud, and clear -- forget it.

That is why U.S. support for the freedom fighters is morally just and vital to our security. But if we refuse even this small price to help others supporting our cause, if we pull the plug and allow the freedom fighters to be wiped out by the same helicopter gunships the Soviets are using to murder thousands of Afghans, then we will find the ultimate price to protect peace and our way of life will be dear indeed.

Nearly 24 years ago, President Kennedy warned against communist penetration in our hemisphere and said, "I want it clearly understood that this government will not hesitate in
meeting its primary obligations which are to the security of this Nation." And Congress passed legislation to this effect.

For my part, I want it clearly understood today that those who refuse to meet this obligation will be held fully accountable for the consequences, for we will have sent an unmistakable signal that the greatest power in the world is unwilling and incapable of stopping communist aggression in our own backyard.

Until next week, thanks for listening and God bless you.

MEMORANDUM FOR BEN ELLIOTT
DEPUTY ASSISTANT TO THE PRESIDENT
AND DIRECTOR OF SPEECHWRITING

FROM: FRED F. FIELDING
COUNSEL TO THE PRESIDENT

SUBJECT: Presidential Radio Talk: Nicaragua

We have reviewed the above-referenced draft Presidential radio address, and have no legal objections to it.

We note, however, that the language of the last paragraph of those remarks, which states, "I want it clearly understood today that those who refuse to meet this obligation [to defend the national security] will be held fully accountable for the consequences," may, in light of the recent MX debates, be viewed by some as "congress-bashing." Accordingly, we suggest that this language be specifically reviewed and approved by White House Legislative Affairs.
