MEMORANDUM

TO: Members, Public Diplomacy Working Group

FROM: Parker Borg, Chairman

SUBJECT: Committee Meeting, Wednesday, November 6,
3:00 PM, Room 2236

Following is the agenda for the next meeting of the full committee:

- 1) Progress report from each of the working groups.
- 2) Preparation of an overall interim committee report for the IIC and the I/GT.
- 3) Discussion of the Vice President's Task Force.

Each of the Working Group interim chairmen should prepare a written report of proposed action items based on the respective objectives and functions in the Structure and Organization Memorandum. I recognize that many of these proposed action items are necessarily preliminary and tentative. Nevertheless, such specific statements should provide a focal point for discussion of the direction we intend to follow. They will provide the basic components of the overall interim committee report.

MEMORANDUM

October 28, 1985

TO: Participants at Maritime Security Meeting

FROM: Robert B. Oakley
Chairman, Interdepartmental Group on Terrorism

SUBJECT: Results of Meeting on Maritime Security,
October 28

At today's meeting, it was agreed that we would set up a Working Group to 1) assess the vulnerabilities of ports and shipping to terrorist threat, domestically and internationally and 2) review the various recommendations to improve port security.

The Working Group will be chaired by Phil Hazeltine, Deputy Assistant Secretary for Policy, Department of Transportation. Other members:

<u>Department</u>	<u>Bureau</u>	<u>Name</u>
Transportation	MARAD	Garrett Brown
	Coast Guard	Como. Peter T. Rots
CIA	NIO/CT	Charles Allen
Justice	FBI	Robert Heibel
State	Economic	Jeff Shane
	M/CTP	Robert B. Bentley
Treasury	Customs	John Hurley

The Department of Transportation agreed also to invite the Navy and possibly the FAA to participate in the Working Group.

The first task of the Working Group would be for the CIA to provide an assessment of security at ports around the world.

The Working Group would also identify any gaps in existing regulations or legislation and suggest ways in which these deficiencies might be corrected.

The Working Group report would be ready by mid-January, in time to be the basis for U.S. participation in the IMO meeting of the Committee on Maritime Security at the end of January.

With respect to the IMO Assembly next month, it was agreed that Dave Schiele of IO would prepare a cable advising selected countries of the points we wish to raise. It was decided that the U.S. would press the IMO to issue more precise international standards on port security.

RE: Legislative Initiatives and Terrorism

FYI, Treasury's views on one recent piece of terrorism legislation.

It seems to me that the various pieces of terrorism-related legislative ideas being introduced on the Hill ought to have a better coordinated Administration response than the rather uncertain, unreliable OMB clearance process for legislative comments.

It ought to well serve the IG/T if individual agency views on terrorism bills were solicited through the IG/T members in addition to the OMB process. We could resolve differences at the policy level (I hope) and drive the position being taken by the Administration rather than allowing OMB to "piecemeal" our views on terrorism bills.

Perhaps agency views on terrorism related bills could be circulated among IG/T members as a matter of SOP. We would not need to have meetings unless significant differences in key views had to be resolved. Written views, even telephone calls, would probably suffice in most instances.

DEPARTMENT OF THE TREASURY
OFFICE OF THE GENERAL COUNSEL
WASHINGTON, D.C. 20220

23 SEP 1985

Director, Office of Management and Budget
Executive Office of the President
Washington, D.C. 20503

Attention: Assistant Director for Legislative Reference

Dear Sir:

This responds to your request for the views of the Department of the Treasury on the Department of Agriculture (USDA) draft report on H.R. 725, a bill, "To prohibit the importation into the United States of goods that are the products of countries that aid or abet acts of international terrorism against the person or property of United States citizens."

Treasury objects to the proposed report of the Department of Agriculture.

The Department of the Treasury supports the policy behind H.R. 725 because it would create additional nonmilitary options for the President to use in combatting terrorism. We believe that the bill is fully consistent with achieving the President's objectives in the battle against terrorism: objectives that have been described both in his public statements and through classified directives.

It should be noted, nevertheless, that Treasury opposes the means by which H.R. 725 authorizes the President to combat terrorism. [REDACTED]

[REDACTED] There is no provision for covering foreign employees or agents of United States citizens, nor is there any coverage for United States Government employees, agents or property. Moreover, there is no guidance given on what quantum of evidence the President needs, if any, to prohibit importations.

We also believe that certain comments in the draft USDA report concerning the International Emergency Economic Power Act ("IEEPA"), 50 U.S.C. 1701, et seq., should be clarified in order that a report by USDA reflecting the Administration's goals in combatting terrorism would not reflect a misunderstanding of IEEPA.

The fourth paragraph of the draft report states that the President "currently has authority to regulate or prohibit imports from these countries, including his

authority under [IEEPA]." This statement, though literally true, may be misleading. The authority granted by IEEPA is only available if the President declares a national emergency with respect to an "unusual and extraordinary threat, which has its source in whole or substantial part outside the United States, to the national security, foreign policy, or economy of the United States. . . ." IEEPA, sec. 202, 50 U.S.C. 1701(a). The implication in the draft report that IEEPA authority is currently available for anti-terrorism purposes and that IEEPA constitutes a literal substitute for H.R. 725 is inaccurate.

In addition, the last sentence of the fourth paragraph states that "[u]nilateral action taken under H.R. 725 would be unlikely to influence affected governments. . . ." (emphasis added). Actions under IEEPA, as suggested by the first sentence of the paragraph, also are "unilateral." The USDA report should avoid any implication that unilateral economic sanctions are ipso facto likely to be ineffective, since the Administration currently has several such programs (see, e.g., 31 CFR ch. V), including the recently promulgated Nicaraguan Trade Control Regulations.

Sincerely yours,

Margery Waxman
Deputy General Counsel
