INFORMATION

MEMORANDUM FOR THE PRESIDENT

FROM: WILLIAM P. CLARK *wpc*

SUBJECT: Your Meeting and Photo with Japan's
Kabuki Dancers -- Friday, July 23,
1:15 p.m., First Lady's Garden

On Friday at 1:25 p.m. in the First Lady's Garden you will meet and be photographed with Japan's Kabuki dancers. You will be introduced by Ambassador Okawara of Japan, and Mr. Nagayama, leader of the delegation, will then present you with a pictorial book.

Kabuki is a 400 year old theatrical art that combines acting, music, and dancing. It is to Japan what Grand Opera is to Italy. It might be considered a "singer's theater", with the special skills of great star performers taking precedence over all other aspects of the production. Kabuki is "operatic" in its brilliant spectacle, large casts, and theatrical staging, and the acting style is contrived to play directly upon the passions of the audience.

The "Grand Kabuki" opened Tuesday evening, July 20, in the Opera House of the Kennedy Center.

Attached at Tab A are talking points and 3x5 cards for your use.

PRESIDENTIAL REMARKS: KABUKI WELCOME
JULY 22, 1982

To welcome you here today is indeed a great pleasure for me both as President and also as one who is deeply interested in the art of entertainment. We are grateful you've come to America to share your talents and introduce us to Kabuki, a 400-year-old art form that is little known here. I wouldn't be surprised if, by the time your tour is over, there's a tidal wave of interest in traditional Japanese entertainment.

To most Americans, Japanese history before the 19th century is clouded in mystery and romance. Your tour should help us better understand the flavor of those days and the history of the Japanese people.

We are especially honored that such a renowned troupe should be here to introduce us to Kabuki. When Prime Minister Suzuki visited, he reminded us of the vigor and vitality represented by Japan and the United States. Well, we are pleased that you now visit to share the vigor and vitality of Kabuki with the people of the United States. I wish you good luck in your performances and a pleasant time while you are with us. Thank you for this privilege of peeking into the soul of Japan.

MEETING WITH THE ADMINISTRATOR AND DEPUTY ADMINISTRATOR
DESIGNATE OF THE VETERANS ADMINISTRATION

DATE: July 23, 1982
TIME: 2:00 PM (15 minutes)
LOCATION: Oval Office
FROM: Craig L. Fuller 

I. PURPOSE

To meet with Robert Nimmo, Administrator of the Veterans Administration, and Everett Alvarez, Deputy Administrator Designate

II. BACKGROUND

Robert Nimmo will brief you on the following issues of importance to Veterans:

1. Aging Veterans
2. VA Health Care System
3. The Construction Program
4. Agent Orange
5. Vietnam Veteran Outreach Centers
6. The Veterans Administration-Veteran Group Relations

A number of national Veterans organizations will be meeting in the upcoming weeks; therefore, this is an appropriate time to exchange views on issues concerning Veterans.

III. PARTICIPANTS

Robert Nimmo, Everett Alvarez, and Craig Fuller

IV. PRESS PLAN

White House Photographer

V. SEQUENCE OF EVENTS

Robert Nimmo will brief you on important Veterans issues.

Background on Issues to be Discussed
Supplied by the Veterans Administration

1. The Aging Veteran

Issue: Assessing and preparing for the future needs for VA services that are arising as a result of the aging of World War II and Korean War veterans. It will be necessary to establish long-term plans and programs for the next three decades to address the aging veteran phenomenon.

2. VA Health Care System

A recurring issue surrounding veteran health care is the maintenance of an individual comprehensive health care system for veterans. There is great sensitivity among the veterans organizations and the Congress to any discussion of "mainlining" veterans medical care into private sector facilities.

3. Construction Programs and the Need for the Construction of New VA Health Care Facilities

Construction programs and the need for the construction of new VA health care facilities, or the modifications of others, is difficult to properly validate. The VA has initiated a revalidation process for construction projects under which multidisciplinary teams are comprehensively reviewing each potential VA construction project prior to actual construction funding consideration, to assure that each proposed project reflects the best construction response to an identified medical program need.

4. Agent Orange

Beginning in 1978 concerns have been expressed by Vietnam Veterans that their exposure to Agent Orange in Vietnam might have resulted in long term adverse health affects. These concerns were based upon the presence of a contaminant, dioxin, in the herbicide. Major research efforts are now underway to study the effects of exposure to Agent Orange. Special medical care eligibility was recently provided to all veterans exposed to this chemical by Pub. L. No. 97-72. The whole issue of whether veterans disability compensation should be paid has not been resolved pending further information with respect to the effects of exposure.

5. Vietnam Veterans Outreach Center

In 1979 Congress enacted a special bill to provide community-based readjustment counseling to Vietnam Veterans. Since that date the VA has opened 136 community-based centers nationwide. Special eligibility for this program was recently extended until September 30, 1984, after which the program is to be phased into the VA's basic health care system. An issue may arise as to whether the statutory life of the program should be continued.

6. VA - Veterans Organizations Relations

Veterans Organizations are strong proponents of veterans benefits, and in many cases of other defense issues. They view any attempts to cut back on existing benefits as a threat to the entire system of benefits and as a violation of the Nations commitment to veterans.

A closer communicative relationship between the White House, the Veterans Administration, and these organizations is essential. To the extent they can be involved in the decision making process will be beneficial.
