CABINET AFFAIRS, WHITE HOUSE OFFICE OF: Records, 1981-1988

The material within the Cabinet Affairs office records is predominantly from the first administration. After Craig Fuller left Cabinet Affairs to become the Chief of Staff for Vice President Bush in early 1985, the office underwent a structural change. Alfred Kingon became the Cabinet Secretary with a small staff and the Office staff – already small – was reduced even further.

In addition, the Cabinet Council structure was changed by new Chief of Staff Donald Regan to just two – the Domestic Policy Council and the Economic Policy Council. This required much less tracking and coordination by Cabinet Affairs staff. Nancy Risque took over the post of Cabinet Secretary in March 1987 and the staff was reduced even further. Material for this time period is concentrated in staff collections rather than the office.

This collection is arranged into eight series:

SERIES I: Calendar of Events, 1981-1983

This series contains material relating to calendars of events for the White House, the President and agencies. It ends in July 1983 and is arranged chronologically.

SERIES II: Issue Tracking, 1981-1985 – This series contains material relating to computer-generated reports regarding pending and upcoming agency issues. The reports are from July 1981-March 1985. The material is arranged chronologically.

SERIES III: Subject File. This material is arranged alphabetically.

SERIES IV: Cabinet Councils, 1981-1987

This series contains material relating to minutes of Cabinet Council meetings for 1981-1982, Cabinet Council upcoming schedules for 1983, 1984 and a review of yearly actions for the Domestic Policy Council and the Economic Policy Council in 1986 and 1987.

SERIES V: Southwest Border Initiative, 1983

This series contains material relating to an economic initiative to strengthen the border towns with Mexico known as the Southwest Border Initiative. Material covers a general description of the operation, summary and weekly reports, state coordinators and correspondence. Vice President Bush was heavily involved with this project.

SERIES VI: Nuclear Waste, 1986

This series contains material relating to the reports on potential nuclear waste sites within the United States.

SERIES VII: Personnel, 1981-1987

This series contains two set of personnel files on Office of Cabinet Affairs staff members for the beginning of the administration and from the later part of the second term. It is arranged alphabetically.

SERIES VIII: Displaywriter Diskettes, 1981-1989

This series contains IBM Displaywriter 8" diskettes. At the present time the Library does not have the capability to read these diskettes.
