Series List

SERIES XI: Regional Political Files

As the 1980 Campaign developed and grew, so did the need to coordinate the campaign activities that took place across the country. The regional political files within this series cover the entire campaign period, from all of 1979 to the

November election. It appears that at times, more than one part of the campaign worked on regional political matters, and the series arrangement reflects this fluid situation. This series is divided into eleven subseries.

Subseries A: Reagan for President Files

These files are from the early part of the Reagan for President campaign, including a segment listing donor information that was discovered after the initial arrangement of this series. The material includes demographic information about states, plus correspondence, memos, notes, budget info, reports, press releases, and clippings about matters in the field, or otherwise away from the national campaign headquarters.

Subseries B: Regional Files from California

This material appears to have been part of the material that remained at the California headquarters, and is chiefly demographic information about states, prepared by the RNC Computer Division.

Subseries C: Correspondence Files

The correspondence files for the Political Field Operations and the Regional Political Directors were combined to make one subseries of correspondence.

Subseries D: Political Field Operations Files

The functions performed by the Political Field Operations office of the Reagan for President Committee were apparently taken on by the Regional Political Directors of the Reagan/Bush campaign.

Subseries E: General Files Reagan/Bush Campaign

Subseries F: Eastern Region Files (Keith Bulen)

Subseries G: Southern Region Files (Paul Manafort)

Subseries H: Western Region Files (Dick Richards)

SUBSERIES I: California Campaign Files (Boxes 398-404)

Subseries I: California Campaign Files
