### **BAILEY, NORMAN A.: Files, 1981-1983**

Planning and Evaluation Directorate, NSC (April 1981-May 1983)

International Economic Affairs Directorate, NSC (June 1983-October 1983)

Norman Alishan Bailey has combined teaching and business activities most of his life. He graduated from Oberlin College in 1953 where he majored in Political Science and Spanish. He attended the School of International Affairs, Columbia University, graduating with a degree of Master of International Affairs, specializing in Latin America and business. In the meantime, he joined a Strategic Intelligence Detachment, U.S. Army Reserve, participating in a study of the agricultural self-sufficiency of the Northeastern states and later served on active duty with the Army in London in a Joint Operational Planning unit, taking part in the preparation of contingency plans for a Middle East crisis.

Dr. Bailey's business career has included a stint as international economist for the Mobil Oil Company. During this time he received a Ph.D. at Columbia University. After leaving Mobil, Dr. Bailey formed an international investment consulting firm, Overseas Equity Inc. He joined the faculty of the City University of New York (Queens) and also became Research Associate of the Center for Strategic and International Studies, Washington, DC.

Dr. Bailey merged Overseas Equity Inc. into an existing international investment banking firm, becoming President of Bailey, Tondu, Warwick & Co., Inc. He spent one year in Washington working with the Center for Strategic and International Studies, the International Economic Policy Association and the Institute for the Study of Economic Systems. For three years, He was a Director of the Committee for Monetary Research and Education.

Bailey joined the administration for a short time in March 1981 in the Office of Policy Development. There is currently no collection of Dr. Bailey's work in the Office of Policy Development.

In May 1981, Dr. Bailey became Director of Planning and Evaluation of the National Security Council. He was responsible for international economics and "global issues" (science and technology, communications, law of the sea, nuclear proliferation, human rights, etc.) with his

principal responsibilities being monetary and financial matters, economic sanctions and strategies, and policy planning. In June 1983, the international economics part of Planning and Evaluation was made into its own office and Dr. Bailey was made Senior Director of International Economic Affairs and Special Assistant to the President. Dr. Bailey left the NSC staff at the end of October 1983, but remained a consultant to the staff. In 1984 Bailey worked as a member of the campaign staff and in October 1985 was appointed to the Presidential Task Force on Project Economic Justice.

As of 2003, Dr. Bailey was a Consulting Economist and Senior Fellow for the Potomac Foundation, Inc. and professor of economics and economic warfare of John Lenczowski's Institute of World Politics in Washington, DC.

The Norman Bailey collection consists of memos, correspondence, cables, news clippings, trip reports, and intelligence reports on international issues of human rights, nuclear proliferation, economic sanctions and strategies, and international economics. Bailey continued to use his Planning and Evaluation filing scheme after he became Senior Director of International Economic Affairs so there is no distinction made between these two offices in the collection. Some of his International Economic Affairs work product may be found in his successor's collection, the Roger W. Robinson files. Bailey's work as the chairman of the Sanctions Monitoring Group (SMG) is located Jack Matlock's SMG series. The Bailey collection is arranged in three series: the Policy Planning File, 1981-1983, the International Economics File, 1981-1983, and the Chronological File, 1981-1983.

#### SERIES I: Policy Planning File, 1981-1983 (3 l.ft, RAC Boxes 1-4)

The Policy Planning File consists of memos, correspondence, cables, news clippings, and intelligence reports on "global issues" such as import/exports, science and technology, communications, nuclear proliferation, economic sanctions and strategies, and human rights. This series is arranged alphabetically by large geographic regions (usually continent) and then chronologically.

#### SERIES II: International Economics File, 1981-1983 (6 l.ft., RAC Boxes 5-9)

The International Economics File consists of memos, correspondence, cables, news clippings, trip reports, and intelligence reports on topics dealing with international economics, specifically, energy, trade, global negotiations, international debt, oil and gas policy, technology transfer, nuclear cooperation, and the Cancun, London, Ottawa, Versailles, and Williamsburg Summits. It is arranged alphabetically by subject and then chronologically.

#### SERIES III: Chronological File, 1981-1983 (5.6 l.ft., RAC Boxes 10-15)

The Chronological File consists of memos, correspondence, weekly reports, travel authorizations, and notes from Bailey regarding his work both policy planning and international economics. There is a document log filed at the beginning of each month (except for the last month, October 1983). This series is arranged chronologically.
