Voice: That's right...

Haig: And that ought to be the next time anybody opens their yak...

Voice: I think going up and subjecting anybody to questions up there in that bear pit is a mistake now because nobody has enough information in which to answer questions and anything you want to put out--just a piece of paper handed out with no questions, I think, would be the preferred format.

Allen: Let's just get them to take it out--let them take it out of the area/name (?) multiple voices...we'll just get somebody from the staff...

Murmur of several voices--nothing coherent....

Allen: Here's another one here that's leaking and...take this out and get it replaced, would you please...get some more coffee and...

Haig: Now, if a submarine comes in closer...let's talk about
it...if we're going to have an additional alert, until
the Vice President gets here...we'll talk about it.

Allen: Well, in any case, it would be done after dark if you're

Voice: The reason that I asked to have the move to the plane is because of the incident and I would continue to take that position until I know absolutely definitely that it's an isolated incident which I think it is. But I don't know that yet, and I don't want to take any kinds of risk. The risk of some newspaper story or some rumor is a hell of a lot less than not having the things in place.

Voice: You got some news Dave?

Voice: Bulletin, hold on we got something here.

Voice (from TV): is undergoing surgery at GW hospital. A Secret Service Agent from Chicago was on the Presidential Security detail, Timothy McCarthy suffered a chest wound. He is at GW hospital and his condition is listed as stable. The D.C. police officer, Thomas Delahanty was listed critically at first, listed as critical and he is now in serious condition. He has been a canine officer for some years on the D.C. police force and --

Voice: You better read this, one would say present capability, say that again from me.

Allen: Jesus Crhist. I didn't know he was going to make any God damn statement up there Cap and sorry I'm not like a watchdog. Shit, I thought he was going to pull Speakes off, I didn't know that Speakes had gone up to make a statement. Your doing what's prudent and --

Voice: Rumors are unfortunate but it's better to have a God damn rumor that you can deny later than --

I don't have any problems about that but I don't want to have the worry about whether somebody's going to have a rumor going or whether or not he has made a correct or incorrect statement dictates the decision as to whether we put this stuff in the air or not.

Voice: Now, ~~I think~~ that's a very minor point. Now on the KNEE CAP, we can certainly wait on that because they can get that up but with the SAC notification these fellows would be in the plane.

This condition will prevail until I advise them that there is no longer any need for it. The submarine position remains essentially unchanged. [REDACTED] minutes, forty-eight seconds and all the commanders in chief have been talked to from the military command center, and they are all personally alerted, they are all personally increasing the degree of intelligence gathering that they would do normally they are not making any other change and there's no technical change in the alert conditions.

Voice: Alright now, they put out the statement on the President
so we're going to put it out upstairs.

Voice: Now as long as its the same thing.

Voice: We got to get it straight on Brady before we do.

Voice: Well we just did didn't we. Well it's been confirmed by Prosperi.

Voice: Prosperi didn't put anything out here.

voice; Ed and Jim they want us to repeat -- stay close, Larry what are you going to say.

Voice: The President is still in surgery and it will be a while but the doctors have issued a preliminary report to Mrs. Reagan and have assured her that his condition remains

Voice: Now where did you get that?

Voice: Dave got that over the phone from --

Voice: That statement came from the hospital and they asked us to repeat it as soon as they put it out over there. They just put it out over there, right?

Voice: That's the statement they gave us to put out.

Voice: That's no problem.

Voice: Why should there be a problem.

(mumbling in the background about Prospero)

Voice: He is apparently in this building.

Voice: Prospero did?

Voice: Prospero is the one that put it out according to this, now let's find out. Now I'm sure he got word from back there when the rumor passed around.

Voice: Well I just talked to Prospero. He's right outside the door there and the issue is whether their trying to get a confirmation on Brady.

Voice: Well then we got to correct that.

Voice: We don't know what's correct. They don't have a press person.

Voice: How did David come to that information.

Voice: There has been talk back and forth asking to see if we had a report --

Voice: We did not put any reports out.

Voice: Anyone speaks around here without -- (drops coffee cup)

Allen: Well Al I don't know how they have done it but my impression was that Prosperi was over at the hospital and not here and had no knowledge of his being here. He was outside the door someplace. Well I'll find out what that is.

Voice: They're out getting him now Dick.

Voice: Lyn says this is all he is giving. Lyn says it is untrue about Brady.

Voice: Alright, you just correct it. Just say, the report given on Mr. Brady is erroneous.

Voice: Now let me tell you the facts. Jim Brady is still in surgery, he's in critical condition, he is not dead, we are having it corrected in the press room right now and that's one of the great dangers in walking out of here and saying a damn thing to anybody.

Voice: Well, we don't know how that got out. You see, even the Secret Service channel could be, could have been responsible and overheard. Who knows on an open wire. Everybody tuned to the frequency can hear a report about -- Here it is Howard Baker announced that Jim Brady is dead. Ron McMahon announced it. Within minutes white house aid David Prospero also told reporters --

Voice: Now what happened that the guy, you know these things happen. The press guy asked our fellow after hearing that report and he shook his head, he didn't know what the hell to say and they guy ran with it. So there is no personal culpability here and just --

Voice: I just want to point out that at 1719 this was on the wire and it was from Senate Republican leader spokesman. So it didn't come out of here. It was confused.

Voice: All we have to worry about is no more and everybody, nobody spek to anyone unless there cleared, if that's what they are going to do.

Voice: Do you have the schedule for tomorrow.

Voice: Well, there has probably been no adjusted schedule but Cabinet session is in order as one of the first items of business tomorrow. Well, look rather than get a crowd down here why don't we just decide what recommendations to make to the Vice President when he arrives. Let the final schedule be subject to his sign-off. Recommendations would include a briefing in the morning, national security briefing in the morning, your trip is now at risk obviously and followed by a Cabinet session.

Voice: And I think we ought to think of recommending a joint leadership.

Voice: Bring in the leadership.

Voice: With the Cabinet.

Voice: I have 8:30 am leadership meeting with just Republican leaders.

Voice: I ain't going to have both.

Voice: Let's put that up as one of the suggestions. We are going to ake some questions.

Voice: What time is he do here? The Prime Minister.

~~TOP SECRET~~

~~TOP SECRET~~

Voice: Van Agt?

Voice: Yeah, we should probably continue with that Van Agt meeting with the Vice President seeing him in his office. So we have briefing, just a staff briefing, Baker, Meese, Deaver staff briefing in the morning then a National Security Briefing

Voice: He'll probably be out at the hospital.

Voice: OK we'll leave that as an option whether he wants to take that or not. The National Security Briefing. The Cabinet plus leadership meeting.

Voice: Are we going to have them all in at one time or separately?

Voice: Well, you got, what is the, how many does the leadership consist of Max.

Voice: You got the big five to start and you go as deep as you want to.

Voice: Then we better do that as in series. Then let's do the Cabinet first and then the leadership. What's the Van Agt schedule? What time is Van Agt due? Does anybody know?

We'll find out what time that Van Agt meeting -- Working lunch I know already. Well we could probably keep that schedule all right, couldn't we.

~~TOP SECRET~~

Voice: Yes unless the Vice President didn't want to have a lunch and have it shorter.

Voice: Among cancellations you have the Vice President's trip, that's easy that's not this week. Your trip is clearly at risk and we want to evaluate that one overnight. On the other hand it might make a hell of a lot of sense for somebody's going to ask you that question very soon as we regain our senses here tonight or tomorrow.

Voice: I think it's premature to say yet. Because there are two things in that risk, one is the Polish situation and of course this. I would hold off.

Voice: You will not comment one way or the other then.

Voice: That's right.

Voice: Then your press guys will know how to take care of that. Afternoon we should leave basically free. What else is on the Vice President's schedule tomorrow Dan.

Voice: I really don't have it. Jennifer's got it on the plane with her.

Voice: But there was to be an addnouncement on that productivity thing.

Voice: I imagine Baker and Meese are already well at work on that. Would the President typically be moved to Walter Reed under these circumstances or would he be left for a few days probably left at GW.

Voice: I'm sure he would be in GW for at least a few days, two days. They won't move him.

Voice: Any other hookers for the week that are big that the Vice President ought to focus on.

Voice: I'd have to have another look at that schedule.

Voice: Here's a Bill that technically needs to be signed by tomorrow. Other than that in checking the system we turned up nothing.

Voice: Can I change this to CBS, they say CBS is giving better coverage.

Voice: Let's do it.

Voice: 9

Voice: Do you want to turn it up.

Voice: I think we should cancel that. I think we should put that in abeyance. This is the Van Agt arrival tomorrow which was fanfare and everything else. We definitely should not do that, and we could have a diplomatic entrance arrival but it will be very subdued and bring him inside. Everything will take place inside. The talking points, Janet, the talking points for Van Agt's arrival or meeting should be gotten up to the Vice President's Staff and ready for the meeting and for the departure ceremony. Dick has them. Janet, Dick Darmon has them. We will just transfer them. 11:45 is Van Agt's arrival time. So we would cancel the fanfare and the arrival and just do everything inside the diplomatic. Well of course Meese and Baker always make those determinations but we should be in a position to suggest to them and to the VP and then a staff briefing and national security briefing, Cabinet then leadership

then Van Agt. That is enough for the morning. There will be enough else doing in the morning.

Voice: Are the workmen scheduled.

Voice: 8:30

Voice: We're saying hold two successive ones rather than the Cabinet. We have different kinds of authorities you are looking at. Different things your going to say to the Cabinet. But the Cabinet should be met before the leadership. Staff, Cabinet leadership, Van Agt.

Voice: What are you going to do?

Voice: Let me just say something here thats awfully important on this issue that you've been working with. Nobody should say anything about transfer of authority. Nobody say anything about it. Don't even get into a discussion with respect to it. We have got an awful lot more to know and its not in our interest to have that done prematurely or they even get a question about it raised.

Voice: What if you get a question about the procedures.

Voice: Say they are well known period.

Voice: On the schedule tomorrow I think we have to get _____ on that. It seems to me that it would be proper courtesy to get Deaver to approve any changes.

Voice: Yes. Deaver, Meese and Baker together decide. Those are recommendations, that's not a determination.

Voice: What will happen is we'll have the VP here first and he shapes his schedule the way he wants it and then Jim and Ed will be in here this evening and if they have a problem at least _____ and do it.

Voice: These are recommendations only. That's all they are.

Voice: Just so they all know what the problems are. That's the important thing.
