Biography

Conference Description

The 1986 Anti-Drug Abuse Act called for the President to establish a national conference to share drug-abuse prevention methods, make the public aware of the extent of the problem and focus on solutions and parental involvement. It was established by Executive Order on May 5, 1987. The conference included six regional meetings held in late 1987 and a national conference held from February 28, 1988-March 3, 1988. This collection consists of records regarding the White House sponsored conference. Records are from the Chairwoman, Lois Harrington and various members of the Conference staff.

This preliminary arrangement was completed in 1991 and it is unlikely it will remain in this format at the time of final processing.
